Concept of Indirect Taxes

SLOB Mapped against the Module:

1. To acquire knowledge of legal provisions enshrined in laws related to GST and Customs Duty and appreciate their applicability in business operations.
2. To gather understanding of legal provisions of said two indirect tax laws about matters of compliance while conducting business operations.

Module Learning Objectives:

After studying this module, the students will be able to -

- ◉ Appreciate the difference between direct and indirect taxes
- ◉ Understand the problems in erstwhile indirect taxes

“It was only for the good of his subjects that he collected taxes from them, just as the Sun draws moisture from the Earth to give it back a thousand folds” – Kalidas in Raghuvansh eulogizing King Dalip.

In a Welfare State, the Government takes primary responsibility for the welfare of its citizens, as in matters of health care, education, employment, infrastructure, social security and other development needs. To facilitate these, Government needs revenue. Taxation is the primary source of revenue to the Government for incurring such public welfare expenditure. In other words, Government is taking taxes from the public through its one hand and through another hand; it incurs welfare expenditure for public at large. However, no one enjoys handing over his hard-earned money to the government to pay taxes. Thus, taxes are compulsory or enforced contribution to the Government revenue by public. The government may levy taxes on income, business profits or wealth or add it to the cost of some goods, services, and transactions.

Basic Reasons to impose taxation

- **To provide basic facilities for every citizen of the country :** Whatever money is received by the government from taxation is spent by it for the welfare of the citizens of the country. Some of the services provided by the government are: health care, electricity, roads, education system, free houses for the poor, water supply, police, firefighters, judiciary system, disaster relief, taking care of bridges and other things of public welfare.
- **To finance multiple governments :** All the local governments of the state like village panchayats, block panchayats and municipal corporations receive funds from the finance commission.
- **Protection of the life :** Taxpayers receive the protection of life and wealth from the government in case of external aggression, internal armed rebellion or any other situation.

Administration of Tax Laws

The administrative hierarchy of tax law is as follows:

Taxpoint :

- Both of the Boards have been constituted under the Central Board of Revenue Act, 1963.
- CBDT deals with levy and collection of all direct tax whereas matters relating to levy and collection of Central indirect tax are dealt by CBIC.

Concept and Features of Indirect Taxes

4.1

- ◉ **Tax on goods and services** : Indirect tax is levied at the time of supply or manufacture or purchase or sale or import or export of goods. Further, it is also levied on supply.
- ◉ **Burden** : Tax, being indirect tax paid by the seller, shall be recovered by the seller from the buyer. Thus, one can say that burden of indirect tax is shifted from seller to buyer and ultimately borne by consumers of such goods or services.
- ◉ **Inflationary in nature** : Cost of goods and services increases due to levy of indirect tax thus indirect taxes promote inflation.
- ◉ **Social welfare** : It is useful tool to promote social welfare by checking the consumption of harmful goods or sin goods through higher rate of tax.
- ◉ **Wider Tax Base** : Majority of goods and services are liable to indirect tax with very low threshold limits, so tax base is much wider in case of indirect tax in compare to direct tax.
- ◉ **Regressive in Nature** : All persons (rich or poor) will bear equal wrath of tax on goods or service consumed by them irrespective of their ability. In other words, indirect tax does not create any difference between rich and poor. Poor people are also required to pay equal percentage of tax on certain goods and service of mass consumption. Thus, it may increase the disparities between rich and poor.
- ◉ **No pinch** : Seller (the person on which indirect tax is levied) does not perceive a direct pinch of tax as it is recovered by him from the buyer and then he is paying to the Government. On the other hand, since it is inbuilt in the price of the goods, the ultimate payer (i.e., buyer) pay it without knowing that he is paying any tax to the Government.

Difference Between Direct & Indirect Taxes

4.2

Basis	Direct Tax	Indirect Tax
Meaning	Direct tax is referred to as the tax, levied on person's income and wealth and is paid directly to the government	Indirect Tax is referred to as the tax, levied on a person who consumes the goods and services and is paid indirectly to the government.
Nature	Progressive in nature i.e., higher tax is levied on a person earning higher income and vice versa.	Regressive in nature i.e., all persons will bear equal wrath of tax on goods or service consumed by them irrespective of their ability.
Incidence and Impact	Falls on the same person. Assessee, himself bears such taxes. Thus, it pinches the taxpayer.	Falls on different person. Tax is recovered from the assessee, who passes such burden to another person. Thus, it does not pinch the taxpayer.
Example	Income Tax	GST, Custom Duty
Evasion	Tax evasion is possible	Tax evasion is hardly possible because it is included in the price of the goods and services.
Inflation	Direct tax helps in reducing the inflation.	Cost of goods and services increases due to levy of indirect tax thus indirect taxes promote inflation. However, sometimes it is useful tool to promote social welfare by checking the consumption of harmful goods or sin goods through higher rate of tax.
Imposition and collection	Imposed on and collected from the same person	Imposed on and collected from consumers of goods and services but paid and deposited by the assessee.
Burden	Cannot be shifted	Can be shifted
Event	Taxable income of the assessee	Supply of goods and services

Background of Erstwhile Indirect Taxes

4.3

The Constitution of India is the supreme law of India. Any tax law, which is not in conformity with the Constitution, is called ultra vires the Constitution and held as illegal and void. Article 246 read with Schedule VII divides subject matter of law made by legislature into three categories :

List I	Union list (only Central Government has power of legislation on subject matters covered in the list)
List II	State list (only State Government has power of legislation on subject matters covered in the list)
List III	Concurrent list (both Central & State Government can pass legislation on subject matters).

Following major entries in the respective list enable the legislature to make law on the matter :

Union List (List I)	State List (List II)
Entry 82 - Taxes on income other than agricultural income i.e. Income-tax	Entry 54 - Taxes on the sale or purchase of goods other than newspapers, subject to the provisions of entry 92A of List I i.e., State Level VAT
Entry 83 - Duties of customs including export duties i.e., Customs Act	Entry 46 - Taxes on agricultural income.
Entry 84 - Duties of excise on tobacco and other goods manufactured or produced in India except: a. alcoholic liquors for human consumption. b. opium, Indian hemp and other narcotic drugs and narcotics, but including medicinal and toilet preparations containing alcohol / opium / Indian hemp / narcotic drugs / narcotics i.e., Central Excise Act	Entry 60 - Taxes on professions, trades, callings and employments i.e., Professional Tax
Entry 86 - Taxes on the capital value of the assets, exclusive of agricultural land, of individuals and companies; taxes on the capital of companies i.e., Wealth Tax	Entry 51 - Duties of excise on the following goods manufactured or produced in the State and countervailing duties at the same or lower rates on similar goods manufactured or produced elsewhere in India: a. alcoholic liquors for human consumption; b. opium, Indian hemp and other narcotic drugs and narcotics, but not including medicinal and toilet preparations containing alcohol/ opium/ Indian hemp/ narcotic drugs / narcotics
Entry 92A - Taxes on the sale or purchase of goods other than newspapers, where such sale or purchase takes place in the course of inter-State trade or commerce i.e., Central Sales Tax	
Entry 92C – Tax on services	
Entry 97 - Any other matter not enumerated in List II or List III including any tax not mentioned in either of those Lists.	

To curb all these, Goods and Services Tax (GST) was introduced in the system with the idea of One Nation One Tax. Various indirect tax levied by Central and State Government was subsumed into one tax called GST.

Cascading effect of tax (Tax on Tax)

In pre-GST regime, when a manufacturer “A” sold goods ₹ 1,00,000 to dealer “B” from Gujarat to Haryana, he is liable to collect pay Excise Duty and Central Sales Tax at the rate of 12% and 2% respectively, being an inter-state sale. Dealer “B” in turn sells it to Dealer “C” in Haryana after adding ₹ 10,000/- and charges VAT on such sale @ 12%.

The calculation were as follow :

Transaction	Particulars	Amount (₹)	Tax to Government (₹)
Transaction between “A” and “B”	Sale price of goods	1,00,000	
	Add: Excise Duty @ 12%	12,000	12,000
		1,12,000	
	Add: Central Sales Tax	2,240	2,240
	Total Invoice Value	1,14,240	
Transaction between “B” and “C”	Sale price of goods [₹ 1,14,240 + ₹ 10,000]	1,24,240	
	Add: VAT @ 12%	14,909	14,909
		1,39,149	
	Total Invoice Value	1,39,149	
	Total		29,149

In this regime, following are the components of the VAT amount :

- On actual price	₹ 1,00,000 x 12%	=	₹ 12,000
- On Excise Duty	₹ 12,000 x 12%	=	₹ 1,440
- On CST	₹ 2,240 x 12%	=	₹ 269
- On value added by B	₹ 10,000 x 12%	=	₹ 1,200
Total VAT			₹ 14,909

Since credit for excise duty and CST was not available to dealer B, excise duty and CST were considered as a cost. Further, he is liable to pay VAT on tax components also. Such tax on tax is known as cascading effect of tax, which leads to inflation.

If the same transactions are executed under GST law and rate of GST is say 12% then calculation would be as under :

Transaction	Particulars	Amount (₹)	Tax to Government (₹)
Transaction between “A” and “B”	Sale price of goods	1,00,000	
	Add: GST @ 12%	12,000	12,000
	Total Invoice Value	1,12,000	

Transaction	Particulars	Amount (₹)	Tax to Government (₹)
Transaction between "B" and "C"	Sale price of goods [₹ 1,00,000 + ₹ 10,000]	1,10,000	
	Add: GST @ 12%	13,200	
	Total Invoice Value	1,23,200	
	Amount payable to the Government by "B"		
	[₹ 13,200 – ₹ 12,000]		1,200
	Total		13,200

Since credit for GST paid by dealer B to dealer A is available to dealer B, hence the same is not considered as a cost. In this way, GST eliminates the cascading effect of tax and which results in lower prices.

Constitutional Validity of GST

4.4

4.4.1 Constitution (One Hundred and First) Amendment Act, 2016

Earlier, fiscal powers between the Centre and the States are clearly demarcated in the Constitution with almost no overlap between the respective domains. The Centre has the powers to levy tax on the manufacture of goods (except alcoholic liquor for human consumption, opium, narcotics etc.) while the States have the powers to levy tax on sale of goods. In case of inter-State sales, the Centre has the power to levy a tax (the Central Sales Tax) but, the tax is collected and retained entirely by the originating States. As for services, it is the Centre alone that is empowered to levy service tax. Since the States are not empowered to levy any tax on the sale or purchase of goods in the course of their importation into or exportation from India, the Centre levies and collects this tax as additional duties of customs, which is in addition to the Basic Customs Duty. This additional duty of customs (commonly known as CVD and SAD) counter balances excise duties, sales tax, State VAT and other taxes levied on the like domestic product. Introduction of GST would require amendments in the Constitution so as to concurrently empower the Centre and the States to levy and collect the GST.

Introduction of the GST required amendments in the Constitution so as to simultaneously empower the Centre and the States to levy and collect this tax. The assignment of concurrent jurisdiction to the Centre and the States for the levy of GST would require a unique institutional mechanism that would ensure that decisions about the structure, design and operation of GST are taken jointly by the two. For it to be effective, such a mechanism also needs to have Constitutional force.

To address all these and other issues, the Constitution (122nd Amendment) Bill was introduced in the 16th Lok Sabha on 19.12.2014. The Bill provides for a levy of GST on supply of all goods or services except for Alcohol for human consumption. The tax shall be levied as Dual GST separately but concurrently by the Union (central tax - CGST) and the States (including Union Territories with legislatures) (State tax - SGST) / Union territories without legislatures (Union territory tax- UTGST). The Parliament would have exclusive power to levy GST (integrated tax - IGST) on inter-State trade or commerce (including imports) in goods or services. The Central Government will have the power to levy excise duty in addition to the GST on tobacco and tobacco products. The tax on supply of five specified petroleum products namely crude, high speed diesel, petrol, air turbine fuel and natural gas would be levied from a later date on the recommendation of GST Council.

A Goods and Services Tax Council (GSTC) shall be constituted comprising the Union Finance Minister, the Minister of State (Revenue) and the State Finance Ministers to recommend on the GST rate, exemption and

thresholds, taxes to be subsumed and other features. This mechanism would ensure some degree of harmonization on different aspects of GST between the Centre and the States as well as across States. One half of the total number of members of GSTC would form quorum in meetings of GSTC. Decision in GSTC would be taken by a majority of not less than three-fourth of weighted votes cast. Centre and minimum of 20 States would be required for majority because Centre would have one-third weightage of the total votes cast and all the States taken together would have two-third of weightage of the total votes cast.

The Constitution Amendment Bill was passed by the Lok Sabha in May, 2015. The Bill was referred to the Select Committee of Rajya Sabha on 12.05.2015. The Select Committee had submitted its Report on the Bill on 22.07.2015. The Bill with certain amendments was finally passed in the Rajya Sabha and thereafter by Lok Sabha in August, 2016. Further the bill had been ratified by required number of States and received assent of the President on 8th September, 2016 and has since been enacted as Constitution (101st Amendment) Act, 2016 w.e.f. 16th September, 2016.

1. To acquire knowledge of legal provisions enshrined in laws related to GST and Customs Duty and appreciate their applicability in business operations.
2. To gather understanding of legal provisions of said two indirect tax laws about matters of compliance while conducting business operations.

Module Learning Objectives:

After studying this module, the students will be able to -

- ◉ Appreciate the Constitutional Aspects of GST
- ◉ Understand the basic features of Indian model of GST
- ◉ Appreciate the meaning of supply
- ◉ Understand the provision relating to charge, exemption and composition levy
- ◉ Appreciate the provisions relating to time and value of supply
- ◉ Appreciate the concepts of input tax credit and its utilisation
- ◉ Apply the knowledge in computing GST liability
- ◉ Appreciate the various compliance provisions of the GST laws.

Under the earlier taxation system for indirect taxes, number of indirect taxes were being levied and collected at multiple rates both by Central Government and State Governments on different activities undertaken. The international best tax practices in indirect taxes look for, easing out the complications and cumbersome confusing compliances and reduce interaction with different statutory authorities. Similar thought process was started in India to consolidate number of taxes in to one system of taxation uniformly across the country in late 1970s.

The idea of moving towards the GST was first mooted by the then Union Finance Minister in his Budget for 2006-07. Initially, it was proposed that GST would be introduced from 1st April, 2010. The Empowered Committee of State Finance Ministers (EC) which had formulated the design of State VAT was requested to come up with a roadmap and structure for the GST. Joint Working Groups of officials having representatives of the States as well as the Centre were set up to examine various aspects of the GST and draw up reports specifically on exemptions and thresholds, taxation of services and taxation of inter-State supplies. Based on discussions within and between it and the Central Government, then First Discussion Paper (FDP) was released on GST in November, 2009. This spell out the features of the proposed GST and has formed the basis for discussion between the Centre and the States so far.

The introduction of Goods and Services Tax (GST) would be a very significant step in the field of indirect tax reforms in India. By amalgamating a large number of Central and State taxes into a single tax, it would mitigate cascading or double taxation in a major way and pave the way for a common national market. From the consumer point of view, the biggest advantage would be in terms of a reduction in the overall tax burden on goods. Introduction of GST would also make Indian products competitive in the domestic and international markets.

5.1.1 Amendments made by the Constitution (101st Amendment) Act, 2016

Constitution of Goods and Services Tax Council [Article 279A]

1. The President shall, within 60 days from the date of commencement of the Constitution (101st Amendment) Act, 2016, by order, constitute a Council to be called the Goods and Services Tax Council. Accordingly, the President has since constituted the GST Council.
2. The GST Council which will be a joint forum of the Centre and the States, shall consist of the following members :

a.	Union Finance Minister	Chairperson
b.	The Union Minister of State, in-charge of Revenue of finance	Member
c.	The Minister In-charge of finance or taxation or any other Minister nominated by each State Government	Members

3. The Members of the Goods and Services Tax Council referred to in clause 2(c) shall, as soon as may be, choose one amongst themselves to be the Vice-Chairperson of the Council for such period as they may decide
4. The Goods and Services Tax Council shall make recommendations to the Union and the States on—
 - a. the taxes, cesses and surcharges levied by the Union, the States and the local bodies which may be subsumed in the goods and services tax;
 - b. the goods and services that may be subjected to, or exempted from the goods and services tax;
 - c. model Goods and Services Tax Laws, principles of levy, apportionment of Goods and Services Tax levied on supplies in the course of inter-State trade or commerce under article 269A and the principles that govern the place of supply;
 - d. the threshold limit of turnover below which goods and services may be exempted from goods and services tax;

- e. the rates including floor rates with bands of goods and services tax;
 - f. any special rate or rates for a specified period, to raise additional resources during any natural calamity or disaster;
 - g. special provision with respect to the States of Arunachal Pradesh, Assam, Jammu and Kashmir, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, Tripura, Himachal Pradesh and Uttarakhand; and
 - h. any other matter relating to the goods and services tax, as the Council may decide.
5. The Goods and Services Tax Council shall recommend the date on which the goods and services tax be levied on petroleum crude, high speed diesel, motor spirit (commonly known as petrol), natural gas and aviation turbine fuel.
 6. One-half of the total number of Members of the Goods and Services Tax Council shall constitute the quorum at its meetings.
 7. Every decision of the Goods and Services Tax Council shall be taken at a meeting, by a majority of not less than three-fourths of the weighted votes of the members present and voting, in accordance with the following principles, namely:—
 - a. the vote of the Central Government shall have a weightage of onethird of the total votes cast, and
 - b. the votes of all the State Governments taken together shall have a weightage of two-thirds of the total votes cast, in that meeting.
 8. No act or proceedings of the Goods and Services Tax Council shall be invalid merely by reason of
 - a. any vacancy in, or any defect in, the constitution of the Council; or
 - b. any defect in the appointment of a person as a Member of the Council; or
 - c. any procedural irregularity of the Council not affecting the merits of the case.

Special provision with respect to goods and services tax [Article 246A]

1. Notwithstanding anything contained in articles 246 and 254, Parliament, and, subject to clause (2), the Legislature of every State, have power to make laws with respect to goods and services tax imposed by the Union or by such State.
2. Parliament has exclusive power to make laws with respect to goods and services tax where the supply of goods, or of services, or both takes place in the course of inter-State trade or commerce.

Taxpoint :

- ⊙ As per Article 366(12A), “goods and services tax” means any tax on supply of goods, or services or both except taxes on the supply of the alcoholic liquor for human consumption
- ⊙ In case of inter-State supply, Central Government have exclusive power to make law and for intra-State supply, both Central and State government has power to make law.
- ⊙ The provisions of this article, shall, in respect of goods and services tax referred to in Article 279A(5), take effect from the date recommended by the Goods and Services Tax Council (i.e., on this goods: petroleum crude, high speed diesel, motor spirit (commonly known as petrol), natural gas and aviation turbine fuel)
- ⊙ Earlier as per Article 246, power to levy various types of indirect tax was distributed between Central Government and State Government. Article 246A empowered both the Government to levy GST.

5.1.2 Levy and collection of goods and services tax in course of inter-State trade or commerce [Article 269A]

1. Goods and services tax on supplies in the course of inter-State trade or commerce shall be levied and collected by the Government of India and such tax¹ shall be apportioned between the Union and the States in the manner as may be provided by Parliament by law on the recommendations of the Goods and Services Tax Council.

Taxpoint : Supply of goods, or of services, or both in the course of import into the territory of India shall be deemed to be supply of goods, or of services, or both in the course of inter-State trade or commerce.

2. The amount apportioned (as aforesaid) to a State shall not form part of the Consolidated Fund of India.
3. Where an amount collected as IGST has been used for payment of the SGST (or vice versa), such amount shall not form part of the Consolidated Fund of India.
4. Parliament may, by law, formulate the principles for determining the place of supply, and when a supply of goods, or of services, or both takes place in the course of inter-State trade or commerce.

5.1.3 GST Network (GSTN)

A common portal or platform is needed which could act as a clearing house and verify the claims and inform the respective government to transfer the funds. This is possible with the help of a strong IT infrastructure. Accordingly, Government has established common GST Electronic Portal (www.gst.gov.in), a website managed by Goods and Services Network (GSTN) for the tax payer and common IT infrastructure for Central and States. GSTN (a non-profit Government owned organisation) is a Special Purpose Vehicle. The functions of the GSTN would, inter alia, include:

- a. facilitating registration;
- b. forwarding the returns to Central and State authorities;
- c. computation and settlement of IGST;
- d. matching of tax payment details with banking network;
- e. providing various MIS reports to the Central and the State Governments based on the tax payer return information;
- f. providing analysis of tax payers' profile; and
- g. running the matching engine for matching, reversal and reclaim of input tax credit.

The GSTN is developing a common GST portal and applications for registration, payment, return, assessment and MIS/reports.

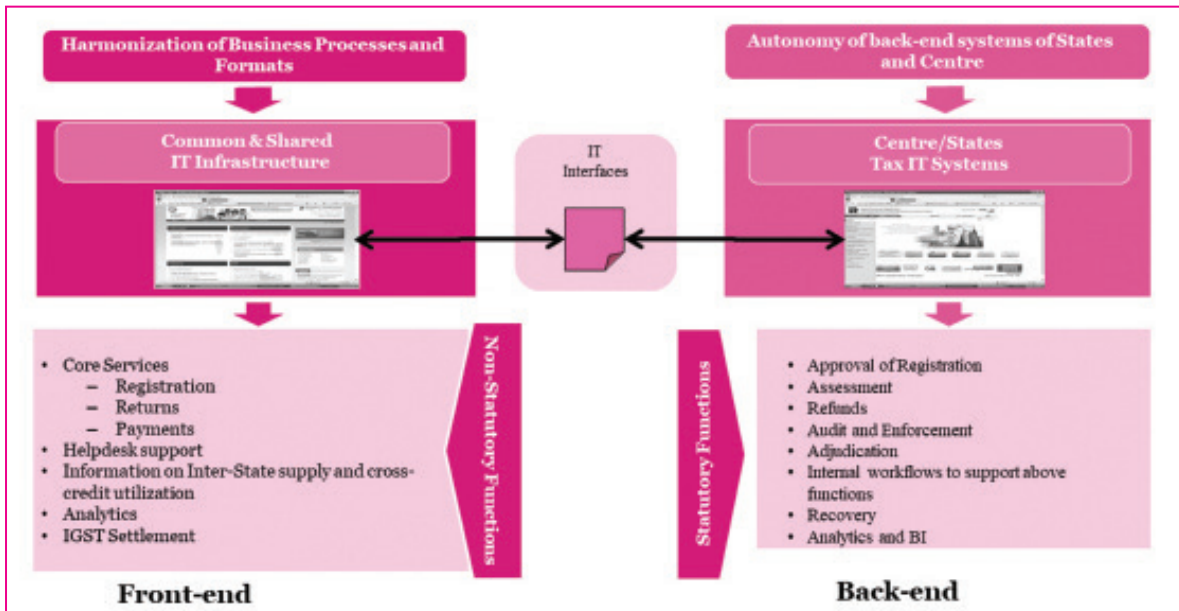

On registration on the common portal (www.gst.gov.in), each taxpayer will receive 15 alpha numeric PAN based unique Goods and Service Tax Identification Number (GSTIN).

