UNIT OVERVIEW

6.1 INTRODUCTION

A debenture is an instrument issued by a company under its seal, acknowledging a debt and containing provisions as regards repayment of the principal and interest.

Under Section 71 (1) of the Companies Act, 2013, a company may issue debentures with an option to convert such debentures into shares, either wholly or partly at the time of redemption.

Provided that the issue of debentures with an option to convert such debentures into shares, wholly or partly, should be approved by a special resolution passed at a duly convened general meeting.

Section 71 (2) further provides that no company can issue any debentures which carry any voting rights.

Section 71 (4) provides that where debentures are issued by a company, the company should create a debenture redemption reserve account out of the profits of the company available for payment of dividend and the amount credited to such account should not be utilized by the company for any purpose other than the redemption of debentures.

Basic provisions

If a charge has been created on any asset or the entire assets of the company,

- the nature of the charge
- the asset(s) charged

are described therein.

- Since the charge is not valid unless registered with the Registrar, his certificate registering the charge is printed on the bond.
- It is also customary to create a trusteeship in favour of one or more persons in the case of mortgage debentures. The trustees of debenture holders have all powers of a mortgage of a property and can act in whatever manner they think necessary to safeguard the interest of debenture holders.

Note: Issue of debentures has already been discussed in detail in unit 3 of Chapter 11.

6.2 REDEMPTION OF DEBENTURES

Debentures are usually redeemable i.e. either redeemed in cash or convertible to equity shares after a time period.

Redeemable debentures may be **redeemed**:

- after a **fixed number** of years; or
- any time after a **certain number of years** has elapsed since their issue; or
- on giving a **specified notice**; or
- by **annual drawing**.

A company may also purchase its debentures, as and when convenient, in the open market. When the debentures are quoted at a discount on the Stock Exchange, it may be profitable for the company to purchase and cancel them.

6.3 DEBENTURE REDEMPTION RESERVE

A company issuing debentures may be required to create a debenture redemption reserve account out of the profits available for distribution of dividend and amounts credited to such account cannot be utilised by the company for any other purpose except for redemption of debentures. Such an arrangement would ensure that the company will have sufficient liquid funds for the redemption of debentures at the time they fall due for payment.

An appropriate amount is transferred from profits every year to Debenture Redemption Reserve and its investment is termed as Debenture Redemption Reserve Investment (or Debenture Redemption Fund). In the last year or at the time of redemption of debentures, Debenture Redemption Reserve Investments are encashed and the amount so obtained is used for the redemption of debentures.

6.3.1 Requirement to create Debenture Redemption Reserve

Section 71 of the Companies Act 2013 covers the requirement of creating a debenture redemption reserve account. Section 71 states as follows:

- (1) Where a company issues debentures under this section, it should create a debenture redemption reserve account out of its profits which are available for distribution of dividend every year until such debentures are redeemed.
- (2) The amounts credited to the debenture redemption reserve should not be utilised by the company for any purpose except for the purpose aforesaid.

- (3) The company should pay interest and redeem the debentures in accordance with the terms and conditions of their issue.
- (4) Where a company fails to redeem the debentures on the date of maturity or fails to pay the interest on debentures when they fall due, the Tribunal may, on the application of any or all the holders of debentures or debenture trustee and, after hearing the parties concerned, direct, by order, the company to redeem the debentures forthwith by the payment of principal and interest due thereon.

6.3.2 Balance in Debenture Redemption Reserve (DRR)

When the company decides to establish the Debenture Redemption Reserve Account, the amount indicated by the Debenture Redemption Reserves tables is credited to the Debenture Redemption Reserve account and debited to profit and loss account. That shows the intention of the company to set aside sum of money to build up a fund for redeeming debentures. Immediately, the company should also purchase outside investments. The entry for the purpose naturally will be to debit Debenture Redemption Reserve Investments and credit Bank.

6.3.3 Adequacy of Debenture Redemption Reserve (DRR)

As per Rule 18 (7) of the Companies (Share Capital and Debentures) Amendment Rules, 2019, the company shall comply with the requirements with regard to Debenture Redemption Reserve (DRR) and investment or deposit of sum in respect of debentures maturing during the year ending on the 31st day of March of next year (*refer para 6.4 below*), in accordance with the conditions given below—

the Debenture Redemption Reserve shall be created out of the profits of the company available for payment of dividend; the limits with respect to adequacy of DRR and investment or deposits, as the case may be, shall be as under:

S. No	Debentures issued by	Adequacy of Debenture Redemption Reserve (DRR)

	b.	Other unlisted companies	DRR shall be 10% of the value of the outstanding debentures issued

6.3.4 Investment of Debenture Redemption Reserve (DRR) Amount

Further, as per Rule 18 (7) of the Companies (Share Capital and Debentures) Amendment Rules, 2019, following companies

- (a) All listed NBFCs
- (b) All listed HFCs
- (c) All other listed companies (other than AIFIs, Banking Companies and Other FIs); and
- (d) All unlisted companies which are not NBFCs and HFCs

shall on or before the 30th day of April in each year, in respect of debentures issued, deposit or invest, as the case may be, a sum which should not be less than 15% of the amount of its debentures maturing during the year ending on the 31st day of March of next year, in any one or more of the following methods, namely:

- (a) in deposits with any scheduled bank, free from charge or lien;
- (b) in unencumbered securities of the Central Government or of any State Government;
- (c) in unencumbered securities mentioned in clauses (a) to (d) and (ee) of Section 20 of the Indian Trusts Act, 1882;

- (d) in unencumbered bonds issued by any other company which is notified under clause (f) of Section 20 of the Indian Trusts Act, 1882.

The amount deposited or invested, as the case may be, above should not be utilised for any purpose other than for the redemption of debentures maturing during the year referred to above.

Provided that the amount remaining deposited or invested, as the case may be, shall not at any time fall below 15% of the amount of debentures maturing during the 31st day of March of that year.

In case of partly convertible debentures, DRR shall be created in respect of non-convertible portion of debenture issue.

The amount credited to DRR shall not be utilised by the company except for the purpose of redemption of debentures.

Note: It should be noted that appropriation to DRR can be made any time before redemption and Investments in specified securities as mentioned above can be done before 30th April for the debentures maturing that year, however, for the sake of simplicity and ease, it is advisable to make the appropriation and investment immediately after the debentures are allotted assuming that the company has sufficient amount of profits (issued if allotment date is not given in the question). Also, in some cases, the date of allotment could be missing, in such cases the appropriation and investments should be done on the first day of that year for which ledgers accounts are to be drafted.

6.4 METHODS OF REDEMPTION OF DEBENTURES

Redemption of debentures must be done according to the terms of issue of debentures and any deviation therefrom will be treated as a default by the company.

Redemption by paying off the debt on account of debentures issued can be done in any one of the three methods viz:

6.4.1 By payment in lumpsum

Under payment in lumpsum method, at maturity or at the expiry of a specified period of debenture the payment of entire debenture is made in one lot or even before the expiry of the specified period.

6.4.2 By payment in Instalments

Under payment in instalments method, the payment of specified portion of debenture is made in instalments at specified intervals.

6.4.3 Purchase of Debentures in Open Market

Debentures sometimes are purchased in open market. This is not covered in the chapter as it has been specifically excluded from the syllabus at Foundation level.