Salient features of GSTN

- ◉ Incorporated in March 2013 as sec. 25 100% government owned company with paid up capital of ₹ 10 crore
- ◉ To function as a Common Pass-through portal for taxpayers

¹ This tax is termed as the Integrated Goods and Services Tax (IGST).

- Submit registration application
- File returns
- Make tax payments
- To develop back-end modules for States
- Infosys Ltd. appointed as Managed Service Provider (MSP)
- Appointed more than 70 GST Suvidha Providers (GSPs)

5.1.4 Need for GST

Under the pre-GST regime, there are various taxes that have to pay at every stage and differently collected by State and Central Government and rates differ from one state to another. Imposing several taxes on goods and services can lead to high cost and inefficient tax structure. Moreover :

- a. Tax levied by one Government was not available for set off against the tax levied by another Government. Even few taxes levied by the Government was not allowed to be set off with another type of tax levied by the same Government.
- b. Further, there was cascading effect of taxation (i.e., tax on tax), which leads to inflation. E.g., VAT is levied by the State Government on the excise duty levied by the Central Government.
- c. Rate of CST was lower than VAT rate which had been used by the business as tax arbitrage.
- d. Each State has separate VAT law which had divided the nation into various economic states.
- e. Due to levy of entry tax, octroi, etc. by various State Governments results into a hindrance in free flow of business.

GST removed the inefficiencies and complexities of the erstwhile archaic taxation system and helped in accelerating growth. GST has been enacted with effect from 01-07-2017 with the following benefits:

1. **Tax subsumed in the GST :** Following taxes, levied by different Governments, were subsumed in the GST:

However, it is to be noted that following taxes are not subsumed into the GST:

Central Taxes	State Taxes
Basic Customs Duty	State Excise Duty
Research and Development Cess	Stamp Duty
Export Duty	Profession Tax
Anti-Dumping Duty	Motor Vehicle Tax
Safeguard Duty	

- Seamless Flow of Credit :** In the GST regime, the buyer (other than ultimate consumer) will take the credit of tax paid² by him at the time of purchase of goods and services, and he can utilize that credit in discharging his tax liability. GST eliminates the multiplicity and cascading of taxes which results into overall reduction in tax incidence.
- Competitive prices :** GST eliminates all other taxes of indirect nature, and this will effectively mean that the tax amount paid by end consumers will reduce. Lower the prices, more will be demand for that product, which will result in more consumption and will benefit the entities.
- Increase in revenue :** One reason behind the need for GST was also to boost the revenue from the indirect taxes in the nation. GST is easy to understand, and a simple tax structure will bring more taxpayers and in return, it will increase the revenue for the Government.
- Easy and straightforward tax structure :** Before GST, taxpayers needed to pay a lot of taxes, but with GST, a single tax system, only one tax needs to be paid, which is comparatively easy and convenient to understand. For accounting, business complexities will reduce and result in less paperwork, saving both money and time.
- One Nation One Tax :** With uniform tax on supplies of goods and services India turned into one market.

² Subject to certain restrictions

5.1.5 Benefits of GST

The benefits of GST can be summarized as under :

A. For business and industry

- **Easy compliance** : A robust and comprehensive IT system would be the foundation of the GST regime in India. Therefore, all tax-payer services such as registrations, returns, payments, etc. would be available to the taxpayers online, which would make compliance easy and transparent.
- **Uniformity of tax rates and structures** : GST will ensure that indirect tax rates and structures are common across the country, thereby increasing certainty and ease of doing business. In other words, GST would make doing business in the country tax neutral, irrespective of the choice of place of doing business.
- **Removal of cascading** : A system of seamless tax-credits throughout the value-chain, and across boundaries of States, would ensure that there is minimal cascading of taxes. This would reduce hidden costs of doing business.
- **Improved competitiveness** : Reduction in transaction costs of doing business would eventually lead to an improved competitiveness for the trade and industry.
- **Gain to manufacturers and exporters** : The subsuming of major Central and State taxes in GST, complete and comprehensive set-off of input goods and services and phasing out of Central Sales Tax (CST) would reduce the cost of locally manufactured goods and services. This will increase the competitiveness of Indian goods and services in the international market and give boost to Indian exports. The uniformity in tax rates and procedures across the country will also go a long way in reducing the compliance cost.

B. For Central and State Governments

- **Simple and easy to administer** : Multiple indirect taxes at the Central and State levels are being replaced by GST. Backed with a robust end-to-end IT system, GST would be simpler and easier to administer than all other indirect taxes of the Centre and State levied so far.
- **Better controls on leakage** : GST will result in better tax compliance due to a robust IT infrastructure. Due to the seamless transfer of input tax credit from one stage to another in the chain of value addition, there is an inbuilt mechanism in the design of GST that would incentivize tax compliance by traders.
- **Higher revenue efficiency** : GST is expected to decrease the cost of collection of tax revenues of the Government, and will therefore, lead to higher revenue efficiency.
- **Boost to 'Make in India' initiative** : GST will give major boost to the 'Make in India' initiative of government of India by making goods and services produced in India competitive in the national as well as international market.

C. For the consumer

- **Single and transparent tax proportionate to the value of goods and services** : Due to multiple indirect taxes being levied by the Centre and State, with incomplete or no input tax credits available at progressive stages of value addition, the cost of most goods and services in the country today are laden with many hidden taxes. Under GST, there would be only one tax from the manufacturer to the consumer, leading to transparency of taxes paid to the final consumer.
- **Relief in overall tax burden** : Because of efficiency gains and prevention of leakages, the overall tax burden on most commodities will come down, which will benefit consumers.

5.1.6 Salient Features of GST

- Destination Based Tax :** GST is a value added destination-based tax on consumption of goods and services. It is levied at all stages right from manufacture up to final consumption with credit of taxes paid at previous stages available as setoff. In a nutshell, only value addition will be taxed and burden of tax is to be borne by the final consumer. Benefit of tax (STCG/ UTGST) will accrue to the consuming state which will benefit the poor states.

Example 1 : If A in Gujarat produces the goods and sells the goods to B in Rajasthan, then in such case the tax should be levied and collected and should accrue to the State of Rajasthan and not to the State of Gujarat³.

- One Nation One Tax :** GST is levied on supply of goods and services across India (including Jammu and Kashmir). It is a single tax on the supply of goods and services, right from the manufacturer to the consumer.
- Dual GST Model :** Centre and states will impose tax on goods and services simultaneously.
 - Intra-State supply of goods and services
 - CGST: Payable to Central Government
 - SGST/ UTGST: Payable to State Government/ Union Territory (as applicable) where they are consumed
 - Inter-States Supply of goods and services
 - IGST: Payable to Central Government

Centre will levy and administer CGST and IGST while respective States/ UTs will levy and administer SGST/UTGST

- Import and Export :** Import will be treated as inter-States supply and IGST will be chargeable along with basic Customs duty. However, in GST Export will be treated as Zero rated supplies and no IGST is payable.

³ In pre-GST regime which was origin base taxation system, revenue will accrue to the State of Gujarat

- ⦿ **Rates of GST :** The rates of GST⁴ are 0.5%, 3%, 5%, 12%, 18% and 28%. In addition, compensation cess will be payable on pan masala, tobacco & tobacco product, coal, lignite, aerated water and motor-cars.
- ⦿ **Tax on value of supply :** GST will be calculated on value of supply of goods and services, which is transaction value. (subject to some exceptions)
- ⦿ **Registration :** Under GST, every suppliers who have made taxable supply (subject to certain threshold limits) shall required to get himself registered under GST Law.
- ⦿ **Input Tax Credit :** A registered person is entitled to take credit (deduction) of input tax paid from the output tax (if any) subject to following restriction:
 - a. Utilisation of IGST: First utilized for the payment of IGST then the balance, if any, shall be utilized towards payment of CGST and SGST/UTGST
 - b. Utilisation of CGST: First utilized for the payment of CGST then the balance, if any, may be utilized towards payment of IGST.
 - c. Utilisation of SGST/UTGST: First utilized for the payment of SGST/UTGST then the balance may be utilized towards payment of IGST.
- ⦿ **Acts and Rules:** For implementation of the GST, following Acts and major Rules are there :

Act	Rules
The Central Goods and Services Tax Act, 2017 ⁵	Central Goods and Services Tax Rules, 2017
The Integrated Goods and Services Tax Act, 2017	Integrated Goods and Services Tax Rules, 2017
The Goods and Services Tax (Compensation to States) Act, 2017	Goods and Services Tax Compensation Cess Rules, 2017

- ⦿ **Other features**
 - a. In specified situation, self-supply is also treated as taxable supply and hence liable for tax
 - b. Even in few cases, supply without consideration is also liable for GST
 - c. The law has also notified the list of exempted goods and services
 - d. Alcoholic liquor for human consumption, petroleum crude, high speed diesel, motors spirits (commonly known as petrol), natural gas and aviation turbine fuel has been kept out of the purview of the GST
 - e. Procedure for collection of GST is uniform across the States.
 - f. Common return would serve the purpose of both Centre and State Government.

5.1.7 Goods and Services Tax Compensation Cess

- ⦿ Goods and Services Tax (Compensation to States) Act, 2017 was enacted to levy Compensation cess for providing compensation to the States for the loss of revenue arising on account of implementation of the goods and services tax with effect from the date from which the provisions of the Central Goods and Services Tax Act is brought into force (01/07/2017), for a period of five years or for such period as may be prescribed on the recommendations of the GST Council⁶.
- ⦿ Taxable persons selling notified goods are liable to collect and pay GST Cess. Notified goods are:
 - a. Pan masala,
 - b. Tobacco & tobacco product,
 - c. Cigarettes, cigar

⁴ These are IGST rates, however where CGST and SGST/UTGST is applicable (i.e., in case of intra-State supply) rate of IGST shall be divided into 2 parts i.e., 50% of rate of IGST shall be treated as rate of CGST and balance 50% shall be treated as SGST/UTGST. E.g. where IGST rate of inter-State supply of goods is 18% then if such goods are supplied in the course of intra-State supply, applicable CGST rate would be 9% (i.e., 50% of 18%) and applicable SGST/UTGST rate would be 9% (i.e., 50% of 18%)

⁵ Similar law has been made by States and UT

⁶ Extended upto 31/03/2026

- d. Coal, lignite,
- e. Aerated water; and
- f. Motor-cars

- ⊙ Cess shall be computed on the value of taxable supply. Cess is levied in addition to CGST + SGST/UTGST in case of intra-state sales and IGST in case of inter-state sales including import of goods.
- ⊙ Taxpayer can use Input Tax Credit of Cess for payment of Cess liability on outward supply made by him. He cannot use Input Tax Credit of Cess for payment of output CGST, SGST or IGST
- ⊙ Where a taxpayer is registered under composition levy, Cess is not applicable on outward supplies made by him
- ⊙ Cess is not levied on export made from India. The exporter can claim a refund of the input tax credit of cess paid on purchases
- ⊙ The amount of compensation to be distributed to each state shall be calculated as follows:
 - Step 1 : Base revenue = Tax revenue of the State in financial year 2015-16.
 - Step 2 : Assume growth rate as 14% and calculate projected revenue for each financial year.
The implication of projected revenue is that this would be the revenue that a state could have earned if GST were not implemented.
If the base year revenue for 2015-16 for a concerned State, calculated as per section 5 is one hundred rupees, then the projected revenue for financial year 2018-19 shall be:
Projected Revenue for 2018-19=100 (1+14/100)³
 - Step 3 : Calculate the Compensation payable for each FY as follows :

Projected Revenue for that particular financial year	xxx
(-) Actual Revenue earned by the State including share in IGST	xxx
Compensation payable to the State	xxx

- ⊙ 50% of the amount remaining unutilised in the Fund at the end of the transition period shall be transferred to the Consolidated Fund of India as the share of Centre, and the balance 50% shall be distributed amongst the States in the ratio of their total revenues from the State tax or the Union territory goods and services tax, as the case may be, in the last year of the transition period.

FAQ by CBIC on 15-12-2018

Q 1. What is Goods and Services Tax (GST)?

Answer : It is a destination based tax on consumption of goods and services. It is proposed to be levied at all stages right from manufacture up to final consumption with credit of taxes paid at previous stages available as setoff. In a nutshell, only value addition will be taxed and burden of tax is to be borne by the final consumer.

Q 2. What exactly is the concept of destination based tax on consumption?

Answer : The tax would accrue to the taxing authority which has jurisdiction over the place of consumption which is also termed as place of supply.

Q 3. Which of the existing taxes are proposed to be subsumed under GST?

Answer : The GST would replace the following taxes:

- i. taxes currently levied and collected by the Centre:
 - a. Central Excise duty
 - b. Duties of Excise (Medicinal and Toilet Preparations)
 - c. Additional Duties of Excise (Goods of Special Importance)
 - d. Additional Duties of Excise (Textiles and Textile Products)

- e. Additional Duties of Customs (commonly known as CVD)
- f. Special Additional Duty of Customs (SAD)
- g. Service Tax
- h. Central Surcharges and Cesses so far as they relate to supply of goods and services
- ii. State taxes that would be subsumed under the GST are:
 - a. State VAT
 - b. Central Sales Tax
 - c. Luxury Tax
 - d. Entry Tax (all forms)
 - e. Entertainment and Amusement Tax (except when levied by the local bodies)
 - f. Taxes on advertisements
 - g. Purchase Tax
 - h. Taxes on lotteries, betting and gambling
 - i. State Surcharges and Cesses so far as they relate to supply of goods and services

The GST Council shall make recommendations to the Union and States on the taxes, cesses and surcharges levied by the Centre, the States and the local bodies which may be subsumed in the GST.

Q 4. Which are the commodities which have been kept outside the purview of GST?

Answer : Article 366(12A) of the Constitution as amended by 101st Constitutional Amendment Act, 2016 defines the Goods and Services tax (GST) as a tax on supply of goods or services or both, except supply of alcoholic liquor for human consumption. So alcohol for human consumption is kept out of GST by way of definition of GST in constitution. Five petroleum products viz. petroleum crude, motor spirit (petrol), high speed diesel, natural gas and aviation turbine fuel have temporarily been kept out and GST Council shall decide the date from which they shall be included in GST.

Q 5. What is the status of Tobacco and Tobacco products under the GST regime?

Answer : Tobacco and tobacco products is leviable to GST. In addition, the Centre has the power to levy Central Excise duty on these products.

Q 6. What type of GST was implemented?

Answer : It would be a dual GST with the Centre and States simultaneously levying it on a common tax base. The GST to be levied by the Centre on intra-State supply of goods and / or services would be called the Central GST (CGST) and that to be levied by the States/ Union territory would be called the State GST (SGST)/ UTGST. Similarly, Integrated GST (IGST) will be levied and administered by Centre on every inter-state supply of goods and services.

Q 7. Why is Dual GST required?

Answer : India is a federal country where both the Centre and the States have been assigned the powers to levy and collect taxes through appropriate legislation. Both the levels of Government have distinct responsibilities to perform according to the division of powers prescribed in the Constitution for which they need to raise resources. A dual GST will, therefore, be in keeping with the Constitutional requirement of fiscal federalism.

Q 8. Which authority will levy and administer GST?

Answer : Centre will levy and administer CGST & IGST while respective states /UTs will levy and administer SGST/ UTGST.

Q 9. Why was the Constitution of India amended recently in the context of GST?

Answer : Currently, the fiscal powers between the Centre and the States are clearly demarcated in the Constitution with almost no overlap between the respective domains. The Centre has the powers to levy tax on the manufacture of goods (except alcoholic liquor for human consumption, opium, narcotics etc.) while the States have the powers

to levy tax on the sale of goods. In the case of inter-State sales, the Centre has the power to levy a tax (the Central Sales Tax) but, the tax is collected and retained entirely by the States. As for services, it is the Centre alone that is empowered to levy service tax.

Introduction of the GST required amendments in the Constitution so as to simultaneously empower the Centre and the States to levy and collect this tax. The Constitution of India has been amended by the Constitution (one hundred and first amendment) Act, 2016 for this purpose. Article 246A of the Constitution empowers the Centre and the States to levy and collect the GST.

Q 10. What are the benefits which the Country will accrue from GST?

Answer : Introduction of GST would be a very significant step in the field of indirect tax reforms in India. By amalgamating a large number of Central and State taxes into a single tax and allowing set-off of prior-stage taxes, it would mitigate the ill effects of cascading and pave the way for a common national market. For the consumers, the biggest gain would be in terms of a reduction in the overall tax burden on goods, which is currently estimated at 25%-30%. Introduction of GST would also make our products competitive in the domestic and international markets. Studies show that this would instantly spur economic growth. There may also be revenue gain for the Centre and the States due to widening of the tax base, increase in trade volumes and improved tax compliance. Last but not the least, this tax, because of its transparent character, would be easier to administer.

Q 11. What is IGST?

Answer : Under the GST regime, an Integrated GST (IGST) would be levied and collected by the Centre on inter-State supply of goods and services. Under Article 269A of the Constitution, the GST on supplies in the course of inter- State trade or commerce shall be levied and collected by the Government of India and such tax shall be apportioned between the Union and the States in the manner as may be provided by Parliament by law on the recommendations of the Goods and Services Tax Council.

Q 12. Who will decide rates for levy of GST?

Answer : The CGST and SGST would be levied at rates to be jointly decided by the Centre and States. The rates would be notified on the recommendations of the GST Council.

Q 13. What would be the role of GST Council?

Answer : A GST Council would be constituted comprising the Union Finance Minister (who will be the Chairman of the Council), the Minister of State (Revenue) and the State Finance/Taxation Ministers to make recommendations to the Union and the States on

- a. the taxes, cesses and surcharges levied by the Centre, the States and the local bodies which may be subsumed under GST;
- b. the goods and services that may be subjected to or exempted from the GST;
- c. the date on which the GST shall be levied on petroleum crude, high speed diesel, motor spirit (commonly known as petrol), natural gas and aviation turbine fuel;
- d. model GST laws, principles of levy, apportionment of IGST and the principles that govern the place of supply;
- e. the threshold limit of turnover below which the goods and services may be exempted from GST;
- f. the rates including floor rates with bands of GST;
- g. any special rate or rates for a specified period to raise additional resources during any natural calamity or disaster;
- h. special provision with respect to the North- East States, J&K, Himachal Pradesh and Uttarakhand; and
- i. any other matter relating to the GST, as the Council may decide.

Levy and Collection of CGST and IGST

5.2

5.2.1 Application of CGST/ IGST Law

The introduction of Goods and Services Tax (GST) was a significant reform in the field of indirect taxes in our country. Multiple taxes levied and collected by the Centre and states has been replaced by one tax called Goods and Services Tax (GST). GST is a multi-stage value added tax on consumption of goods or services or both. A “dual GST” model has been adopted in view of the federal structure of our country.

A. Intra-State Supply

Centre and States will simultaneously levy GST on every supply of goods or services or both which takes place within a State or Union territory. Thus, there shall be two components of GST as under:

- a. Central tax (CGST): (levied & collected under the authority of CGST Act, 2017 passed by the Parliament)
- b. State tax (SGST) (levied & collected under the authority of SGST Act, 2017 passed by respective State)

B. Inter-State Supply

Centre will levy Integrated Goods and Services Tax (IGST) on every supply of goods or services or both. However, the levy shall be shared equally between Central and respective State Government.

$$\text{IGST rate} = \text{CGST rate} + \text{SGST rate}$$

In the GST, it is very important to determine the nature of supply – whether it is inter-state or intra state, as the kind of tax to be paid (IGST or CGST+SGST) depends on that. A brief note to determine nature of supply are as under :

Intra-State supply	Inter-State supply
1. Supply of goods within the state or union territory.	i. Supply of goods from one state or union territory to other state or union territory.
	ii. Supply of service from one state or union territory to other state or union territory.
	iii. Import of goods till they cross customs frontier.
	iv. Import of service.
2. Supply of services within the state or union territory	v. Export of goods or service.
	vi. Supply of goods/services to/by SEZ.
	vii. Any other supply in the taxable territory which is not intra state supply.

However, sec. 20 of the IGST Act, inter alia, provides that the provisions of Central Goods and Services Tax Act relating to:

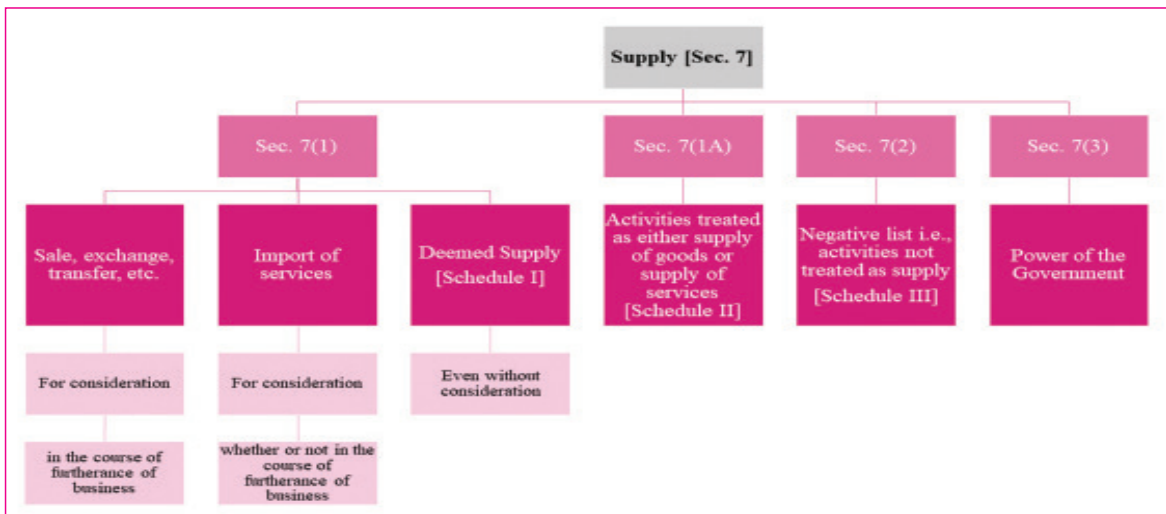

- a. scope of supply;

- b. composite supply and mixed supply;
- c. time and value of supply;
- d. input tax credit;
- e. registration;
- f. tax invoice, credit and debit notes;
- g. returns, other than late fee;
- h. payment of tax;

shall, mutatis mutandis, apply, so far as may be, in relation to integrated tax as they apply in relation to central tax as if they are enacted under this Act.

5.2.2 Concept of Supply including Composite and Mixed Supplies

The taxable event in GST is supply of goods or services or both. Various taxable events like manufacture, sale, rendering of service, purchase, entry into a territory of State etc. have been done away with in favour of just one taxable event i.e., supply. Thus, it is very important to understand the meaning of supply. The GST law provides an inclusive definition of “supply”.

Supply [Sec. 7(1)]

Supply includes :

- a. **all forms** of supply of goods or services or both such as sale, transfer, barter, exchange, licence, rental, lease or disposal made or agreed to be made for a **consideration** by a person **in the course or furtherance of business**.
- aa. the activities or transactions, by a person, other than an individual, to its members or constituents or vice-versa, for cash, deferred payment or other valuable consideration.
 - Notwithstanding anything contained in any other law for the time being in force or any judgment, decree or order of any Court, tribunal or authority, the person and its members or constituents shall be deemed to be two separate persons and the supply of activities or transactions inter se shall be deemed to take place from one such person to another;
- b. import of services **for a consideration whether or not** in the course or furtherance of business.
- c. the activities specified in Schedule I, made or agreed to be made **without a consideration**.

All forms of supply of goods or services or both for a consideration by a person in the course or furtherance of business [Sec. 7(1)(a)]

- Supply should be of goods and services. If something else is supplied like money or securities, it is not covered.
- Supply includes all forms of supply (goods and/ or services) and includes agreeing to supply when the supply is for a consideration and in the course or furtherance of business. It specifically provides for the inclusion of the following classes of transactions# :

a. Sale	Sale is a lawful, permanent and absolute transfer of ownership of property in goods for money consideration under a valid contract such that no rights are left behind with the transferor.
b. Transfer	Transfer is to lawfully convey property from one person to another. Consent of the transferor and capacity of transferee may not be present although all other ingredients of a lawful contract are involved.
c. Barter	Barter is where the consideration is in the form of goods or services (and not in money) for a sale or transfer. Barter will involve two supplies and not one.
d. Exchange	The act of giving or taking one thing in return for another.
e. License	To give permission to enter and use the property (movable or immovable) or permission to act.
f. Rental	An arrangement to rent something or the amount of money that you pay to rent something.
g. Lease	To make a legal agreement by which money is paid in order to use land, a building, a vehicle, or a piece of equipment for an agreed period of time.
h. Disposal	The act of getting rid of something, especially by throwing it away

These are illustrative form of supply.

- The supply includes supply of goods or services agreed to made in future. E.g., if Mr. X receives advance payment for providing specific service in future, the Mr. X is required to pay GST at the time of receipt of advance money as here he agrees to provide services in future.
- Supply should be made for a consideration (i.e., quid pro quo). Consideration may be money or something else. As per sec. 2(31), **consideration** in relation to the supply of goods or services or both includes:
 - a. any payment made or to be made, whether in money or otherwise, in respect of, in response to, or for the inducement of, the supply of goods or services or both, whether by the recipient or by any other person but **shall not include** any subsidy given by the Central Government or a State Government;
 - b. the monetary value of any act (doing something) or forbearance (not doing something), in respect of, in response to, or for the inducement of, the supply of goods or services or both, whether by the recipient or by any other person but **shall not include** any subsidy given by the Central Government or a State Government:

However, a deposit given in respect of the supply of goods or services or both shall not be considered as payment made for such supply unless the supplier applies such deposit as consideration for the said supply.

- It may be monetary or non-monetary.

- For a transaction to qualify as 'supply', it is essential that the same is 'in the course' or 'furtherance of business'. This implies that only such supplies of goods and/ or services by a business entity would be liable to tax, which are 'in the course' or in 'furtherance of business'. Supplies that are not in the course of business or in furtherance of business will not qualify as 'supply' for the purpose of levy of tax.
- As per sec. 2(52), **goods** means every kind of **movable property** other than money and securities but includes actionable claim, growing crops, grass and things attached to or forming part of the land which are agreed to be severed before supply or under a contract of supply.

Taxpoint : Specified actionable claim shall be taxable..

- As per sec. 2(102), **services** means anything other than goods, money and securities but includes activities relating to the use of money or its conversion by cash or by any other mode, from one form, currency or denomination, to another form, currency or denomination for which a separate consideration is charged. It also includes facilitating or arranging transactions in securities;
- As per sec. 2(107) **taxable person** means a person who is registered or liable to be registered u/s 22 or sec. 24.

Supply should be made by a taxable person. However, recipient of the supply may or may not be a taxable person.

- As per sec. 2(84), **person** includes:
 - a. an individual;
 - b. a Hindu Undivided Family;
 - c. a company;
 - d. a firm;
 - e. a Limited Liability Partnership;
 - f. an association of persons or a body of individuals, whether incorporated or not, in India or outside India;
 - g. any corporation established by or under any Central Act, State Act or Provincial Act or a Government company as defined in sec. 2(45) of the Companies Act, 2013;
 - h. any body corporate incorporated by or under the laws of a country outside India;
 - i. a co-operative society registered under any law relating to co-operative societies;
 - j. a local authority;
 - k. Central Government or a State Government;
 - l. society as defined under the Societies Registration Act, 1860;
 - m. trust; and
 - n. every artificial juridical person, not falling within any of the above;
- As per sec. 2(109), taxable territory means the territory to which the provisions of this Act apply.
- As per sec. 2(108), taxable supply means a supply of goods or services or both which is leviable to tax under this Act;

- ⊙ As per sec. 2(17), business includes:
 - a. any trade, commerce, manufacture, profession, vocation, adventure, wager or any other similar activity, whether or not it is for a pecuniary benefit;
 - b. any activity or transaction in connection with or incidental or ancillary to sub-clause (a);
 - c. any activity or transaction in the nature of sub-clause (a), whether or not there is volume, frequency, continuity or regularity of such transaction;
 - d. supply or acquisition of goods including capital goods and services in connection with commencement or closure of business;
 - e. provision by a club, association, society, or any such body (for a subscription or any other consideration) of the facilities or benefits to its members;
 - f. admission, for a consideration, of persons to any premises;
 - g. services supplied by a person as the holder of an office which has been accepted by him in the course or furtherance of his trade, profession or vocation;
 - h. activities of a race club including by way of totalisator or a license to book maker or activities of a licensed book maker in such club; and
 - i. any activity or transaction undertaken by the Central Government, a State Government or any local authority in which they are engaged as public authorities;

The meaning and scope of supply under GST can be understood in terms of following parameters, which can be adopted to characterize a transaction as supply:

- ⊙ Supply of goods or services or both (Supply of anything other than goods or services does not attract GST).
- ⊙ Supply should be made for a consideration (subject to certain exceptions).
- ⊙ Supply should be made in the course or furtherance of business (subject to certain exceptions).
- ⊙ Supply should be a taxable supply.
- ⊙ Supply should be made in a taxable territory.
- ⊙ Supply is made by as taxable person.

Import of service for consideration whether or not in the course or furtherance of business [Sec. 7(1)(b)]

The word 'supply' includes import of a service (not goods), made for a consideration and whether or not in the course or in furtherance of business. This implies that import of paid services even for personal consumption would qualify as 'supply' and, therefore, would be liable to tax.

Activities specified in Schedule I, made or agreed to be made without a consideration [Sec. 7(1)(c)]

As per schedule I, following activities are to be treated as supply even if made without consideration provided such activities are in course or furtherance of business:

1. Permanent transfer or disposal of business assets where input tax credit (ITC) has been availed on such asset shall be treated as supply.

Taxpoint :

Where ITC has not been availed at the time of acquisition of asset, disposal of such asset without consideration is not treated as supply.

Example 2 :

- Mr. Ramesh is engaged in the business of beauty products. Few of items on which he has already availed ITC, taken by him for personal use of his family members. Such transaction shall be treated as supply even though there is no consideration involved.
 - Mr. Kisan purchased furniture on which he has taken ITC. After 2 years, he donated that furniture to an NGO. This donation is treated as supply under the GST law.
2. Supply of goods or services or both between:
 - related persons or
 - distinct persons as specified in sec. 25,

when made in the course or furtherance of business, shall be treated as supply (even though without consideration)

Exception :

Gifts not exceeding ₹ 50,000 in value in a financial year by an employer to an employee shall not be treated as supply of goods or services or both.

Taxpoint :

- As per explanation to sec. 15(5), persons shall be deemed to be “related persons” if-
 - i. such persons are officers or directors of one another’s businesses;
 - ii. such persons are legally recognised partners in business;
 - iii. such persons are employer and employee;
 - iv. any person directly or indirectly owns, controls or holds 25% or more of the outstanding voting stock or shares of both of them;
 - v. one of them directly or indirectly controls the other;
 - vi. both of them are directly or indirectly controlled by a third person;
 - vii. together they directly or indirectly control a third person; or
 - viii. they are members of the same family ;
 - As per sec. 2(49), family means:
 - a. the spouse and children of the person, and
 - b. the parents, grand-parents, brothers and sisters of the person if they are wholly or mainly dependent on the said person.

- Though employer-employee are treated as related person but services provided by an employee to his employer in the course of employment is not treated as supply.
- **Distinct person [Sec. 25(4)]:** A person who has obtained or is required to obtain more than one registration, whether in one State or Union territory or more than one State or Union territory shall, in respect of each such registration, be treated as distinct persons

Example 3 :

X Ltd. has 3 branches. One at Kolkata, another at Chennai and third one at Mumbai. All these branches are separately registered with GST and treated as distinct persons. Any inter-State transfer (like stock transfer, etc.) among them shall be treated as supply even though there is no consideration.

3. Supply of goods*:

- a. by a principal to his agent where the agent undertakes to supply such goods on behalf of the principal; or
- b. by an agent to his principal where the agent undertakes to receive such goods on behalf of the principal.

* The clause is applicable in case of Pakka aarhatia (i.e., the agent selling or buying in this own name).

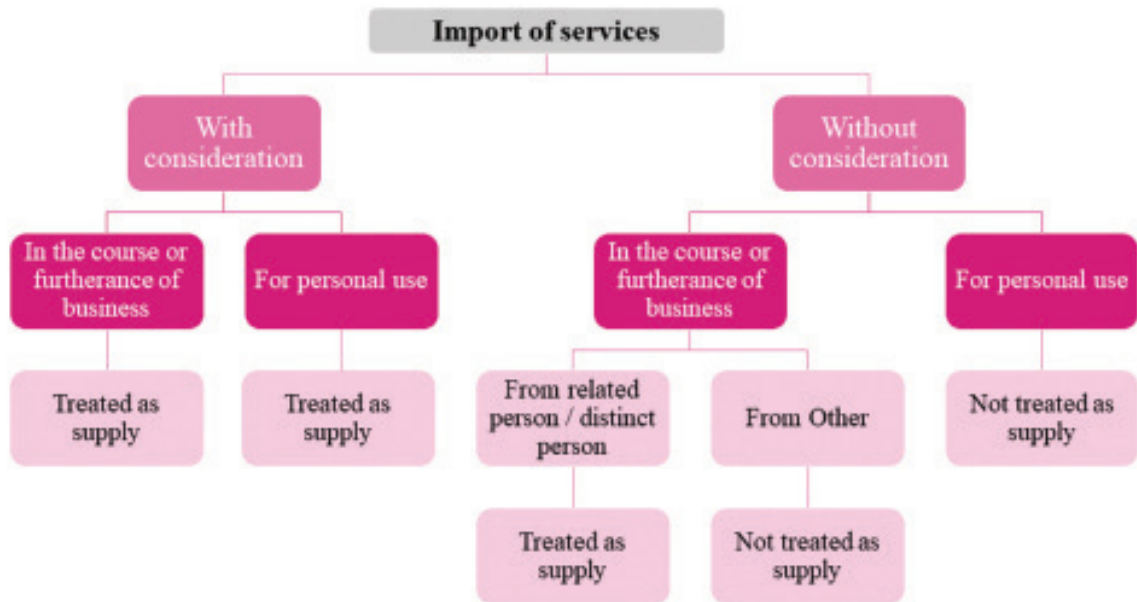

Taxpoint :

- This clause is applicable only
 - in case of supply of goods
 - between principal and agent
- Transfer of goods between principal and agent shall be treated as supply even though it is without any consideration.
- As per sec. 2(5), agent means a person, including a factor, broker, commission agent, arhatia, del credere agent, an auctioneer or any other mercantile agent, by whatever name called, who carries on the business of supply or receipt of goods or services or both on behalf of another.
- As per sec. 2(88), principal means a person on whose behalf an agent carries on the business of supply or receipt of goods or services or both.

Example 4 :

1. Mr. Prem, Kolkata, is an agent of Mr. Magan, Mumbai. Mr. Prem is acquiring goods on behalf of Mr. Magan and supply it to Mr. Magan. Here, transaction between Mr. Prem and Mr. Magan is treated as supply even though there is no consideration.
 2. Similarly, Mr. Ashok, Surat, is an agent of Mr. Magan, Mumbai. Mr. Magan is sending goods to Mr. Ashok for selling that in Surat. Here, transaction between Mr. Ashok and Mr. Magan is treated as supply even though there is no consideration.
4. Import of services by a person from a related person or from any of his other establishments outside India, in the course or furtherance of business.

Taxpoint: Import of services for a consideration whether or not in the course or furtherance of business is treated as supply u/s 7(1)(b). However, if services are imported by a person from a related person even though without consideration is treated as supply provided such import is in the course of business or furtherance of business.

Buy one get one free offer [Circular No. 92/11/2019-GST dated 07/03/2019

Sometimes, companies announce offers like ‘Buy One, Get One free”. For example, “buy one soap and get one soap free” or “Get one tooth brush free along with the purchase of tooth paste”. As per sec. 7(1)(a), the goods or services which are supplied free of cost (without any consideration) shall not be treated as ‘supply’ under GST (except in case of activities mentioned in Schedule I). It may appear at first glance that in case of offers like ‘Buy One, Get One Free’, one item is being ‘supplied free of cost’ without any consideration. In fact, it is not an individual supply of free goods but a case of two or more individual supplies where a single price is being charged for the entire supply. It can at best be treated as supplying two goods for the price of one.

Activities or transactions to be treated as supply of goods or supply of services [Sec. 7(1A) with Schedule II]

In the earlier tax regime, activities like works contract was treated as both goods and services. Both VAT and service taxes were applicable on it. There were various rates, composition schemes available for works contractors with many complexities thus resulting in litigation. To settle the innumerable complexities and confusion regarding these types of activities, Schedule II is inserted in the GST laws which specifically mention the nature of supply involved in these activities.

As per Schedule II, following activities or transactions shall be treated as either supply of goods or supply of service.

FAQ by CBIC on 15-12-2018

Q 1. What is the taxable event under GST? [FAQ 2]

Ans. Taxable event under GST is supply of goods or services or both. CGST and SGST/ UTGST will be levied on intra-State supplies. IGST will be levied on inter-State supplies.

Q 2. Whether supplies made without consideration will also come within the purview of supply under GST? [FAQ 3]

Ans. Yes, but only those activities which are specified in Schedule I to the CGST Act / SGST Act. The said provision has been adopted in IGST Act as well as in UTGST Act also. In cases where the inputs/ capital goods sent for job work are not returned within the specified time limit, the supplies made by the principal to job worker will also be deemed to be a supply.

Q 3. Who can notify a transaction to be supply of goods or services? [FAQ 5]

Ans. Central Government or State Government, on the recommendations of the GST Council, can notify an activity to be the supply of goods and not supply of services or supply of services and not supply of goods or neither a supply of goods nor a supply of services.

Q 4. Are all goods and services taxable under GST? [FAQ 8]

Ans. Supplies of all goods and services are taxable except alcoholic liquor for human consumption. Supply of petroleum crude, high speed diesel, motor spirit (commonly known as petrol), natural gas and aviation turbine fuel shall be taxable with effect from a future date. This date would be notified by the Government on the recommendations of the GST Council.

Composite and Mixed Supply [Sec. 7(1)]

The taxable event under GST is “supply of goods or services or both”. GST will be payable on every supply of goods or services or both unless otherwise exempted. The rates at which GST is payable for individual goods or services or both is also separately-notified. Classification of any supply (whether as goods or services, the category of goods or services) is essential to determine the applicable rate of GST on the particular supply. The application of rates will pose no problem if the supply is of individual goods or services which is clearly identifiable and the goods or services are subject to a particular rate of tax.

But not all supplies will be such simple and clearly identifiable supplies. Some of the supplies will be a combination of goods or combination of services or combination of goods and services both. Each individual component in a given supply may attract different rate of tax. The determination of rate of tax to be levied on such supplies may pose a problem and would depend upon the classification of such supplies. It is for this reason, that the GST Law identifies composite supplies and mixed supplies and provides certainty in respect of tax treatment under GST for such supplies.

Tax liability on composite and mixed supplies [Sec. 8]

The tax liability on a composite or a mixed supply shall be determined in the following manner :

Case	Applicable GST
A composite supply comprising two or more supplies, one of which is a principal supply.	It is treated as a supply of such principal supply and rate of GST on such principal supply shall be applicable.
A mixed supply comprising two or more supplies.	It is treated as a supply of that particular supply which attracts the highest rate of tax.

Meaning of composite supply [Sec. 2(30)]

“Composite supply” means a supply made by a taxable person to a recipient consisting of two or more taxable supplies of goods or services or both, or any combination thereof, which are naturally bundled and supplied in conjunction with each other in the ordinary course of business, one of which is a principal supply.

“Principal supply” means the supply of goods or services which constitutes the predominant element of a composite supply and to which any other supply forming part of that composite supply is ancillary – Sec. 2(90)

Example 16 :

- ◉ Where goods are packed and transported with insurance, the supply of goods, packing materials, transport and insurance is a composite supply and supply of goods is a principal supply.
- ◉ When a consumer buys a laptop and he also gets warranty, pre-installed windows and microsoft office applications, this supply is a composite supply. Here, supply of laptop is the principal supply and others are ancillary to it.
- ◉ Food supplied to the in-patients as advised by the doctor/ nutritionist is a part of composite supply of health care and not separately taxable”. Further supplies of food by hospital to patients (not admitted) or their attendants or visitors are taxable.
- ◉ In the case of printing of books, pamphlets, brochures, annual reports, and the like, where only content is supplied by the publisher or the person who owns the usage rights to the intangible inputs while the physical inputs including paper used for printing belong to the printer, supply of printing of the content supplied by the recipient of supply is the principal supply.

Taxpoint :

A works contracts and restaurant services are classic examples of composite supplies, however the GST Act identifies both as supply of services and chargeable to specific rate of tax mentioned against each of such services (works contract or restaurant).

In respect of composite supplies (other than the two categories mentioned above), the need to determine the supply as a composite one, will arise, so as to determine the appropriate classification of such supply as a supply of goods or supply of services as also the appropriate rate of tax. It will be necessary to determine as to :

- a. what constitutes principal supply in such composite supplies; and
- b. whether a particular supply is naturally bundled⁹ in the ordinary course of business.

Example 17 :

- ◉ A hotel provides a 4-D/3-N package with the facility of breakfast. This is a natural bundling of services in the ordinary course of business. The service of hotel accommodation gives the bundle the essential character and would, therefore, be treated as service of providing hotel accommodation.
- ◉ A 5 star hotel is booked for a conference of 100 delegates on a lump sum package with the following facilities:
 - Accommodation for the delegates
 - Breakfast for the delegates,
 - Tea and coffee during conference
 - Access to fitness room for the delegates
 - Availability of conference room
 - Business centre

⁹ The rule is – ‘If various elements of a bundled service are naturally bundled in the ordinary course of business, it shall be treated as provision of a single service which gives such bundle its essential character’

Meaning of Mixed Supply [Sec. 2(74)]

“Mixed supply” means two or more individual supplies of goods or services, or any combination thereof, made in conjunction with each other by a taxable person for a single price where such supply does not constitute a composite supply.

Example 18 :

A supply of a package consisting of canned foods, sweets, chocolates, cakes, dry fruits, aerated drinks and fruit juices when supplied for a single price is a mixed supply. Each of these items can be supplied separately and is not dependent on any other. It shall not be a mixed supply if these items are supplied separately.

In order to identify if the particular supply is a Mixed Supply, the first requisite is to rule out that the supply is a composite supply. A supply can be a mixed supply only if it is not a composite supply. As a corollary it can be said that if the transaction consists of supplies not naturally bundled in the ordinary course of business then it would be a Mixed Supply. Once the amenability of the transaction as a composite supply is ruled out, it would be a mixed supply, classified in terms of a supply of goods or services attracting highest rate of tax.

The following illustration given in the Education Guide of CBIC referred to above can be a pointer towards a mixed supply of services: “A house is given on rent one floor of which is to be used as residence and the other for housing a printing press. Such renting for two different purposes is not naturally bundled in the ordinary course of business. Therefore, if a single rent deed is executed it will be treated as a service comprising entirely of such service which attracts highest liability of service tax. In this case renting for use as residence is a negative list service while renting for non-residence use is chargeable to tax. Since the latter category attracts highest liability of service tax amongst the two services bundled together, the entire bundle would be treated as renting of commercial property.”

While there are no infallible tests for such determination, the following guiding principles could be adopted to determine whether a supply would be a composite supply or a mixed supply. However, every supply should be independently analysed.

Description	Composite Supply	Mixed Supply
Naturally bundled	Yes	No
Each supply available for supply individually	No	Yes / No
One is predominant supply for recipient	Yes	Yes / No
Other supply(ies) is/ are ancillary or received because of predominant supply	Yes	No
Each supply priced separately	Yes / No	No
Supplied together	Yes	Yes
All supplies can be of goods	Yes	Yes
All supplies can be of services	Yes	Yes
A combination of one/ more goods and one/more services	Yes	Yes

FAQ by CBIC on 15-12-2018

Q 1. What are composite supply and mixed supply? How are these two different from each other?

Ans. Composite supply is a supply consisting of two or more taxable supplies of goods or services or both or any combination thereof, which are bundled in natural course and are supplied in conjunction with each other in the ordinary course of business and where one of which is a principal supply. For example, when a consumer buys a television set and he also gets warranty and a maintenance contract with the TV, this supply is a composite supply. In this example, supply of TV is the principal supply, warranty and maintenance service are ancillary.

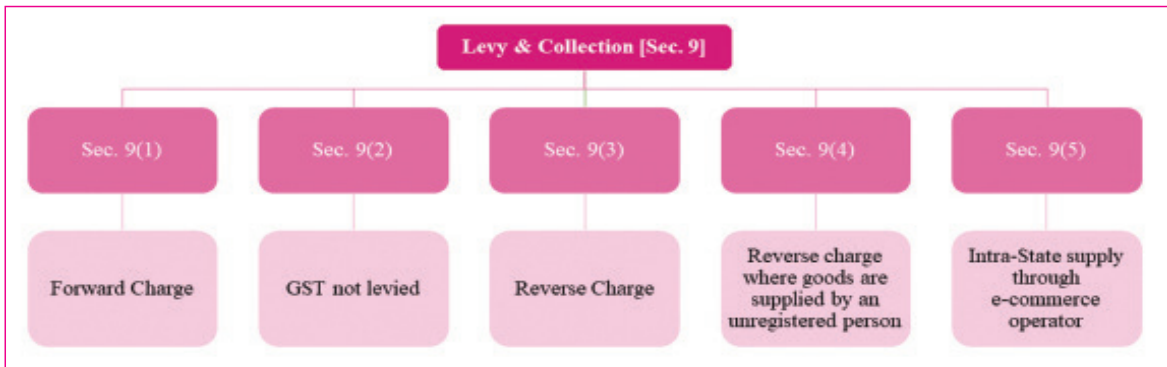

Mixed supply is combination of more than one individual supplies of goods or services or any combination thereof made in conjunction with each other for a single price, which can ordinarily be supplied separately. For example, a shopkeeper selling storage water bottles along with refrigerator. Bottles and the refrigerator can easily be priced and sold separately.

Q 2. What is the treatment of composite supply and mixed supply under GST?

Ans. Composite supply shall be treated as supply of the principal supply. Mixed supply would be treated as supply of that particular goods or services which attracts the highest rate of tax.

5.2.3 Charge of Tax including Reverse Charge

Article 265 of the Constitution of India mandates that no tax shall be levied or collected except by the authority of law. The charging section is a must in any tax law for levy and collection of tax. Before imposing any tax, it must be shown that the transaction falls within the ambit of the taxable event and that the person on whom the tax is so imposed also gets covered within the scope and ambit of the charging section. The scope of the taxable event being ‘supply’ has been discussed in the earlier Chapter. This chapter will provide an insight into the chargeability of tax on a supply. Sec.9¹⁰ is the charging provision of the CGST Act. It provides the maximum rate of tax that can be levied on supplies leviable to tax under this law, the manner of collection of tax and the person responsible for paying such tax. There are four aspects of levy viz taxable event, tax rate, collection or levy, and the person liable to pay. Sec. 9 of the CGST Act covers all these aspects.

Tax payable on Forward Charge Basis [Sec. 9(1) and 9(2)]

A tax called the central goods and services tax shall be levied.

- on all intra-State supplies of goods or services or both,
- except on the supply of alcoholic liquor for human consumption,
- on the value determined u/s 15; and
- at such rates, not exceeding 20%, as may be notified by the Government on the recommendations of the Council; and
- collected in such manner as may be prescribed; and
- shall be paid by the taxable person.

	Alcohol for human consumption	Power to tax remains with the State
	Five petroleum products – crude oil , diesel, petrol, natural gas and ATF	GST Council to decide the date from which GST will be applicable
	Tobacco	Part of GST but power to levy additional excise duty with Central Government
	Entertainment tax levied by local bodies	Power to tax remains with the State

¹⁰ Sec. 5 in case of IGST Act

Taxpoint :

- 0 As per sec. 5 of the IGST Act, IGST shall be levied on all inter-State supplies and on goods imported into India. In case of IGST, maximum rate of tax would be 40% (20% for CGST + 20% for SGST/UTGST)
- 0 SGST / UTGST shall also be levied on all inter-State supplies
- 0 The central tax on the supply of
 - a. petroleum crude,
 - b. high speed diesel,
 - c. motor spirit (commonly known as petrol),
 - d. natural gas and
 - e. aviation turbine fuel

shall be levied with effect from such date as may be notified by the Government on the recommendations of the Council. That means, GST is not leviable on aforesaid items. As per sec. 2(78), non-taxable supply means a supply of goods or services or both which is not leviable to tax under this Act or under the Integrated Goods and Services Tax Act;

- 0 As per sec. 2(107), taxable person means a person who is registered or liable to be registered u/s 22 or sec. 24.
- 0 As per sec. 2(105), supplier in relation to any goods or services or both, shall mean the person supplying the said goods or services or both and shall include an agent acting as such on behalf of such supplier in relation to the goods or services or both supplied.

Further w.e.f. 01-10-2023, a person who organises or arranges, directly or indirectly, supply of specified actionable claims, including a person who owns, operates or manages digital or electronic platform for such supply, shall be deemed to be a supplier of such actionable claims, whether such actionable claims are supplied by him or through him and whether consideration in money or money's worth, including virtual digital assets, for supply of such actionable claims is paid or conveyed to him or through him or placed at his disposal in any manner, and all the provisions of this Act shall apply to such supplier of specified actionable claims, as if he is the supplier liable to pay the tax in relation to the supply of such actionable claims.

- 0 As per sec. 2(108), taxable supply means a supply of goods or services or both which is leviable to tax under this Act;
- 0 GST Act extends to the whole of India. As per sec. 2(56), "India" means.
 - the territory of India as referred to in article 1 of the Constitution,
 - its territorial waters¹³, seabed and sub-soil underlying such waters, continental shelf, exclusive economic zone or any other maritime zone as referred to in the Territorial Waters, Continental Shelf, Exclusive Economic Zone and other Maritime Zones Act, 1976, and
 - the air space above its territory and territorial waters ;

- 0 Item wise applicable rate of GST are provided at portal of CBIC.

Tax payable on Reverse Charge Basis [Sec. 9(3)]

Generally, the supplier of goods or services is liable to pay GST. However, in specified cases like imports and other notified supplies, the liability may be cast on the recipient under the reverse charge mechanism. Reverse Charge means the liability to pay tax is on the recipient of supply of goods or services instead of the supplier of such goods or services in respect of notified categories of supply.

As per sec. 2(98), reverse charge means the liability to pay tax by the recipient of supply of goods or services or both instead of the supplier of such goods or services or both u/s 9(3) or 9(4), or u/s 5(3) or 5(4) of the Integrated Goods and Services Tax Act.

The Government may, on the recommendations of the Council, by notification, specify categories of supply of goods or services or both, the tax on which shall be paid on reverse charge basis by the recipient of such goods or services or both and all the provisions of this Act shall apply to such recipient as if he is the person liable for paying the tax in relation to the supply of such goods or services or both.

5.2.5 Composition Levy

The composition levy is an alternative method of levy of tax designed for small taxpayers whose turnover is up to prescribed limit. The objective of composition scheme is to bring simplicity, ease compliance burden and reduce cost of compliance for the small taxpayers. The scheme is optional. It essentially provides for a turnover tax regime for such tax-payers, with facility of less compliance.

An eligible person opting to pay tax under the composition scheme shall, instead of paying tax on every invoice at the specified rate, pay tax at a prescribed percentage of his turnover.

Advantages of Composition Scheme :

The following are the advantages of registering under composition scheme:

- Lesser compliance (returns, maintaining books of record, issuance of invoices)
- Limited tax liability
- High liquidity as taxes are levied at a lower rate

Disadvantages of Composition Scheme :

The disadvantages of registering under GST composition scheme are as under:

- A limited territory of business. The dealer is barred from carrying out inter-state transactions
- No Input Tax Credit available to composition dealers

- The taxpayer will not be eligible to supply non-taxable goods under GST such as alcohol and goods through an e-commerce portal.
- No ITC to the buyer of goods from the supplier under composition scheme, which will lead to increase in cost.

Case	Rate of GST
Manufacturers other than manufacturer of ice cream, pan masala, tobacco or aerated water, etc.	1% (i.e. 0.5% CGST + 0.5% SGST) of the turnover ¹⁶ in State or turnover in Union territory.
Traders	1% (i.e. 0.5% CGST + 0.5% SGST) of the turnover of taxable supplies of goods and services in the State or Union territory
Restaurant Services	5% (i.e. 2.5% CGST + 2.5% SGST) of the turnover ¹ in State or turnover in Union territory
Services other than restaurant services	6% (i.e. 3% CGST + 3% SGST) of the turnover of supplies of goods and services in the State or Union territory.

The composition supplier shall be liable to make payment at the rate applicable on the supply in respect of every inward supply liable to tax under the reverse charge mechanism, regardless of the rate of tax that is applicable on him on the outward supplies effected by him. It may be noted that the value of such inward supplies would not be included in the aggregate turnover of the composition taxpayer although the liability is discharged by him on such inward supplies.

Restriction on the supplier of goods and restaurant services opting for composition scheme [Sec. 10(2)]

The registered person shall be eligible to opt for composition scheme, if:

- he is not engaged in the supply of services (however, upto certain limit as mentioned above, supply of service is allowed);
- he is not engaged in making any supply of goods or services which are not leviable to tax under this Act (however, he may deal in exempt supply);
- he is not engaged in making any inter-State outward supplies of goods or services;
- he is not engaged in making any supply of goods or services through an electronic commerce operator who is required to collect tax at source u/s 52;

Taxpoint: W.e.f. 01-10-2023, the restriction imposed on registered persons engaged in supplying goods through electronic commerce operators from opting to pay tax under the Composition Levy has been removed.

- he is not a manufacturer of notified goods i.e., ice cream and other edible ice, whether or not containing cocoa, or Pan masala or Tobacco and manufactured tobacco substitutes or aerated water, etc.
- he is neither a casual taxable person nor a non-resident taxable person

Taxpoint :

Where more than one registered persons are having the same PAN, the registered person shall not be eligible to opt for the scheme unless all such registered persons opt to pay tax under the scheme. i.e., all registered person having same PAN must opt for composition scheme.

¹⁶ Exempted as well as taxable

Example 19 :

A company has the following businesses separately registered:

- Sale of mobile devices (registered in Kerala)
- Franchisee of branded restaurant (registered in Goa)

The scheme would be applicable for the said two units. The company cannot opt for composition scheme for the registration in Kerala and opt to pay taxes under the regular scheme for the registration in Goa.

Restriction on the supplier of services opting for composition scheme [Sec. 10(2A)]

The registered person, being supplier of services, are eligible to composition scheme if:

- b. he is not engaged in making any inter-State outward supplies of goods or services;
- c. he is not engaged in making any supply of goods or services through an electronic commerce operator who is required to collect tax at source u/s 52;

Taxpoint: W.e.f. 01-10-2023, the restriction imposed on registered persons engaged in supplying goods through electronic commerce operators from opting to pay tax under the Composition Levy has been removed.

- d. he is not a manufacturer of notified goods¹⁷ or supplier of notified services; and
- e. he is not a casual taxable person or a non-resident taxable person:

Taxpoint :

Where more than one registered persons are having the same PAN, the registered person shall not be eligible to opt for the scheme unless all such registered persons opt to pay tax under the scheme. i.e., all registered person having same PAN must opt for composition scheme.

Aggregate Turnover and turnover for the purpose of computing tax

- ⊙ As per sec. 2(6), aggregate turnover means the aggregate value of:
 - a. all taxable supplies (excluding the value of inward supplies on which tax is payable by a person on reverse charge basis),
 - b. exempt supplies (excluding exempted services provided by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount),
 - c. exports of goods or services or both; and
 - d. inter-State supplies of persons having the same PAN (i.e., stock transfer between branches, etc.)

to be computed on all India basis but excludes

- central tax, State tax, Union territory tax, integrated tax and cess.
 - the value of exempt supply of services provided by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount
- ⊙ For the purposes of computing aggregate turnover of a person for determining his eligibility to pay tax under this section, the expression “aggregate turnover” shall include the value of supplies made by such person from the 1st day of April of a financial year up to the date when he becomes liable for registration under this

¹⁷ manufacturer of notified goods i.e., ice cream and other edible ice, whether or not containing cocoa, or Pan masala or Tobacco and manufactured tobacco substitutes or aerated water, etc.

Act, but shall not include the value of exempt supply of services provided by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount.

- ◉ Further, for the purposes of determining the tax payable by a person under this section, the expression “turnover in State or turnover in Union territory” shall not include the value of following supplies:
 - i. supplies from the first day of April of a financial year up to the date when such person becomes liable for registration under this Act; and
 - ii. exempt supply of services provided by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount.

Lapse of options [Sec. 10(3)]

The option availed of by a registered person for composition scheme shall lapse with effect from the day on which his aggregate turnover during a financial year exceeds the threshold limit.

Person not eligible to collect tax [Sec. 10(4)]

A taxable person, who opts for composition levy, shall not collect any tax from the recipient on supplies made by him nor shall he be entitled to any credit of input tax.

Taxpoint :

The composition supplier is required to pay tax from his own pocket.

Penalty in case of wrongfully availing the scheme [Sec. 10(5)]

If the proper officer has reasons to believe that a taxable person has paid tax under composition levy, despite not being eligible, such person shall, in addition to any tax that may be payable by him under any other provisions of this Act, be liable to a penalty and the provisions of sec. 73 or 74 shall, mutatis mutandis, apply for determination of tax and penalty.

- 5. Upon receipt of the reply to the show-cause notice from the registered person in Form GST CMP-06, the proper officer shall issue an order in Form GST CMP-07 within a period of 30 days of the receipt of such reply, either accepting the reply, or denying the option to pay tax u/s 10 from the date of the option or from the date of the event concerning such contravention, as the case may be.

¹⁸ ice cream and other edible ice, whether or not containing cocoa, or Pan masala or Tobacco and manufactured tobacco substitutes or aerated water, etc.

6. Every person who has furnished an intimation or filed an application for withdrawal or a person in respect of whom an order of withdrawal of option has been passed in Form GST CMP-07, may electronically furnish at the common portal, either directly or through a Facilitation Centre, a statement in Form GST ITC-01 containing details of the stock of inputs and inputs contained in semi-finished or finished goods held in stock by him on the date on which the option is withdrawn or denied, within a period of 30 days from the date from which the option is withdrawn or from the date of the order passed in FORM GST CMP-07, as the case may be.
7. Any intimation or application for withdrawal or denial of the option to pay tax u/s 10 in respect of any place of business in any State or Union territory, shall be deemed to be an intimation in respect of all other places of business registered on the same PAN.

Illustration 11 :

Mr. Ritesh of Assam, provides the following information for the preceding financial year 2022-23. You are required to find out the aggregate turnover for the purpose of eligibility of composition levy scheme and determine whether he is eligible for composition levy scheme or not, for the F.Y. 2023-24.

Particulars	₹ in lakh
Value of taxable outward supplies (out of above, ₹ 10 lakh was in course of inter-state transactions)	75.00
Value of exempt supplies (which include ₹ 30 lakh received as interest on loans & advances)	70.00
Value of inward supplies on which he is liable to pay tax under reverse charge	15.00
Value of exports	7.00

All the amounts are exclusive of GST. Further, he assured that in F.Y. 2022-23, no inter-State supply will be executed by him.

Solution:

Computation of aggregate turnover of Mr. Ritesh for F.Y. 2022-23 for the purpose of eligibility of composition levy scheme :

Particulars	₹ in lakh
Value of taxable outward supplies [All taxable supplies including inter-State supplies]	75
Value of exempt supplies [excluding value of supply of services by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount]	40
Value of inward supplies on which Mr. Ritesh is liable to pay tax under reverse charge	Nil
Value of exports	7
Aggregate turnover for determining eligibility for composition scheme	122

A registered person of Assam is eligible to opt for composition levy if his aggregate turnover does not exceed ₹ 1.5 crore in the preceding financial year. Therefore, in the given case, Mr. Ritesh is eligible to opt for composition levy for F.Y. 2023-24.

Basic Concepts of Time, Place and Value of Supply

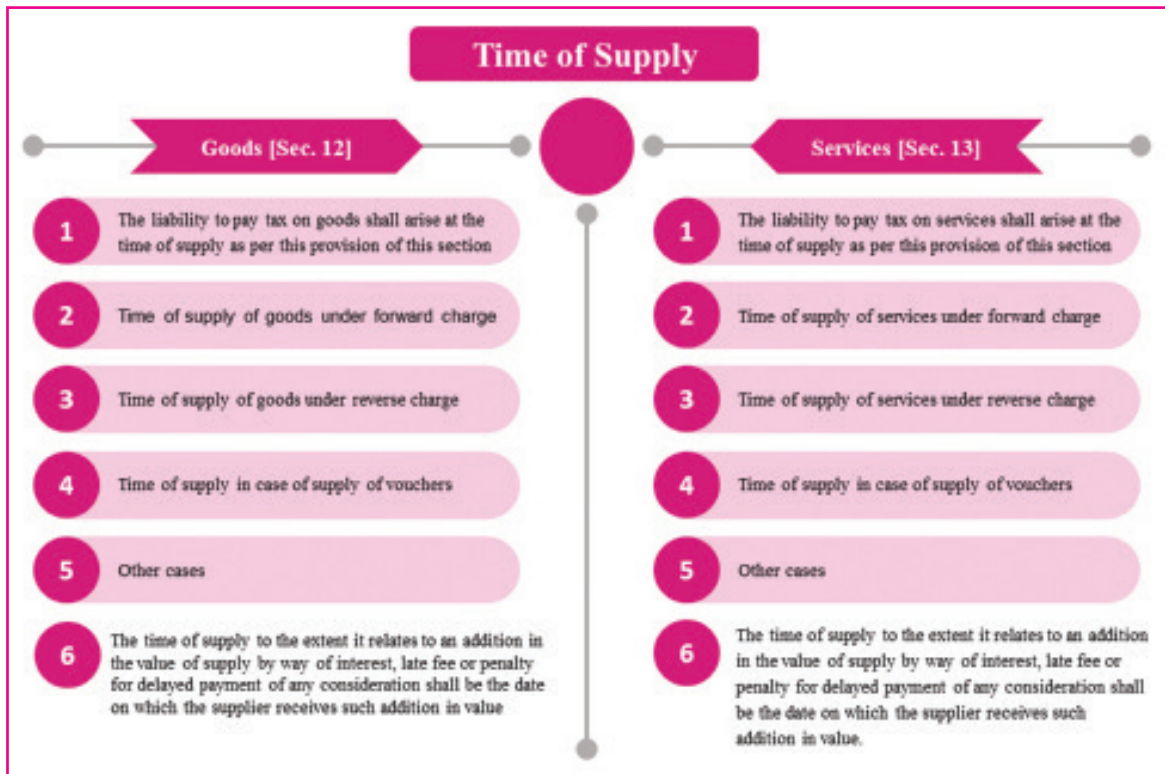

5.3

5.3.1 Time of Supply

Introduction

In order to calculate and discharge tax liability it is important to know the date when the tax liability arises i.e. the date on which the charging event has occurred. In GST law, it is known as Time of Supply. Time of supply means the point of time when goods/services are considered as supplied. If the seller knows the time of supply, then it will help him to recognize the due date for the payment of taxes.

GST law has provided separate provisions to determine the time of supply of goods and time of supply of services. The schema of the provisions is enumerated here in below:

Time of Supply of Goods – Forward Charge [Sec. 12(2)]

The time of supply of goods shall be the earlier of the following dates :

- a. the date of issue of invoice by the supplier; or
- b. the last date on which he is required to issue the invoice with respect to the supply u/s 31; or
- c. the date on which the supplier receives the payment with respect to the supply [Not relevant]

Taxpoint :

- ⊙ The registered person who did not opt for the composition levy u/s 10 shall pay the Central tax on the outward supply of goods at the time of supply as specified in section 12(2)(a) (i.e. the date of issue of invoice by the supplier or the last date on which he is required, u/s 31(1), to issue the invoice with respect to the supply). Therefore, no GST is payable on advances received against supply of goods. (Notification No. 66/2017-CT dated 15/11/2017). However, benefit of this notification is not available in case of supply of service and (w.e.f. 20-10-2023) specified actionable claims.
- ⊙ Where the supplier of taxable goods receives an amount up to ₹ 1,000 in excess of the amount indicated in the tax invoice, the time of supply to the extent of such excess amount shall, at the option of the said supplier, be the date of issue of invoice in respect of such excess amount. However, this provision is also subject to aforesaid notification.
- ⊙ “The date on which the supplier receives the payment” shall be the date on which the payment is entered in his books of account or the date on which the payment is credited to his bank account, whichever is earlier.
- ⊙ Supply shall be deemed to have been made to the extent it is covered by the invoice or, as the case may be, the payment.

Tax Invoice [Sec. 31]

1. A registered person supplying taxable goods shall issue a tax invoice, before or at the time of :

Where the supply involves movement of goods	Removal of goods for supply to the recipient
Where the supply does not involve movement of goods	Delivery of goods or making available thereof to the recipient

2. In case of **continuous supply of goods**, where successive statements of accounts or successive payments are involved, the invoice shall be issued before or at the time each such statement is issued or, as the case may be, each such payment is received [Sec. 31(4)]
3. Where the goods being **sent or taken on approval** for sale or return are removed before the supply takes place, the invoice shall be issued before or at the time of supply or 6 months from the date of removal, whichever is earlier [Sec. 31(7)]

In nutshell, in case of supply of goods, time of supply is as under :

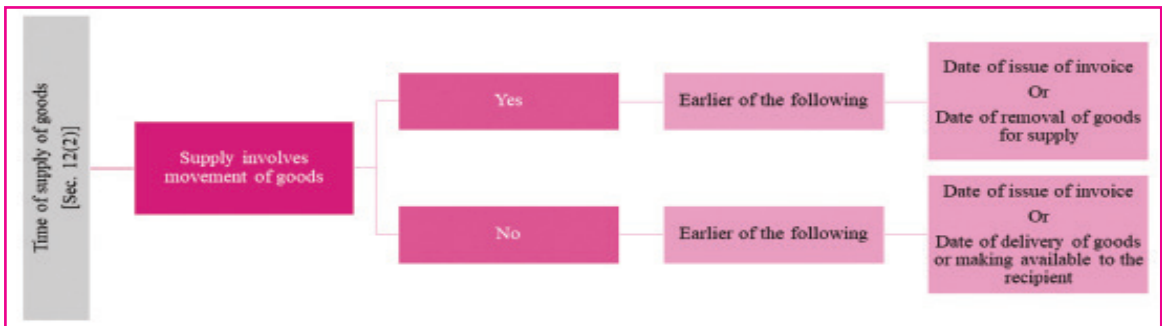

Illustration 12 :

Determine the time of supply in following cases :

Case	Invoice Issued on	Removal of goods for supply on	Goods made available on	Payment received on	Time of Supply
1.	15/04/2023	20/04/2023	20/04/2023	19/04/2023	15/04/2023
2.	15/05/2023	20/04/2023	20/04/2023	19/04/2023	20/04/2023
3.	15/04/2023	NA	20/04/2023	27/04/2023	15/04/2023
4.	15/05/2023	NA	20/04/2023	30/05/2023	20/04/2023
5.	15/06/2023	20/06/2023	20/04/2023	19/03/2023	15/04/2023

Illustration 13 :

Ramesh issues an invoice of ₹ 54,200 for supply of goods as on 10/04/2022 and received ₹ 55,000 in his bank account through NEFT on the same date which was credited into his books of account on 11/04/2023. Determine the time of supply of goods and the time of supply of excess receipt. How shall your answer differ, if he received ₹ 75,000 instead of ₹ 55,000?

Solution:

- Time of supply in case of supply of goods shall be 10/04/2022. Date of receipt of payment is not relevant for determining time of supply in view of the Notification No. 66/2017-CT dated 15/11/2017.
- Ramesh has received ₹ 800 in excess. He will adjust the excess amount against the next supply. The time of supply of such excess amount shall be the date of issuance of next invoice.
- In alternate situation, he has received ₹ 20,800 in excess. Even in this situation, the time of supply of such excess amount shall be the date of issuance of next invoice assuming that this excess will be adjusted in the said invoice.

Illustration 14 :

Certain goods are sent by Mr. X on sale on approval or return basis to Mr. Y on 22nd April 2023. The supply gets confirmed and invoice is issued on :

Case 1: 20th August 2023

Case 2: 22nd November 2023

Payment in each of the cases is made on 23rd November 2023.

Determine time of supply.

Solution:

Date of receipt of payment is immaterial for the purpose of calculating time of supply u/s 12 of the CGST Act 2017. Therefore, 23rd November 2023 should be ignored altogether. The time of supply should be earlier of the date of issuance of invoice or the last date of issuance of invoice. The last date of issuance of invoice will be the earlier of the confirmation of supply or 6 months from the date of removal.

In case 1, the confirmation of supply occurred before 6 months from the date of removal. Thus, the last date of issuance of invoice was 20th August 2023. On this date, the invoice was issued. Hence, the time of supply will be 20th August 2023.

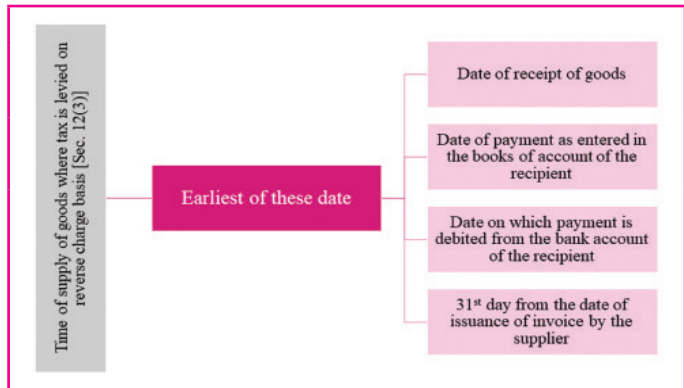

In case 2, the confirmation of supply happened after 6 months from the date of removal. The period of 6 months

expired on 21st October 2023. Hence, the invoice was required to be issued by this date. Since the invoice was issued on 22nd November 2023, the actual date of issue of invoice will be considered as falling after the last date of issuance of invoice. The time of supply will be the last date of issuance of invoice i.e., 21st October 2023.

Time of Supply of Goods in case of reverse charge [Sec. 12(3)]

In case of supplies in respect of which tax is paid or liable to be paid on reverse charge basis, the time of supply shall be the earliest of the following dates:

- a. the date of the receipt of goods; or
- b. the date of payment as entered in the books of account of the recipient; or
- c. the date on which the payment is debited in his bank account; or
- d. the date immediately following 30 days from the date of issue of invoice or any other document, by whatever name called, in lieu thereof by the supplier.

Taxpoint :

- ◉ Where it is not possible to determine the time of supply as per aforesaid rule, the time of supply shall be the date of entry in the books of account of the recipient of supply.
- ◉ Please note that in case of reverse charge, benefit of notification no. 66/2017-CT dated 15/11/2017 is not available.

Illustration 15 :

Mr. Amar supplies goods (liable under reverse charge) to Mr. Nath. You are required to determine time of supply considering following details :

01.04.2022	Mr. Nath approaches Mr. Amar and places an order
10.04.2022	Mr. Nath receives the goods
15.04.2022	Mr. Amar issues an invoice
20.04.2022	Mr. Nath makes a payment by cheque and accordingly records it in his books of accounts
25.04.2022	The payment gets debited from Mr. Nath’s bank account

How shall your answer differ if the goods were received by Mr. Nath on 30.04.2022 instead of 10.04.2022

Solution:

The time of supply shall be the earlier of the following dates:

- a. the date of receipt of goods i.e. 10.04.2022
- b. the date of payment as recorded in the books of Mr. Nath i.e. 20.04.2022
- c. the date when the payment gets debited from the bank of Mr. Nath i.e. 25.04.2022
- d. the date immediately following 30 days from the date of issue of invoice by Mr. Amar, i.e. 15.04.2022 + 30 days + 1 day = 16.05.2022

Therefore, the time of supply will be 10.04.2023.

Alternate case :

The time of supply shall be the earlier of the following dates:

- a. the date of receipt of goods i.e. 30.04.2023
- b. the date of payment as recorded in the books of Mr. Nath i.e. 20.04.2023
- c. the date when the payment gets debited from the bank of Mr. Nath i.e. 25.04.2023
- d. the date immediately following 30 days from the date of issue of invoice by Mr. Amar, i.e. 15.04.2023 + 30 days + 1 day = 16.05.2023

Therefore, the time of supply will be 20.04.2023.

Time of Supply in case of Voucher [Sec. 12(4)]

In case of supply of vouchers by a supplier, the time of supply shall be :

If the supply is identifiable at the point at which voucher is issued	The date of issue of voucher
In all other cases	The date of redemption of voucher

Taxpoint :

- ⦿ As per sec. 2(118), “voucher” means an instrument where there is an obligation to accept it as consideration or part consideration for a supply of goods or services or both and where the goods or services or both to be supplied or the identities of their potential suppliers are either indicated on the instrument itself or in related documentation, including the terms and conditions of use of such instrument.
- ⦿ A shopkeeper may issue vouchers for a specific supply i.e. supply which is identifiable at the time of issuance of voucher. In trade parlance, these are known as single purpose vouchers. E.g., vouchers for pressure cookers or television or for spa or haircut. Similarly, a voucher can be a general purpose voucher which can be used for multiple purposes. E.g., a ₹ 1,000/- voucher issued by Shoppers Stop store can be used for buying any product or service at any Shoppers Stop store. The time of supply is different in case of single purpose voucher and in the case of general purpose voucher. Time of supply in the case of single purpose voucher i.e. case where supply is identifiable at the time of issuance of voucher is the date of issue of voucher. However, in all other cases of supply of vouchers, the time of supply is the date of redemption of voucher.

Time of Supply of goods in residual cases [Sec. 12(5)]

Where it is not possible to determine the time of supply under any of the aforesaid provisions, the time of supply shall be :

Where a periodical return has to be filed	The date on which such return is to be filed
In any other case	The date on which the tax is paid.

Time of Supply in case of enhancement in value on account of interest, late fee, etc. [Sec. 12(6)]

The time of supply to the extent it relates to an addition in the value of supply by way of interest, late fee or penalty for delayed payment of any consideration shall be the date on which the supplier receives such addition in value.

Illustration 16 :

Mr. Viswa enters into a contract for supply of goods worth ₹ 10, 00,000 with Mr. Nath on 10th April 2023. Such goods are removed with an invoice dated 12th April 2023 on 13th April 2023 for delivery to Mr. Nath. The terms of the contract demanded the payment against such supply to be made within 60 days beyond which a late payment charge of ₹ 20,000 will have to be paid by Mr. Nath. Mr. Nath makes the payment of ₹ 10,00,000 along with the late payment charges on 15th July 2023. What will be the time of supply in respect of the entire amount?

Solution:

In sec. 12(2), the time of supply in respect of ₹ 10, 00,000 will be the date of issuance of invoice or last date of issuance of invoice. Last date of issuance of invoice will be the date of removal where supply involves movement of goods.

- ◉ Date of issuance of invoice: 12th April 2023
- ◉ Last date of issuance of invoice: 13th April 2023 (date of removal)
- ◉ The date of payment is immaterial as per Notification no. 66/2017-CT dated 15th November 2017.

So, the time of supply will be 12th April, 2023 in respect of ₹ 10, 00,000.

However, in respect of the time of supply for the amount of ₹ 20,000 paid as late payment charges, time of supply as per sec. 12(6) has been stated to be the date on which the supplier receives the addition in value. Here, the additional amount of ₹ 10,000 is received on 15th July 2022. Hence, the time of supply for this amount will also arise on 15th July 2022.

Time of Supply of Services – Forward Charge [Sec. 13(2)]

The time of supply of services shall be the earliest of the following dates, namely :

Situation	Time of Supply
If the invoice is issued within the period prescribed u/s 31	a. The date of issue of invoice by the supplier; b. The date of receipt of payment – whichever is earlier
If the invoice is not issued within the period prescribed u/s 31	a. The date of provision of service; b. The date of receipt of payment – whichever is earlier
In any other case	The date on which the recipient shows the receipt of services in his books of account.

Taxpoint :

- ◉ “The date of receipt of payment” shall be the date on which the payment is entered in the books of account of the supplier or the date on which the payment is credited to his bank account, whichever is earlier.
- ◉ The supply shall be deemed to have been made to the extent it is covered by the invoice or, as the case may be, the payment.
- ◉ Where the supplier of taxable service receives an amount up to ₹ 1,000 in excess of the amount indicated in the tax invoice, the time of supply to the extent of such excess amount shall, at the option of the said supplier, be the date of issue of invoice relating to such excess amount.

Illustration 17 :

Case	Date of Supply of service	Date of issue of invoice	Date of entering payment in books	Date of credit of payment in bank	Time of Supply
1.	15/04/2023	20/04/2023	22/04/2023	24/04/2023	20/04/2023
2.	15/04/2023	20/05/2023	20/04/2023	20/04/2023	15/04/2023
3.	15/04/2023	20/04/2023	18/04/2023	17/04/2023	17/04/2023
4.	15/04/2023	20/04/2023	02/04/2023	03/04/2023	02/04/2023

Illustration 18 :

Mr. Kedar provides consultancy services to Mr. Nath worth ₹ 50,000.

08.04.2023	An advance of ₹ 10,000 is received from Mr. Nath
10.04.2023	The consultancy services are provided
16.05.2023	Mr. Kedar receives balance payment of ₹ 40,000 and records it in his books.

What will be the time of supply assuming Mr. Kedar issues the invoice on:

Situation 1 - 15.04.2023

Situation 2 – 15.05.2023

Solution:

Situation 1

In the given case,

Date of issue of invoice (which is within 30 days of the supply of service)	15.04.2023
Date of payment	
– ₹ 10,000	08.04.2022
– ₹ 40,000	16.05.2022

If the invoice is issued within the prescribed time period, the time of supply will be the date of receipt of payment or date of issue of invoice whichever is earlier. Hence, for ₹ 10,000, the time of supply will be 08.04.2023 which is the date of receipt of advance payment. For the balance amount, the time of supply will be 15.04.2023 which is earlier of 15.04.2023 (date of invoice) and 16.05.2023 (date of receipt of payment).

Situation 2

If invoice is not issued within the prescribed time period, the time of supply will be the earlier of the date of completion of service and the date of receipt of payment. Here, invoice is issued on 15.05.2023 which is after the prescribed time period. So, for ₹ 10,000, the time of supply will be 08.04.2023 which is the date of receipt of advance payment. For the balance amount, the time of supply will be 10.04.2023 which is earlier of 10.04.2023 (date of completion of service) and 16.05.2023 (date of receipt of payment).

Illustration 19 :

During investigation, it was found that Mr. X had provided catering services of ₹ 1,00,000 to Mr. Y during his

business convention. The payment for these services was made in cash. Mr. X had neither issued any invoice nor recognised the payment in his books of accounts. Mr. Y recorded the payment of ₹ 1,00,000 in cash in his books on 28th April 2023. What will be the time of supply in this case?

Solution:

Since, the date of receipt of payment or the date of invoice is not available in case of Mr. X, the date when the payment is recorded in the books of the recipient becomes relevant. Since, Mr. Y recorded this on 28th April, the time of supply for such supply will also be considered as 28th April 2023.

Illustration 20:

A contract for supply of professional services was entered for ₹ 10,00,000 for the period of 3 months on 20th July 2023. However, on 16th August 2023, the recipient informed the supplier that he is not willing to receive any more services under the contract. Both of them mutually agree that the services provided till date can be valued at ₹ 3,50,000. The invoice for this was issued on 20th August 2023 and the payment was made by the recipient on 25th August 2023.

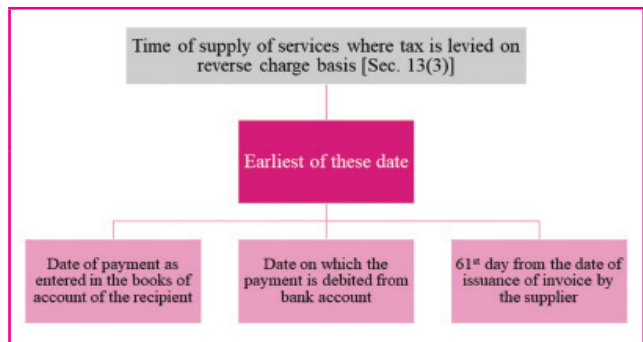

Solution:

In the instant case, the cessation of supply of services occurs on 16th August 2023. The date by which the invoice should have been raised was also 16th August 2023. However, the invoice was issued on 20th August 2023 which is after the prescribed time period. Therefore, the time of supply will be the earlier of the date of completion of service (16th August 2023) and the date of payment (25th August 2023) which will be 16th August 2023.

Time of Supply of Services – Reverse Charge [Sec. 13(3)]

In case of supplies in respect of which tax is paid or liable to be paid on reverse charge basis, the time of supply shall be the earlier of the following:

- the date of payment as entered in the books of account of the recipient; or
- the date on which the payment is debited in his bank account; or
- the date immediately following 60 days from the date of issue of invoice or any other document, by whatever name called, in lieu thereof by the supplier.

Taxpoint :

- ◉ Where it is not possible to determine the time of supply as per aforesaid rule, the time of supply shall be the date of entry in the books of account of the recipient of supply.
- ◉ In case of supply by associated enterprises, where the supplier of service is located outside India, the time of supply shall be the date of entry in the books of account of the recipient of supply or the date of payment, whichever is earlier.
- ◉ “Associated Enterprises” shall have the same meaning as assigned to it in sec. 92A of the Income-tax Act, 1961.

Illustration 21 :

Mr. Ram provides certain services to Mr. Nath which fall under reverse charge basis :

10.04.2023	The services are provided to Mr. Nath
12.04.2023	Mr. Ram issues an invoice to Mr. Nath
10.07.2023	The payment is made by Mr. Nath through a cheque and recorded in his books of accounts
15.07.2023	The payment gets debited from Mr. Nath's bank account

What will be the time of supply?

Solution:

The time of supply shall be earlier of the following dates :

The date of payment	10.07.2023
The date on which payment is debited from bank account	15.07.2023
The date immediately following 60 days from the date of issue of invoice (12.04.2023 + 60 days + 1 day)	12.06.2023

Therefore, the time of supply shall be 12.06.2022.

Illustration 22 :

Mr. Rajendra provides certain services to Mr. Nath which fall under reverse charge basis.

10.10.2023	The services are provided to Mr. Nath
12.10.2023	Mr. Rajendra issues an invoice to Mr. Nath
10.03.2024	The payment is made by Mr. Nath through a cheque and recorded in his books of accounts
15.03.2024	The payment gets debited from Mr. Nath's bank account

What will be the time of supply?

Solution:

The time of supply shall be earlier of the following dates :

The date of payment	10.03.2023
The date on which payment is debited from bank account	15.03.2023
The date immediately following 60 days from the date of issue of invoice (12.01.2023 + 60 days + 1 day)	12.12.2023

Therefore, the time of supply shall be 12.12.2023

Time of Supply of Services – Voucher [Sec. 13(4)]

In case of supply of vouchers by a supplier, the time of supply shall be :

If the supply is identifiable at the point at which voucher is issued	The date of issue of voucher
In all other cases	The date of redemption of voucher

Time of Supply of Services – Residual Cases [Sec. 13(5)]

Where it is not possible to determine the time of supply of service under any of the aforesaid provisions, the time of supply shall be :

Where a periodical return has to be filed	The date on which such return is to be filed
In any other case	The date on which the tax is paid.

Time of Supply in case of enhancement in value on account of interest, late fee, etc. [Sec. 13(6)]

The time of supply to the extent it relates to an addition in the value of supply by way of interest, late fee or penalty for delayed payment of any consideration shall be the date on which the supplier receives such addition in value.

Change in rate of tax in respect of supply of goods or services [Sec. 14]

The time of supply, where there is a change in the rate of tax in respect of goods or services or both, shall be determined in the following manner:

1. In case the goods or services or both have been supplied before the change in rate of tax:
 - a. where the invoice for the same has been issued and the payment is also received after the change in rate of tax, the time of supply shall be the date of receipt of payment or the date of issue of invoice, whichever is earlier; or
 - b. where the invoice has been issued prior to the change in rate of tax but payment is received after the change in rate of tax, the time of supply shall be the date of issue of invoice; or
 - c. where the payment has been received before the change in rate of tax, but the invoice for the same is issued after the change in rate of tax, the time of supply shall be the date of receipt of payment;
2. In case the goods or services or both have been supplied after the change in rate of tax:
 - a. where the payment is received after the change in rate of tax but the invoice has been issued prior to the change in rate of tax, the time of supply shall be the date of receipt of payment; or
 - b. where the invoice has been issued and payment is received before the change in rate of tax, the time of supply shall be the date of receipt of payment or date of issue of invoice, whichever is earlier; or
 - c. where the invoice has been issued after the change in rate of tax but the payment is received before the change in rate of tax, the time of supply shall be the date of issue of invoice

In nutshell, the time of supply, where there is a change in the rate of tax in respect of goods or services or both, shall be determined in the following manner :

Invoice issued	Payment received	Time of Supply	Applicable Rate
A. Where the goods or services or both have been supplied before the change in rate of tax.			
After	After	a. Date of receipt of payment; or b. Date of issue of invoice – whichever is earlier	New Rate
Before	After	Date of issue of invoice	Old Rate
After	Before	Date of receipt of payment	Old Rate

B. Where the goods or services or both have been supplied after the change in rate of tax.			
Before	After	Date of receipt of payment	New Rate
Before	Before	a. Date of receipt of payment; or b. Date of issue of invoice – whichever is earlier	Old Rate
After	Before	Date of issue of invoice	New Rate

Taxpoint :

- “The date of receipt of payment” shall be the date on which the payment is entered in the books of account of the supplier or the date on which the payment is credited to his bank account, whichever is earlier.
- However, the date of receipt of payment shall be the date of credit in the bank account if such credit in the bank account is after 4 working days from the date of change in the rate of tax.
- It is to be noted that in respect of supply of goods, notification no. 66/2017-CT dated 15/11/2017 is applicable.
- Rate applicability rule: There are three events viz. (a) supply; (b) issuance of invoice; (c) receipt of payment. Out of these 3 events, atleast two events are occurred after change of rate of tax, new rate is applicable. On the other hand, any of the 2 events are occurred before change of rate of tax, old rate is applicable.
- Time of supply rule :

Supply	Events being issuance of invoice or receipt of payment	Time of supply	Rate
Before	Any of the events occurred before change	Occurrence of 1st event	Old
After	Any of the events occurred before change	Occurrence of 2nd event	New
Before	Both of the events occurred after change	a. Date of receipt of payment	New
After	Both of the events occurred before change	or b. Date of issue of invoice – whichever is earlier	Old

Time of supply shall be	06-12-23	12-12-23

5.3.2 Place of Supply

Introduction

Place of supply is important to determine the kind of tax that is to be charged. As per sec. 7 of the IGST Act, when the location of supplier and the place of supply are in two different States (or Union territory), then it will be an

inter-State supply and IGST would be chargeable. And when they are in the same State (or Union territory), then it will be an intra-State supply and CGST/ SGST would be chargeable.

‘Place of supply’ is not a phrase of common understanding, it is a legal term and as in the cases of all legal terms, their common understanding must not be applied but the meaning assigned to them in the law must be followed. Place of supply, similar to time of supply, is that which the legislature has appointed.

Place of supply determines the State or Union Territory to which the SGST portion of the revenue accrues.

Place of supply of goods other than supply of goods imported into, or exported from India [Sec. 10 of the IGST Act]

Place of supply of **goods (not services)** other than supply of goods imported into, or exported from India shall be determined as under:

Situation	Place of Supply
Where the supply involves movement of goods, whether by the supplier or the recipient or by any other person [Section 10(1)(a)]	The place of supply of such goods shall be the location of the goods at the time at which the movement of goods terminates for delivery to the recipient E.g. A supplier located in Kolkata supplies goods to the recipient in Delhi. In this case place of supply shall be Delhi

Situation	Place of Supply
Goods are delivered by the supplier to a recipient or any other person on the direction of a third person, whether acting as an agent or otherwise, before or during movement of goods by way of transfer of documents of title to the goods or otherwise. [Section 10(1)(b)]	The place of supply of such goods shall be the principal place of business of third person E.g. , Burman of West Bengal supplied goods to Raman of Tamilnadu. When goods start moving, Raman instructs the supplier i.e. Mr. Burman to deliver the goods to Chaman at Kerala on his behalf. The place of supply will be Tamilnadu
Where the supply does not involve movement of goods [Section 10(1)(c)]	The place of supply will be the location of the goods at the time of its delivery to the recipient E.g. , Ramesh took a building on rent from Raja. He installed the centralized AC in the building. After three years, Ramesh vacated the building but agreed with Raja to leave behind the AC without dismantling it. The supply of AC by Ramesh to Raja does not involve movement of goods and the place of supply shall be where the AC is fixed.
W.e.f. 01-10-2023, supply of goods purchased Over the Counter in one State and transported to another State by the unregistered buyer [Section 10(1)(ca)]	The place of supply shall be the location as per the address of the said person recorded in the invoice issued in respect of the said supply and the location of the supplier where the address of the said person is not recorded in the invoice. Taxpoint: Recording of the name of the State of the said person in the invoice shall be deemed to be the recording of the address of the said person.
Where the goods are assembled or installed at site [Section 10(1)(d)]	The place of supply will be the location of such installation or assembly E.g. , X Ltd., Karnataka, purchases a lift to be installed in their Chennai office from a vendor located in Karnataka. In this case, the place of supply would be considered as Chennai as the lift has been installed in Chennai.
Where goods are supplied on-board a conveyance [Section 10(1)(e)]	The place of supply will be the location at which the goods are taken on-board. E.g. , Mr. Jain boarded the train at Kolkata for its destination Bhopal, MP. He is carrying certain goods with him for the purpose of sale during the journey. When the train reaches Tatanagar, Jharkhand, he sells certain goods. Now, in this case the place of supply of such goods will be Kolkata (the location at which the goods are taken on board).

Place of supply of goods imported into, or exported from India [Sec. 11 of the IGST Act]

Place of supply of goods imported into, or exported from India shall be determined as under:

Case	Place of Supply
Import	The place of supply of goods imported into India shall be the location of the importer
Export	The place of supply of goods exported from India shall be the location outside India

Place of supply of services where location of supplier and recipient is in India [Sec. 12 of the IGST Act]

Place of supply of services where location of supplier and recipient is in India shall be determined as under:

Case	Place of Supply
In general	The place of supply of services: <ol style="list-style-type: none"> a) made to a registered person shall be the location of such person; b) made to any person other than a registered person shall be, — <ol style="list-style-type: none"> i. the location of the recipient where the address on record exists; and ii. the location of the supplier of services in other cases.

Examples

- Mr. Aman, Mumbai provides architect services to a Company located in Bangaluru. The recipient company is a registered person. In this case, the location of the recipient, i.e., the location of the company shall be treated as place of supply.
- A beauty parlor provides services to many customers, but they do not record names and addresses of the customers. The place of supply will be the location of such beauty parlor. However, where such parlor keeps the address of there customers on their records, then place of supply would be location of the recipient of the service.

Immovable property

<ol style="list-style-type: none"> a. directly in relation to an immovable property, including services provided by architects, interior decorators, surveyors, engineers and other related experts or estate agents, any service provided by way of grant of rights to use immovable property or for carrying out or co-ordination of construction work; or b. by way of lodging accommodation by a hotel, inn, guest house, home stay, club or campsite, by whatever name called, and including a house boat or any other vessel; or c. by way of accommodation in any immovable property for organizing any marriage or reception or matters related thereto, official, social, cultural, religious or business function including services provided in relation to such function at such property; or d. any services ancillary to the services referred to in clauses (a), (b) and (c), 	<p>The place of supply of services shall be the location at which the immovable property or boat or vessel, as the case may be, is located or intended to be located.</p> <p>However, where the immovable property or boat or vessel is located in more than one State or Union territory, the supply of services shall be treated as made in each of the respective States or Union territories, in proportion to the value for services separately collected or determined in terms of the contract or agreement entered into in this regard or, in the absence of such contract or agreement, on such other basis as may be prescribed.</p>

5.3.3 Value of Supply

GST is computed as a certain percentage of the value of taxable supply. Thus, valuation of such supply is utmost important aspect for determining the liability.

Value of taxable supply [Sec. 15(1)]

The value of a supply of goods or services or both shall be the transaction value, which is the price actually paid or payable for the said supply of goods or services or both where the supplier and the recipient of the supply are not related and the price is the sole consideration for the supply – Sec. 15(1)

In other words, transaction value shall be considered as a value of taxable supply provided following conditions are satisfied:

- a. the supplier and the recipient of the supply are not related; and
- b. the price is the sole consideration for the supply.

Taxpoint :

- ⦿ If aforesaid conditions are fulfilled, the transaction value, subject to certain adjustments, shall be considered as value of taxable supply.
- ⦿ As per sec. 2(75) “money” means the Indian legal tender or any foreign currency, cheque, promissory note, bill of exchange, letter of credit, draft, pay order, traveller cheque, money order, postal or electronic remittance or any other instrument recognised by the RBI when used as a consideration to settle an obligation or exchange with Indian legal tender of another denomination but shall not include any currency that is held for its numismatic value.
- ⦿ Persons shall be deemed to be “related persons” if:
 - a. such persons are officers or directors of one another’s businesses;
 - b. such persons are legally recognised partners in business;
 - c. such persons are employer and employee;
 - d. any person directly or indirectly owns, controls or holds 25% or more of the outstanding voting stock or shares of both of them;
 - e. one of them directly or indirectly controls the other;
 - f. both of them are directly or indirectly controlled by a third person;
 - g. together they directly or indirectly control a third person; or
 - h. they are members of the same family;
- ⦿ Person also includes legal persons;
- ⦿ Persons who are associated in the business of one another in that one is the sole agent or sole distributor or sole concessionaire, howsoever described, of the other, shall be deemed to be related.
- ⦿ As per sec. 2(31) “consideration” in relation to the supply of goods or services or both includes-
 - a. any payment made or to be made, whether in money or otherwise, in respect of, in response to, or for the inducement of, the supply of goods or services or both, whether by the recipient or by any other person but shall not include any subsidy given by the Central Government or a State Government;
 - b. the monetary value of any act or forbearance, in respect of, in response to, or for the inducement of, the supply of goods or services or both, whether by the recipient or by any other person but shall not include any subsidy given by the Central Government or a State Government;

However, a deposit given in respect of the supply of goods or services or both shall not be considered as payment made for such supply unless the supplier applies such deposit as consideration for the said supply;

Determination of Value :

Value of taxable supply = Transaction Value + Certain Inclusions – Certain Exclusions

Particulars	Amount	Amount
The price actually paid or payable for the said supply of goods or services or both		xxx

Particulars	Amount	Amount
Add: Inclusions as per sec. 15(2)	xxx	
Any taxes, duties, cesses, fees and charges levied under any law (excluding GST), if charged separately by the supplier		
Taxpoint : TCS under the Income-tax Act shall not be considered as it is an interim levy and not the final tax.		
Any amount that the supplier is liable to pay in relation to such supply but which has been incurred by the recipient of the supply and not included in the price actually paid or payable for the goods or services or both.	xxx	
Incidental expenses, including commission and packing, charged by the supplier to the recipient of a supply and any amount charged for anything done by the supplier in respect of the supply of goods or services or both at the time of, or before delivery of goods or supply of services.	xxx	
Interest or late fee or penalty for delayed payment of any consideration for any supply	xxx	
Subsidies directly linked to the price excluding subsidies provided by the Central Government and State Governments.	xxx	xxx
Taxpoint : The amount of subsidy shall be included in the value of supply of the supplier who receives the subsidy.		
		xxx
Less: Exclusions as per sec. 15(3)		
Any discount which is given:		xxx
a. before or at the time of the supply if such discount has been duly recorded in the invoice issued in respect of such supply; and		
b. after the supply has been effected, if-		
i. such discount is established in terms of an agreement entered into at or before the time of such supply and specifically linked to relevant invoices; and		
ii. input tax credit as is attributable to the discount on the basis of document issued by the supplier has been reversed by the recipient of the supply		
Value of Taxable Supply		xxx

Taxpoint : No GST on interest free refundable deposits received by the supplier

Example 20 :

- If the value inclusive of tax is ₹ 100/- and applicable GST tax rate is 18% then Tax amount = $(100 \times 18) / (100 + 18) = 1800 / 118 = ₹ 15.25$
- Mr. X is selling a product for ₹ 1,000 to Mr. B. In this example value of supply will be consideration charged i.e. ₹ 1,000 provided Mr. X and Mr. B are not related and price is the sole consideration.
- The supplier supplies goods worth ₹ 5,00,000 to the recipient. Against this supply, ₹ 3,00,000 is paid by the recipient directly and balance ₹ 2,00,000 is paid by the recipient's debtor. Both the payments will be included in the price for the purpose of valuation under GST.

4. Mr. A is sold goods to Mr. B for ₹ 20,000. Mr. A is charging packing charges of ₹ 1,000. Mr. A is also paying freight of ₹ 3,000 from Mr. A's premises to Mr. B's premises. In this case, taxable value shall be ₹ 24,000 i.e., taxable value shall include packing charges and freight.
5. A cafeteria in X Ltd (a corporate office) provides lunch at ₹ 120 per plate to the employees of the company. However, the vendor in the cafeteria receives an amount of ₹ 70 per plate in the form of subsidy from X Ltd for providing the food at a lower rate. Here, value of ₹ 70 will be added to the taxable value of ₹ 120 for the purpose of charging GST. Had this subsidy been provided by the Government to the company against mid-day meals, such amount of ₹ 70 would not have been includible in the taxable value.
6. Mr. X enters into a contract for supply of goods worth ₹ 2,00,000 on 15th March 2023. As per the said contract, the payment of the said amount was required to be made within 2 months of the sale. If the complete payment is not made within this time period, a late penalty of ₹ 10,000 will be chargeable. Let us assume that the payment is not made within the said period. In this situation, ₹ 10,000 will be includible in the taxable value. If GST is not separately charged on this interest amount then, ₹ 10,000 shall be treated as inclusive of GST and accordingly value shall be computed.
7. M/s Nanda Bakery sells a special type of fruit cake for New Year with MRP ₹ 200/- per pound. The customer being offered a discount @ 10% per cake. In the month of Dec. 2023, M/s Nanda Bakery sold 600 nos cakes to that customer. In this case, value of supply would be ₹ 1,08,000/- i.e., 90% of (₹ 200 x 600)
8. Mr. Ram sold goods to Mr. Lakshman for ₹ 2,50,000. As per the contract of sale, Mr. Ram is required to deliver the goods in the premises of Mr. Lakshman. Mr. Ram hires transporter for transportation for delivery of goods. However, the freight paid by Mr. Lakshman to transporter. Freight paid ₹ 2,500. In this case, value of taxable supply is ₹ 2,52,500 as obligation of the seller is discharged by the buyer.

Example 21 :

RG Pvt. Ltd. provides the following particulars relating to goods sold by it to GK Pvt. Ltd.:

Particulars	Amount in (₹)
List price of the goods (exclusive of taxes and discounts)	10,00,000
Tax levied by Municipal Authority in the sale of such goods	1,00,000
CGST and SGST chargeable on the goods	2,00,880
Packing charges (not included in price above)	20,000

RG Pvt. Ltd. received ₹ 40,000 as a subsidy from a NGO on sale of such goods. The price of ₹ 10,00,000 of the goods is after considering such subsidy. RG Ltd. offers 2% discount on the list price of the goods which is recorded in the invoice for the goods.

Determine the value of the taxable supply made by RG Pvt. Ltd.

Solution:

Computation of value of taxable supply :

Particulars	₹	₹
List price of the goods (exclusive of taxes and discounts)		10,00,000

Particulars	₹	₹
i. Tax levied by Municipal Authority on the sale of such goods [Includible in the value as per section 15(2)(a)]	1,00,000	
ii. CGST and SGST chargeable on the goods [Not includible in the value as per section 15(2)(a)]	-	
iii. Packing charges [Includible in the value as per section 15(2)(c)]	20,000	
iv. Subsidy received from a non-Government body [Since subsidy is received from a non-Government body, the same is included in the value in terms of section 15(2)(e)]	40,000	1,60,000
Total		11,60,000
Less: Discount @ 2% on ₹ 10,00,000		20,000
Value of taxable supply		11,40,000

Value of supply of goods or services where the consideration is not wholly in money [Rule 27]

Where the supply of goods or services is for a consideration not wholly in money, the value of the supply shall:

Case	Value of supply
a. Where the open market value of the supply is available.	Open market value Taxpoint : “Open market value” of a supply of goods or services or both means the full value in money, excluding the integrated tax, central tax, State tax, Union territory tax and the cess payable by a person in a transaction, where the supplier and the recipient of the supply are not related and price is the sole consideration, to obtain such supply at the same time when the supply being valued is made.
b. Where the open market value of the supply is not available.	The sum total of consideration in money + any such further amount in money as is equivalent to the consideration not in money, if such amount is known at the time of supply.
c. Where the value is not determined under (a) or (b) above	The value of supply of goods or services or both of like kind and quality Taxpoint : “Supply of goods or services or both of like kind and quality” means any other supply of goods or services or both made under similar circumstances that, in respect of the characteristics, quality, quantity, functional components, materials, and reputation of the goods or services or both first mentioned, is the same as, or closely or substantially resembles, that supply of goods or services or both.
d. Where the value is not determinable under (a) or (b) or (c),	The sum total of consideration in money and such further amount in money that is equivalent to consideration not in money as determined by the application of rule 30 or rule 31 in that order.

Example 22:

- ◉ Where a new phone is supplied for ₹ 20,000 along with the exchange of an old phone and if the price of the new phone without exchange is ₹ 24,000, the open market value of the new phone is ₹ 24,000.

- Where a laptop is supplied for ₹ 40,000 along with the barter of a printer that is manufactured by the recipient and the value of the printer known at the time of supply is ₹ 4,000 but the open market value of the laptop is not known, the value of the supply of the laptop is ₹ 44,000.
- Jaya purchases a Samsung television set costing ₹ 85,000 from an electronic shop, in exchange of her existing TV set. After an hour of bargaining, the shop manager agrees to accept ₹ 78,000 instead of his quote of ₹ 81,000, as he would still be in a profitable position (the old TV can be sold for ₹ 8,000). In this case, where the price is not the sole consideration for the supply, the 'open market value' would be the value of the supply. Therefore, ₹ 85,000 would be the value of the supply.

Value of taxable supply – other cases [Sec. 15(3)]

Where the value of the supply of goods or services or both cannot be determined u/s 15(1), the same shall be determined in such manner as may be prescribed.

Value of supply of goods or services or both between distinct or related persons, other than through an agent [Rule 28]

The value of the supply of goods or services or both between distinct persons or where the supplier and recipient are related, other than where the supply is made through an agent, shall :

Case	Value of supply
Where the open market value of the supply is available and	
➤ Where the recipient is not eligible for full ITC	Open market value
➤ Where the recipient is eligible for full ITC	The value declared in the invoice shall be deemed to be the open market value of the goods or services. Taxpoint: In such case transaction is tax neutral.
Where the open market value of the supply is not available and	
Where the goods are not intended for further supply as such by the recipient.	The value of supply of goods or services or both of like kind and quality.
Where the goods are intended for further supply as such by the recipient.	The value shall, at the option of the supplier, be a. The value of supply of goods or services or both of like kind and quality b. an amount equivalent to 90% of the price charged for the supply of goods of like kind and quality by the recipient to his customer not being a related person.

Taxpoint :

- If the value is not determinable in aforesaid manner, then the value shall be determined by the application of rule 30 or rule 31, in that order.
- A person who has obtained or is required to obtain more than one registration, whether in one State or Union territory or more than one State or Union territory shall, in respect of each such registration, be treated as distinct persons [Sec. 25(4)]
- Where a person who has obtained or is required to obtain registration in a State or Union territory in respect of an establishment, has an establishment in another State or Union territory, then such establishments shall be treated as establishments of distinct persons for the purposes of this Act – [Sec. 25(5)]

- “Agent” means a person, including a factor, broker, commission agent, arhatia, del credere agent, an auctioneer or any other mercantile agent, by whatever name called, who carries on the business of supply or receipt of goods or services or both on behalf of another [Sec. 2(5)].

Value of supply of goods made or received through an agent [Rule 29]

The value of supply of goods between the principal and his agent shall :

Case	Value of supply
Where the open market value of the supply of goods is available	The value shall, at the option of the supplier, be <ol style="list-style-type: none"> Open market value 90% of the price charged for the supply of goods of like kind and quality by the recipient to his customer not being a related person, where the goods are intended for further supply by the said recipient.
Where the value of a supply is not determinable as above	The value shall be determined by the application of rule 30 or rule 31 in that order.

Example 23 :

A principal supplies groundnut to his agent and the agent is supplying groundnuts of like kind and quality in subsequent supplies at a price of ₹ 5,000 per quintal on the day of the supply. Another independent supplier is supplying groundnuts of like kind and quality to the said agent at the price of ₹ 4,550 per quintal. The value of the supply made by the principal shall be ₹ 4,550/- per quintal or where he exercises the option, the value shall be 90% of ₹ 5,000 i.e., ₹ 4,500 per quintal.

Value of supply of goods or services or both based on cost [Rule 30]

Where the value of a supply of goods or services or both is not determinable by any of the preceding rules, the value shall be 110% of the cost of production or manufacture or the cost of acquisition of such goods or the cost of provision of such services.

Residual method for determination of value of supply of goods or services or both [Rule 31]

Where the value of supply of goods or services or both cannot be determined under rules 27 to 30, the same shall be determined using reasonable means consistent with the principles and the general provisions of sec. 15 and the provisions of this Chapter.

However, in the case of supply of services, the supplier may opt for this rule, ignoring rule 30.

Value of supply in case of lottery, betting, gambling and horse racing [Rule 31A]

Notwithstanding anything contained in the provisions of this Chapter, the value in respect of supplies specified below shall be determined in the manner provided hereinafter.

Deemed Value of supply of lottery [Rule 31A(2)]

The deemed value of supply of lottery shall be higher of the following:

- 100/128 of the face value of ticket; or
- 100/128 of the price as notified in the Official Gazette by the Organising State.

Lotteries are sold as goods and can be of following two types:

- “Lottery run by State Governments” means a lottery not allowed to be sold in any State other than the organizing State.
- “Lottery authorised by State Governments” means a lottery which is authorised to be sold in State(s) other than the organising State also.

Example 24:

State Government authorize a lottery whose particulars are as under

- Face value per ticket: ₹ 1000,
- The price as notified by official gazette: ₹ 600.

Compute value of supply

Further, how shall your answer differ if the price mentioned in (b) is ₹ 1,050 instead of ₹ 600

Solution:

Higher of the following shall be considered as value of supply :

Particulars	When notified price is ₹ 600	When notified price is ₹ 1,050
100/128 of face value of ticket i.e., ₹ 1,000 x 100 / 128	781.25	781.25
100/128 of notified price i.e.,		
- ₹ 600 x 100 / 128	468.75	
- ₹ 1,050 x 100 / 128		820.31
Value of supply (being higher of the above)	781.25	820.31

Value of supply of actionable claim in the form of chance to win in betting, gambling or horse racing in a race club [Rule 31A(3)]

The value of supply of actionable claim in the form of chance to win in betting, gambling or horse racing in a race club shall be 100% of the face value of the bet or the amount paid into the totalisator.

Value of notified supplies [Sec. 15(5)]

The value of notified supplies shall be determined in such manner as may be prescribed.

Determination of value in respect of certain supplies [Rule 32]

Notwithstanding anything contained in the provisions of this Chapter, the value in respect of supplies specified below shall, at the option of the supplier, be determined in the manner provided hereinafter.

Value of supply of services in relation to the purchase or sale of foreign currency, including money changing [Rule 32(2)]

The value of supply of services in relation to the purchase or sale of foreign currency, including money changing, shall be determined by the supplier of services in the following manner, namely :

Option 1 Where one of the currency exchanged is INR

Value of supply =	(Difference between buying rate or the selling rate and RBI reference rate for that currency at that time) x Total units of currency However, where the RBI reference rate for a currency is not available, the value shall be 1% of the gross amount of Indian Rupees provided or received by the person changing the money Example 25: 1. US\$ 100 are sold by a customer at the rate of ₹ 78 per US\$. RBI reference rate for US\$ is ₹ 77 for that day. The taxable value shall be ₹ 100 i.e., $(₹ 78 - ₹ 77) \times 100$ 2. INR 90,000 is changed into Great Britain Pound (GBP) and the exchange rate offered is ₹ 90, thereby giving GBP 1,000. RBI reference rate for that day for GBP is ₹ 89. The taxable value shall be ₹ 1,000. However, if RBI reference rate is not available then, taxable value is ₹ 900 i.e., 1% of ₹ 90,000.	
Where none of the currency exchanged is INR		
Value of supply =	1% of the lesser of the two amounts the person changing the money would have received by converting any of the two currencies into Indian Rupee on that day at RBI reference rate.	
Option 2		
Value of supply =	Amount Exchanged	Value of supply
	Gross amount of currency exchanged up to ₹ 1,00,000	a. 1% of the gross amount of currency exchanged; or b. ₹ 250 - whichever is higher
	Gross amount of currency exchanged exceeds ₹ 1,00,000 but does not exceed ₹ 10,00,000/- Gross amount of currency exchanged exceeds ₹ 10,00,000	₹ 1,000 + 0.5% of the gross amount of currency exchanged in excess of ₹ 1,00,000. a. ₹ 5,500 + 0.1% of the gross amount of currency exchanged in excess of ₹ 10,00,000 b. ₹ 60,000 - whichever is lower
Example 26 : 1. USD 100 is sold to a customer at the rate ₹ 65 per USD. The gross amount of currency exchanged is ₹ 6,500/- Taxable value of supply = ₹ 250 being higher of ₹ 250 and 1% of ₹ 6,500/- 2. USD 1000 is sold to a customer at the rate ₹ 65 per USD. The gross amount of currency exchanged is ₹ 65,000/- Taxable value of supply = ₹ 650 i.e., $[₹ 65,000 \times 1\%]$ 3. USD 3000 is sold to a customer at the rate ₹ 65 per USD. The gross amount of currency exchanged is ₹ 1,95,000/- Taxable value of supply = ₹ 1,000 + $[(1,95,000 - 1,00,000) \times 0.5\%]$ = ₹ 1,475/- 4. USD 20000 is sold to a customer at the rate ₹ 65 per USD. The gross amount of currency exchanged is ₹ 13,00,000/- Taxable value of supply = ₹ 5,500 + $[(13,00,000 - 10,00,000) \times 0.1\%]$ = ₹ 5,800/- Taxpoint : A person supplying the services may exercise the option to ascertain the value in terms of this clause for a financial year and such option shall not be withdrawn during the remaining part of that financial year.		

Value of the supply of services in relation to booking of tickets for travel by air by an air travel agent [Rule 32(3)]

The deemed value of the supply of services in relation to booking of tickets for travel by air provided by an air travel agent shall be :

Case	Value of supply
In case of domestic booking	5% of the basic fare
In case of international booking	10% of the basic fare

Taxpoint : “Basic fare” means that part of the air fare on which commission is normally paid to the air travel agent by the airlines.

Example 27 :

Mr. Ram is a travel agent. The following particulars are furnished by him.

Particulars	Basic Fare	Other charges and fee	Taxes	Total Ticket Value
Domestic bookings	₹ 1,00,000	₹ 5,000	₹ 4,000	₹ 1,09,000
International bookings	₹ 3,00,000	₹ 20,000	₹ 15,000	₹ 3,35,000

Solution:

Computation of taxable value :

Particulars	Basic Fare	Prescribed %	Value of supply
For Domestic Booking	1,00,000	5%	5,000
For International Booking	3,00,000	10%	30,000
Total			35,000

Value of supply of services in relation to life insurance business [Rule 32(4)]

The value of supply of services in relation to life insurance business shall be :

Case	Value of supply
Where policy also have features of investment and such an amount is intimated to the policy holder at the time of supply of service	Gross premium charged from a policy holder less The amount allocated for investment, or savings on behalf of the policy holder Example 29 : If the gross premium is ₹ 60,000, of which ₹ 55,000 is invested in funds, then the value of supply shall be ₹ 5,000.
Single premium annuity policies not covered above.	10% of single premium charged from the policy holder.
In all other case	First year 25% of the premium charged from the policy holder Subsequent year 12.5% of the premium charged from the policy holder in subsequent years.

Taxpoint : Nothing contained in this sub-rule shall apply where the entire premium paid by the policy holder is only towards the risk cover in life insurance.

Value of supply in buying and selling of second hand goods [Rule 32(5)]

Where a taxable supply is provided by a person dealing in buying and selling

- of second hand goods i.e., used goods as such or after such minor processing which does not change the nature of the goods; and
- where no input tax credit has been availed on the purchase of such goods,

then,

the value of supply shall be the difference between the selling price and the purchase price and where the value of such supply is negative, it shall be ignored:

Taxpoint : The purchase value of goods repossessed from a defaulting borrower, who is not registered, for the purpose of recovery of a loan or debt shall be deemed to be the purchase price of such goods by the defaulting borrower reduced by 5% for every quarter or part thereof, between the date of purchase and the date of disposal by the person making such repossession.

Example 28:

M/s Hariharan is dealer of old car and engaged in purchase and sale of old cars in Bihar, furnishes the details of following transactions for the month of August 2023.

1. Purchased old car for ₹ 80,000/- and sold for ₹ 1,20,000/- in Bihar
2. Purchased old car for ₹ 75,000/- and sold for ₹ 65,000/- in Bihar
3. Purchased old car for ₹ 90,000/- but unable to sell during the month of August' 23
4. Purchased old car for ₹ 1,00,000/- and sold for ₹ 1,30,000/- in Orissa

Determine the value of taxable supply

Solution:

Computation of taxable value of supply :

Sl. No.	Particulars		Profit
	Purchase	Sale	
1.	80,000	1,20,000	40,000
2.	75,000	65,000	Note (i)
3.	90,000	-	Note (ii)
4.	1,00,000	1,30,000	30,000
Taxable value of supply			70,000

Notes :

- (i) As per Rule 32(5), no GST is payable in negative margin
- (ii) No GST is payable on unsold goods
- (iii) In case of sale of car in Orissa, IGST is applicable.

Example 29 : Mr. X had purchased a voucher for ₹ 200 which was redeemable against purchase of a wallet worth ₹ 500 from Shopping Stop. Here, the valuation that should be taken is the redemption value of ₹ 500 in respect of the voucher and not the purchase value of ₹ 200.

Value of taxable services provided by notified class of service providers [Rule 32(7)]

The value of taxable services provided by notified class of service providers, as referred to in paragraph 2 of Schedule I between distinct persons as referred to in section 25, where input tax credit is available, shall be deemed to be NIL.

Value of supply of services in case of pure agent [Rule 33]

Notwithstanding anything contained in the provisions of this Chapter, the expenditure or costs incurred by a supplier as a pure agent of the recipient of supply shall be excluded from the value of supply, if all the following conditions are satisfied:

- a. the supplier acts as a pure agent of the recipient of the supply, when he makes the payment to the third party on authorisation by such recipient;
- b. the payment made by the pure agent on behalf of the recipient of supply has been separately indicated in the invoice issued by the pure agent to the recipient of service; and
- c. the supplies procured by the pure agent from the third party as a pure agent of the recipient of supply are in addition to the services he supplies on his own account.

Taxpoint :

“Pure agent” means a person who-

- a. enters into a contractual agreement with the recipient of supply to act as his pure agent to incur expenditure or costs in the course of supply of goods or services or both;
- b. neither intends to hold nor holds any title to the goods or services or both so procured or supplied as pure agent of the recipient of supply;
- c. does not use for his own interest such goods or services so procured; and
- d. receives only the actual amount incurred to procure such goods or services in addition to the amount received for supply he provides on his own account.

Example 30 :

Corporate services firm A is engaged to handle the legal work pertaining to the incorporation of Company B. Other than its service fees, A also recovers from B, registration fee and approval fee for the name of the company paid to the Registrar of Companies. The fees charged by the Registrar of Companies for the registration and approval of the name are compulsorily levied on B. A is merely acting as a pure agent in the payment of those fees. Therefore, A's recovery of such expenses is a disbursement and not part of the value of supply made by A to B.

Rate of exchange of currency, other than Indian rupees, for determination of value [Rule 34]

1. The rate of exchange for determination of value of taxable goods shall be the applicable rate of exchange as notified by the Board u/s 14 of the Customs Act, 1962 for the date of time of supply of such goods in terms of sec. 12 of the Act.
2. The rate of exchange for determination of value of taxable services shall be the applicable rate of exchange determined as per the generally accepted accounting principles for the date of time of supply of such services in terms of sec. 13 of the Act.

Illustration 25 :

Following are the particulars, relating to one of the machine sold by S Ltd. to A Ltd. in the month of February 2024 at list price of ₹ 8,50,000. (exclusive of taxes and discount) Further, following additional amounts have been charged from ACD Ltd :

Sl. No.	Particulars	₹
(i)	Municipal taxes chargeable on the machine	55,000
(ii)	Outward freight charges (Contract was to deliver machine at A Ltd.'s factory i.e. F.O.R. contract)	75,000

Additional information :

- S Ltd. normally gives an interest-free credit period of 30 days for payment, after that it charges interest @ 1% p.m. or part thereof on list price. A Ltd. paid for the supply after 45 days, but S Ltd. waived the interest payable.
- S Ltd. received ₹ 50,000 as subsidy, from one non-government organization (NGO) on sale of such machine. This subsidy was not linked to the price of machine and also not considered in list price of ₹ 8,50,000.
- A Ltd. deducted discount of ₹ 15,000 at the time of final payment, which was not as per agreement.
- S Ltd. collected ₹ 8,500 as TCS (tax collected at source) under the provisions of the Income Tax Act, 1961.

Compute the value of taxable supply as per the provision of GST laws, considering that the price is the sole consideration for the supply and both parties are unrelated to each other.

Solution:

Computation of taxable value of supply :

Particulars	₹
List Price (exclusive of tax and discount)	8,50,000
Municipal taxes chargeable on the machine [Only GST is required to be excluded]	55,000
Outward freight charges (Contract was to deliver machine at A Ltd.'s factory i.e. F.O.R. contract)	75,000
Interest on delayed payment [as the same is waived by S Ltd.]	-
Receipt of subsidy from NGO [as it is not directly linked with the machine]	-
Discount [as it is post supply discount]	-
TCS [as it is an interim levy not having the characteristics of tax]	-
Taxable value of supply	9,80,000

Uninterrupted and seamless chain of input tax credit (hereinafter referred to as, “ITC”) is one of the key features of Goods and Services Tax. ITC is a mechanism to avoid cascading of taxes. Cascading of taxes, in simple language, is ‘tax on tax’. Under the earlier system of taxation, credit of taxes being levied by Central Government is not available as set-off for payment of taxes levied by State Governments, and vice versa. One of the most important features of the GST system is that the entire supply chain would be subject to GST to be levied by Central and State Government concurrently. As the tax charged by the Central or the State Governments would be part of the same tax regime, the credit of tax paid at every stage would be available as set-off for payment of tax at every subsequent stage.

Eligibility and conditions for taking input tax credit [Sec. 16]

Every registered person shall, subject to such conditions and restrictions as may be prescribed and in the manner specified in sec. 49, be entitled to take credit of input tax charged on any supply of goods or services or both to him which are used or intended to be used in the course or furtherance of his business and the said amount shall be credited to the electronic credit ledger of such person.

Taxpoint :

- ◉ The person is entitled for ITC if:
 - a. The person is a registered person
 - b. Goods or services or both are supplied to him are used or intended to be used in the course or furtherance of his business
 - c. He satisfies prescribed conditions
 - d. He claims for ITC in the manner prescribed u/s 49

Conditions to be satisfied [Sec. 16(2)]

No registered person shall be entitled to the credit of any input tax in respect of any supply of goods or services or both to him unless :

(a)	he is in possession of a tax invoice or debit note issued by a supplier registered under this Act, or such other tax paying documents as may be prescribed;
(aa)	the details of the invoice or debit note referred to in clause (a) has been furnished by the supplier in the statement of outward supplies [i.e., GSTR 1] and such details have been communicated to the recipient of such invoice or debit note in the manner specified u/s 37;
(b)	he has received the goods or services or both
	<p>Taxpoint :</p> <p>Goods received in installment: Where the goods against an invoice are received in lots or instalments, the registered person shall be entitled to take credit upon receipt of the last lot or instalment.</p>

Example 31 :

A consignment of coal is to be dispatched from Kolkata to Mumbai using 5 trucks. An invoice was issued to the recipient on March 30, 2022. Four trucks reached the claimant by March 30, 2022 but the truck carrying the final lot of the consignment reached the recipient only on April 2, 2022. In this case, input tax credit for the entire consignment can be availed only in the month of April 2022.

No ITC on advance payment : ITC shall not be available on advance payment without receipt of goods. In case of advance payment, ITC shall be available in the month in which goods (or final lot of goods) is actually received.

Effect of non-payment of invoice : Where a recipient fails to pay to the supplier of goods or services or both (other than the supplies on which tax is payable on reverse charge basis), the amount towards the value of supply along with tax payable thereon within a period of 180 days from the date of issue of invoice by the supplier, an amount equal to the input tax credit availed by the recipient shall be added to his output tax liability, along with interest thereon, in such manner as may be prescribed [Rule 37].

Re-availment of ITC on payment to supplier : However, the recipient shall be entitled to avail of the credit of input tax on payment made by him of the amount towards the value of supply of goods or services or both along with tax payable thereon.

Bill to ship to Model : It shall be deemed that the registered person has received the goods or, as the case may be, services:

- i. where the goods are delivered by the supplier to a recipient or any other person on the direction of such registered person, whether acting as an agent or otherwise, before or during movement of goods, either by way of transfer of documents of title to goods or otherwise;
- ii. where the services are provided by the supplier to any person on the direction of and on account of such registered person.

Such cases are termed as bill to ship to cases wherein the supplier sends the invoice to the buyer and the goods to the recipient on the direction of the buyer. Even though the goods are not received by the buyer, it is presumed that he has received the goods and he is able to take the input tax credit. The buyer may further issue his invoice to the actual recipient of goods. Thus, it is a tripartite arrangement wherein there are usually three parties and two transactions.

Example 32 :

H Traders, a dealer in furniture, located in Maharashtra, receives an order from R Traders, also located in Maharashtra. The order is for the supply of 50 tables, with an instruction to ship the tables to P Hardwares, located in Kolkata. P Hardwares is a customer of R Traders. There are two parts to this transaction:

- First part of the transaction – between H Traders and R Traders:

H Traders is the supplier of tables, and R Traders is the buyer. Accordingly, H Traders bills the transaction to R Traders, and as per the instruction, ships the goods to P Hardwares in Kolkata. ITC is available to the R Traders though goods were not received by it.

- The second part of the transaction – between R Traders and P Hardwares:

R Traders is the supplier, and P Hardwares is the buyer. R Traders bills the transaction to P Hardwares.

(c)	<p>subject to the provisions of sec. 41, the tax charged in respect of such supply has been actually paid to the Government, either:</p> <ul style="list-style-type: none"> - in cash or - through utilisation of input tax credit admissible in respect of the said supply <p>Example 33 :</p> <p>Mr. Vikram acquired a laptop of ₹ 1,00,000 + GST @ 18% [i.e., 9% CGST and 9% SGST] for his professional use from X Ltd.</p> <p>ITC of ₹ 9,000 each in CGST and SGST is not available to Vikram if X Ltd fails to pay GST to the Government. X Ltd. may discharge his liability by following way:</p> <ol style="list-style-type: none"> a. by utilizing balance of ITC available with X Ltd. b. by paying amount to the credit of the Government c. by any combination of aforesaid way
(d)	he has furnished the return u/s 39 [GSTR 3B]

Taxpoint :

- ⊙ No ITC if depreciation is claimed: Where the registered person has claimed depreciation on the tax component of the cost of capital goods and plant and machinery under the Income tax Act, 1961, the input tax credit on the said tax component shall not be allowed.

Example 34 :

Mr. Vikram acquired a laptop of ₹ 1,00,000 + GST @ 18% [i.e., 9% CGST and 9% SGST] for his professional use. He has following options :

Option 1		Option 2	
Particulars	Amount	Particulars	Amount
Computation of depreciation u/s 32 of the Income-tax Act			
Asset acquired during the year (without considering GST)	1,00,000	Asset acquired during the year (with GST)	1,18,000
Depreciation @ 40%	40,000		47,200
Closing WDV	60,000		70,800
Effect of aforesaid computation in GST			
Input tax credit available		Input tax credit available	
- CGST	9,000	- CGST	Nil
- SGST	9,000	- SGST	Nil

- ⊙ **Maximum time limit for claiming ITC:** A registered person shall not be entitled to take input tax credit in respect of any invoice or debit note for supply of goods or services or both after
 - a. the 30th November following the end of financial year to which such invoice or debit note pertains; or
 - b. Actual date of furnishing of the relevant annual return [i.e., GSTR 9]
 - whichever is earlier.

However, the aforesaid time limit is not applicable in case of re-availment of the ITC, which had been reversed due to non-payment to the supplier within 180 days from the date of issue of the invoice.

Documentary requirements and conditions for claiming input tax credit [Rule 36]

1. The input tax credit shall be availed by a registered person, including the Input Service Distributor, on the basis of any of the following documents, namely,-
 - a. an invoice issued by the supplier of goods or services or both in accordance with the provisions of sec. 31;
 - b. an invoice issued in accordance with the provisions of s. 31(3)(f), subject to the payment of tax;
 - c. a debit note issued by a supplier in accordance with the provisions of sec. 34;
 - d. a bill of entry or any similar document prescribed under the Customs Act, 1962 or rules made thereunder for the assessment of integrated tax on imports;
 - e. an Input Service Distributor invoice or Input Service Distributor credit note or any document issued by an Input Service Distributor in accordance with the provisions of rule 54(1).
2. Input tax credit shall be availed by a registered person only if all the applicable particulars as specified in the provisions of Chapter VI are contained in the said document, and the relevant information, as contained in the said document, is furnished in FORM GSTR-2 by such person:

However, if the said document does not contain all the specified particulars but contains the details of the amount of tax charged, description of goods or services, total value of supply of goods or services or both, GSTIN of the supplier and recipient and place of supply in case of inter-State supply, input tax credit may be availed by such registered person.
3. No input tax credit shall be availed by a registered person in respect of any tax that has been paid in pursuance of any order where any demand has been confirmed on account of any fraud, willful misstatement or suppression of facts.
4. No input tax credit shall be availed by a registered person in respect of invoices or debit notes the details of which are required to be furnished u/s 37(1) unless:
 - a. the details of such invoices or debit notes have been furnished by the supplier in the statement of outward supplies in Form GSTR-1 or using the invoice furnishing facility (IFF); and
 - b. the details of such invoices or debit notes have been communicated to the registered person in Form GSTR-2B under rule 60(7).

Taxpoint :

W.e.f. 01-04-2022, ITC shall not available if the same is not reflected in Form GSTR 2B of the registered person.

Reversal of input tax credit in the case of non-payment of consideration [Rule 37]

1. A registered person, who has availed of input tax credit on any inward supply of goods or services or both, but fails to pay to the supplier thereof, the value of such supply along with the tax payable thereon, within 180 days from the date of issue of invoice by the supplier, shall furnish the details of such supply, the amount of value not paid and the amount of input tax credit availed of proportionate to such amount not paid to the supplier in Form GSTR-2 for the month immediately following the period of 180 days from the date of the issue of the invoice.

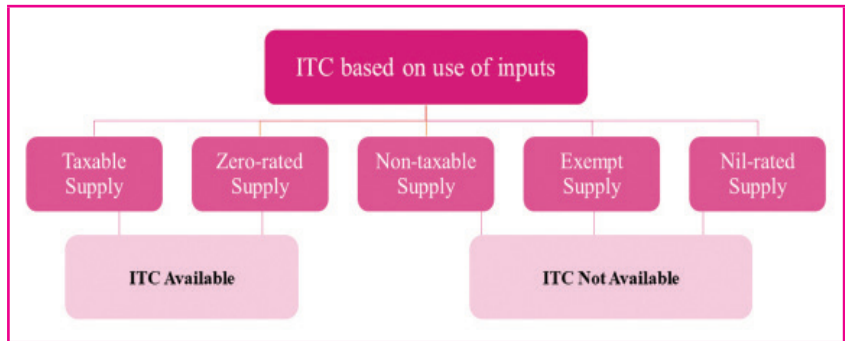

The value of supplies made without consideration as specified in Schedule I shall be deemed to have been paid for this purpose.

The value of supplies on account of any amount added in accordance with the provisions of sec. 15(2)(b) shall be deemed to have been paid for this purpose.

2. The amount of aforesaid input tax credit shall be added to the output tax liability of the registered person for the month in which the details are furnished.
3. The registered person shall be liable to pay interest at the rate not exceeding 18% for the period starting from the date of availing credit on such supplies till the date when the amount added to the output tax liability, as mentioned above, is paid.
4. The time limit specified u/s 16(4) shall not apply to a claim for re-availing of any credit that had been reversed earlier.

Apportionment of Credit [Sec. 17(1) / (2) / (3)]

The input tax credit eligibility is based on the fact as to whether the goods or services or both are used for taxable supplies or exempt supplies. Where the goods or services or both are used for both taxable and exempt supplies, only proportionate credit is allowed to a registered person.

1. Goods or services are used partly for business purpose and partly for other purpose: Where the goods or services or both are used by the registered person partly for the purpose of any business and partly for other purposes, the amount of credit shall be restricted to so much of the input tax as is attributable to the purposes of his business.
2. Goods or services are used partly for effecting taxable supply and partly for effecting exempted supply: Where the goods or services or both are used by the registered person partly for effecting taxable supplies (including zero-rated supplies) and partly for effecting exempt supplies, the amount of credit shall be restricted to so much of the input tax as is attributable to the said taxable supplies (including zero-rated supplies).

Taxpoint :

The value of exempt supply shall be such as may be prescribed, and shall include supplies on which the recipient is liable to pay tax on reverse charge basis, transactions in securities, sale of land and, subject to clause (b) of paragraph 5 of Schedule II, sale of building. It is to be noted that value of exempt supply shall not include the value of activities or transactions specified in Schedule III, except those specified in paragraph 5 of the said Schedule.

And w.e.f. 01-10-2023, the value of such activities or transactions as may be prescribed in respect of clause (a) of paragraph 8 of the said Schedule.

Example 35 :

 - iii. on the day immediately preceding the date from which he becomes liable to pay tax u/s 9, in the case of a claim u/s 18(1)(c);
 - iv. on the day immediately preceding the date from which the supplies made by the registered person becomes taxable, in the case of a claim u/s 18(1)(d);

- d. the details furnished in the declaration shall be duly certified by a practicing chartered accountant or a cost accountant if the aggregate value of the claim on account of central tax, State tax, Union territory tax and integrated tax exceeds ₹ 2,00,000
 - e. the input tax credit claimed in accordance with the provisions of sec. 18(1)(c) and (d) shall be verified with the corresponding details furnished by the corresponding supplier in Form GSTR-1 or as the case may be, in Form GSTR- 4, on the common portal.
2. The amount of credit in the case of supply of capital goods or plant and machinery, for the purposes of sec. 18(6), shall be calculated by reducing the input tax on the said goods @ 5% for every quarter or part thereof from the date of the issue of the invoice for such goods.

Transfer of credit on sale, merger, amalgamation, lease or transfer of a business [Rule 41]

1. A registered person shall, in the event of sale, merger, demerger, amalgamation, lease or transfer or change in the ownership of business for any reason, furnish the details of sale, merger, demerger, amalgamation, lease or transfer of business, in Form GST ITC-02, electronically on the common portal along with a request for transfer of unutilized input tax credit lying in his electronic credit ledger to the transferee.

In the case of demerger, the input tax credit shall be apportioned in the ratio of the value of assets of the new units as specified in the demerger scheme.

“Value of assets” means the value of the entire assets of the business, whether or not input tax credit has been availed thereon.

2. The transferor shall also submit a copy of a certificate issued by a practicing chartered accountant or cost accountant certifying that the sale, merger, demerger, amalgamation, lease or transfer of business has been done with a specific provision for the transfer of liabilities.
3. The transferee shall, on the common portal, accept the details so furnished by the transfer or and, upon such acceptance, the un-utilized credit specified in Form GST ITC-02 shall be credited to his electronic credit ledger
4. The inputs and capital goods so transferred shall be duly accounted for by the transferee in his books of account.

Transfer of credit on obtaining separate registration for multiple places of business within a State or Union Territory [Rule 41A]

1. A registered person who has obtained separate registration for multiple places of business in accordance with the provisions of rule 11 and who intends to transfer, either wholly or partly, the unutilised input tax credit lying in his electronic credit ledger to any or all of the newly registered place of business, shall furnish within a period of 30 days from obtaining such separate registrations, the details in Form GST ITC-02A electronically on the common portal, either directly or through a Facilitation Centre notified in this behalf by the Commissioner.

The input tax credit shall be transferred to the newly registered entities in the ratio of the value of assets held by them at the time of registration.

‘Value of assets’ means the value of the entire assets of the business whether or not input tax credit has been availed thereon.

- The newly registered person (transferee) shall, on the common portal, accept the details so furnished by the registered person (transferor) and, upon such acceptance, the unutilised input tax credit specified in Form GST ITC-02A shall be credited to his electronic credit ledger.

Manner of reversal of credit under special circumstances [Rule 44]

- The amount of input tax credit relating to inputs held in stock, inputs contained in semi-finished and finished goods held in stock, and capital goods held in stock shall, for the purposes of sec. 18(4) or sec. 29(5) [relating to cancellation of registration], be determined in the following manner
 - for inputs held in stock and inputs contained in semi-finished and finished goods held in stock, the input tax credit shall be calculated proportionately on the basis of the corresponding invoices on which credit had been availed by the registered taxable person on such inputs;
 - for capital goods held in stock, the input tax credit involved in the remaining useful life in months shall be computed on pro-rata basis, taking the useful life as 5 years.

Example 36 :

Capital goods have been in use for 4 years, 6 month and 15 days.

The useful remaining life in months = 5 months ignoring a part of the month

Input tax credit taken on such capital goods = ₹ 60,000

Input tax credit attributable to remaining useful life = ₹ 60,000 x 5/60 = ₹ 5,000

- The aforesaid amount shall be determined separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.
- Where the tax invoices related to the inputs held in stock are not available, the registered person shall estimate the amount under rule 44(1) based on the prevailing market price of the goods on the effective date of the occurrence of any of the events specified in sec. 18(4) or sec. 29(5)
- The amount determined under rule 44(1) shall form part of the output tax liability of the registered person and the details of the amount shall be furnished in Form GST ITC-03, where such amount relates to any event specified in sec. 18(4) and in Form GSTR-10, where such amount relates to the cancellation of registration.
- The details furnished in accordance with rule 44(3) shall be duly certified by a practicing chartered accountant or cost accountant.
- The amount of input tax credit for the purposes of sec. 18(6) relating to capital goods shall be determined in the same manner as specified in rule 44(1)(b) and the amount shall be determined separately for input tax credit of Central tax, State tax, Union territory tax and integrated tax.

However, where the amount so determined is more than the tax determined on the transaction value of the capital goods, the amount determined shall form part of the output tax liability and the same shall be furnished in Form GSTR-1

Taking input tax credit in respect of inputs and capital goods sent for job work [Sec. 19]

- The principal shall, subject to such conditions and restrictions as may be prescribed, be allowed input tax credit on inputs sent to a job worker for job work.
- The principal shall be entitled to take credit of input tax on inputs even if the inputs are directly sent to a job

worker for job work without being first brought to his place of business.

- ◉ Where the inputs sent for job work are not received back by the principal after completion of job work or otherwise or are not supplied from the place of business of the job worker in accordance with sec. 143(1)(a) or (b) within 1 year of being sent out, it shall be deemed that such inputs had been supplied by the principal to the job worker on the day when the said inputs were sent out.

However, where the inputs are sent directly to a job worker, the period of 1 year shall be counted from the date of receipt of inputs by the job worker.

As per sec. 143, a registered person (hereafter in this section referred to as the “principal”) may under intimation and subject to such conditions as may be prescribed, send any inputs or capital goods, without payment of tax, to a job worker for job work and from there subsequently send to another job worker and likewise, and shall,-

- a. bring back inputs, after completion of job work or otherwise, or capital goods, other than moulds and dies, jigs and fixtures, or tools, within 1 year and 3 years, respectively, of their being sent out, to any of his place of business, without payment of tax;
 - b. supply such inputs, after completion of job work or otherwise, or capital goods, other than moulds and dies, jigs and fixtures, or tools, within 1 year and 3 years, respectively, of their being sent out from the place of business of a job worker on payment of tax within India, or with or without payment of tax for export, as the case may be.
- ◉ The principal shall, subject to such conditions and restrictions as may be prescribed, be allowed input tax credit on capital goods sent to a job worker for job work.
 - ◉ The principal shall be entitled to take credit of input tax on capital goods even if the capital goods are directly sent to a job worker for job work without being first brought to his place of business.
 - ◉ Where the capital goods sent for job work are not received back by the principal within a period of 3 years of being sent out, it shall be deemed that such capital goods had been supplied by the principal to the job worker on the day when the said capital goods were sent out.

However, where the capital goods are sent directly to a job worker, the period of 3 years shall be counted from the date of receipt of capital goods by the job worker.

- ◉ However, period of 1 year / 3 years shall not apply to moulds and dies, jigs and fixtures, or tools sent out to a job worker for job work.

Conditions and restrictions in respect of inputs and capital goods sent to the job worker [Rule 45]

- ◉ The inputs, semi-finished goods or capital goods shall be sent to the job worker under the cover of a challan issued by the principal, including where such goods are sent directly to a job-worker, and where the goods are sent from one job worker to another job worker, the challan may be issued either by the principal or the job worker sending the goods to another job worker.

The challan issued by the principal may be endorsed by the job worker, indicating therein the quantity and description of goods where the goods are sent by one job worker to another or are returned to the principal.

Further, the challan endorsed by the job worker may be further endorsed by another job worker, indicating therein the quantity and description of goods where the goods are sent by one job worker to another or are returned to the principal.

- ◉ The challan issued by the principal to the job worker shall contain the details specified in rule 55.
- ◉ The details of challans in respect of goods dispatched to a job worker or received from a job worker during the specified period shall be included in Form GST ITC-04 furnished for that period on or before the 25th day of the month succeeding the said period or within such further period as may be extended by the Commissioner by a notification in this behalf.

Any extension of the time limit notified by the Commissioner of State tax or the Commissioner of Union territory tax shall be deemed to be notified by the Commissioner.

“Specified period” shall mean -

- a. the period of 6 consecutive months commencing on the 1st day of April and the 1st day of October in respect of a principal whose aggregate turnover during the immediately preceding financial year exceeds ₹ 5 crore; and
 - b. a financial year in any other case
- ◉ Where the inputs or capital goods are not returned to the principal within the time stipulated in sec. 143, it shall be deemed that such inputs or capital goods had been supplied by the principal to the job worker on the day when the said inputs or capital goods were sent out and the said supply shall be declared in Form GSTR-1 and the principal shall be liable to pay the tax along with applicable interest.

For determining the value of an exempt supply as referred to in sec. 17(3):

- a. the value of land and building shall be taken as the same as adopted for the purpose of paying stamp duty; and
- b. the value of security shall be taken as 1% of the sale value of such security.

Input Service Distributor

Input Service Distributor (ISD) means an office of the supplier of goods or services or both which receives tax invoices towards receipt of input services and issues a prescribed document for the purposes of distributing the credit of central tax (CGST), State tax (SGST)/ Union territory tax (UTGST) or integrated tax (IGST) paid on the said services to a supplier of taxable goods or services or both having same PAN as that of the ISD.

It is important to note that the ISD mechanism is meant only for distributing the credit on common invoices pertaining to input services only and not goods (inputs or capital goods). Companies may have their head office at one place and units at other places which may be registered separately. The Head Office would be procuring certain services which would be for common utilization of all units across the country. The bills for such expenses would be raised on the Head Office. But the Head Office itself would not be providing any output supply so as to utilize the credit which gets accumulated on account of such input services.

Since the common expenditure is meant for the business of all units, it is but natural that the credit of input services in respect of such common invoices should be apportioned between all the consuming units. ISD mechanism enables such proportionate distribution of credit of input services amongst all the consuming units.

Let's take an example to understand this concept. The corporate office of ABC Ltd., is at Bangalore, with its business locations of selling and servicing of goods at Bangalore, Chennai, Mumbai and Kolkata. Software license and maintenance is used at all the locations, but invoice for these services (indicating CGST and SGST)

are received at Corporate Office. Since the software is used at all the four locations, the input tax credit of entire services cannot be claimed at Bangalore. The same has to be distributed to all the four locations. For that reason, the Bangalore Corporate office has to act as ISD to distribute the credit. If the corporate office of ABC Ltd, an ISD situated in Bangalore receives invoices indicating ₹ 4 lakh of Central tax, ₹ 4 lakhs of State tax and ₹ 7 lakh of integrated tax, it can distribute central tax, State tax as well as integrated tax of ₹ 15 lakh as credit of integrated tax amongst its locations at Bangalore, Chennai, Mumbai and Kolkata through an ISD invoice containing the amount of credit distributed.

The credit has to be distributed only to the unit to which the supply is directly attributable to. If input services are attributable to more than one recipient of credit, the distribution shall be in the pro-rata basis of turnover in the State/Union Territory.

For example, if an ISD has 4 units across the country. However, if a particular input service pertains exclusively to only one unit and the bill is raised in the name of ISD, the ISD can distribute the credit only to that unit and not to other units. If the input services are common for all units, then it will be distributed according to the ratio of turnover of all the units.

Manner of distribution of credit by Input Service Distributor [Sec. 20]

- ◉ The Input Service Distributor shall distribute the credit of central tax as central tax or integrated tax and integrated tax as integrated tax or central tax, by way of issue of a document containing the amount of input tax credit being distributed in such manner as may be prescribed.
- ◉ The Input Service Distributor may distribute the credit subject to the following conditions:
 - the credit can be distributed to the recipients of credit against a document containing such details as may be prescribed;
 - the amount of the credit distributed shall not exceed the amount of credit available for distribution;
 - the credit of tax paid on input services attributable to a recipient of credit shall be distributed only to that recipient;
 - the credit of tax paid on input services attributable to more than one recipient of credit shall be distributed amongst such recipients to whom the input service is attributable and such distribution shall be pro rata on the basis of the turnover in a State or turnover in a Union territory of such recipient, during the relevant period, to the aggregate of the turnover of all such recipients to whom such input service is attributable and which are operational in the current year, during the said relevant period;
 - the credit of tax paid on input services attributable to all recipients of credit shall be distributed amongst such recipients and such distribution shall be pro rata on the basis of the turnover in a State or turnover in a Union territory of such recipient, during the relevant period, to the aggregate of the turnover of all recipients and which are operational in the current year, during the said relevant period.

For the purposes of this section,-

- ◉ The “relevant period” shall be:
 - i. if the recipients of credit have turnover in their States or Union territories in the financial year preceding the year during which credit is to be distributed, the said financial year; or
 - ii. if some or all recipients of the credit do not have any turnover in their States or Union territories in the

financial year preceding the year during which the credit is to be distributed, the last quarter for which details of such turnover of all the recipients are available, previous to the month during which credit is to be distributed;

- The expression “recipient of credit” means the supplier of goods or services or both having the same Permanent Account Number as that of the Input Service Distributor;
- The term “turnover”, in relation to any registered person engaged in the supply of taxable goods as well as goods not taxable under this Act, means the value of turnover, reduced by the amount of any duty or tax levied under entries 84 and 92A of List I of the Seventh Schedule to the Constitution and entries 51 and 54 of List II of the said Schedule.

Example 37:

M/s XYZ Ltd, having its head Office at Mumbai, is registered as ISD. It has three units in different states namely ‘Mumbai’, ‘Jabalpur’ and ‘Delhi’ which are operational in the current year. M/s XYZ Ltd furnishes the following information for the month of May, 2023 & asks for permission to distribute the below input tax credit to various units.

- i. CGST paid on services used only for Mumbai Unit: ₹ 3,00,000/-
- ii. IGST, CGST & SGST paid on services used for all units: ₹ 12,00,000/-

Total Turnover of the units are as follows :

Unit	Turnover (₹)
Total Turnover of three units	₹ 10, 00, 00,000
Turnover of Mumbai unit	₹ 5, 00, 00,000 (50%)
Turnover of Jabalpur unit	₹ 3, 00, 00,000 (30%)
Turnover of Delhi unit	₹ 2, 00, 00,000 (20%)

Computation of Input Tax Credit Distributed to various units is as follows :

Particulars	Credit distributed to all units			
	Total credit available	Mumbai	Jabalpur	Delhi
CGST paid on services used only for Mumbai Unit	3,00,000	3,00,000	-	-
IGST, CGST & SGST paid on services used in all units [Distribution on pro rata basis to all the units which are operational in the current year]	12,00,000	6,00,000	3,60,000	2,40,000
Total	15,00,000	9,00,000	3,60,000	2,40,000

Credit distributed pro rata basis on the basis of the turnover of all the units is as under:

- a) Unit Mumbai: $(₹ 5,00,00,000 / ₹ 10,00,00,000) \times ₹ 12,00,000 = ₹ 6,00,000$
- b) Unit Jabalpur: $(₹ 3,00,00,000 / ₹ 10,00,00,000) \times ₹ 12,00,000 = ₹ 3,60,000$
- c) Unit Delhi: $(₹ 2,00,00,000 / ₹ 10,00,00,000) \times ₹ 12,00,000 = ₹ 2,40,000$

Manner of recovery of credit distributed in excess [Sec. 21]

Where the Input Service Distributor distributes the credit in contravention of the provisions contained in sec. 20 resulting in excess distribution of credit to one or more recipients of credit, the excess credit so distributed shall be recovered from such recipients along with interest, and the provisions of sec. 73 or 74, as the case may be, shall, mutatis mutandis, apply for determination of amount to be recovered.

Availment of input tax credit [Sec. 41]

1. Every registered person shall, subject to such conditions and restrictions as may be prescribed, be entitled to avail the credit of eligible input tax, as self-assessed, in his return and such amount shall be credited to his electronic credit ledger.
2. The credit of input tax availed by a registered person in respect of such supplies of goods or services or both, the tax payable whereon has not been paid by the supplier, shall be reversed along with applicable interest, by the said person in such manner as may be prescribed.

However, where the said supplier makes payment of the tax payable in respect of the aforesaid supplies, the said registered person may re-avail the amount of credit reversed by him in such manner as may be prescribed.

Illustration 32 :

BA Pvt. Ltd. purchased machinery worth ₹ 10,00,000 (excluding GST) on 20-07-2023 on which it paid GST @ 18% and availed the ITC. On 05-03-2024, it sold the machinery for ₹ 8,00,000 (excluding GST) to HA Pvt. Ltd. The GST rate on sale is 18%. What will be the course of action for BA Pvt. Ltd. to follow under CGST Act, 2017?

Solution:

Where capital goods or plant and machinery on which input tax credit (ITC) has been taken are supplied outward by a registered person, he must pay an amount that is higher of the following:

- ITC taken on such goods reduced by 5% per quarter of a year or part thereof from the date of issue of invoice for such goods; or
- tax on transaction value.

Accordingly, the amount payable on supply of machinery by BA Pvt. Ltd. shall be computed as follows :

Particulars	₹
ITC taken on acquisition of such machine [₹ 10,00,000 × 18%]	1,80,000
Time gap in quarters between date of purchase and outward supply of such machine	3 quarters
Total reduction in tax paid [5% for each quarter × 3 quarter]	15%
Amount of reduction in tax paid [₹ 1,80,000 × 15%]	27,000
Amount of GST to be Paid [being higher of the following]	
a. ₹ 1,80,000 – ₹ 27,000	1,53,000
b. GST on transaction value [₹ 8,00,000 × 18%]	1,44,000
Hence, liability of GST is	1,53,000

M/s. VMA, a registered taxable person under regular scheme provides following information in respect of supplies made by it during the month of April, 2023 :

	₹
Inter-state supply of goods	2,00,000
Intra-state supply of 1000 packets of detergent @ ₹ 400 each alongwith a plastic bucket worth ₹ 100 each with each packet, being a mixed supply. (Rate of GST on detergent is 18% and on plastic bucket is 28%)	
Supply of online educational journals to M/s XYZ, a private coaching centre providing tuitions to students of Class X-XII, being intra-state supply	1,00,000
M/s. VMA has also received the following inward supplies:	
Inter-state supply of goods (out of which invoice for goods worth ₹ 40,000 is missing and no other tax paying document is available)	1,40,000
Repairing of bus with seating capacity of 20 passengers used to transport its employees from their residence, being intra-state supply	1,00,000
Details of opening balances of ITC as on 1-4-2023 are as follows:	
- CGST	10,000
- SGST	10,000
- IGST	80,000

Following additional information is provided :

- Rate of GST in respect of all inward and outward supplies except item (ii) above is 18%. i.e. CGST and SGST @ 9% and IGST @ 18%.
- All figures mentioned above are exclusive of taxes.
- All the conditions for availing the ITC have been fulfilled except specifically given and M/s. VMA is not eligible for any threshold exemption.

Compute the minimum net GST payable in cash by M/s. VMA for the month of April, 2023.

Solution:

Computation of available ITC :

Particulars	IGST (₹)	CGST (₹)	SGST (₹)
Opening balance	80,000	10,000	10,000
ITC on Inter-state purchase of goods (excluding missing invoice) [₹ 1,00,000 x 18%]	18,000	-	-
ITC on Repairing of bus [₹ 1,00,000 × 9%]	-	9,000	9,000
Available ITC	98,000	19,000	19,000

Computation of tax payable on outward supplies :

Sl. No.	Particulars	Taxable Value	CGST @ 9%	SGST @ 9%	IGST @ 18%
---------	-------------	---------------	-----------	-----------	------------

(i)	Inter-State supply of goods	2,00,000	-	-	
(ii)	Intra-state mixed supply	4,00,000	56,000	56,000	-
(iii)	Intra-State supply of services	1,00,000	9,000	9,000	-
	Total		65,000	65,000	36,000

Computation of GST payable in cash :

Particulars	CGST @ 9%	SGST @ 9%	IGST @ 18%
Total GST payable	65,000	65,000	36,000
Less : ITC-IGST	(31,000)	(31,000)	(36,000)
Less : ITC-CGST / SGST	(19,000)	(19,000)	-
GST payable in cash	15,000	15,000	-

Note: Balance credit of IGST may be first utilized in the discharging CGST of ₹ 46,000. In that case, SGST of ₹ 30,000 would be payable.

Example 38 :

From the following details, show the utilization of ITC in an optimum way :

Nature of Tax	Tax liability	ITC available
IGST	100	150 (a)
CGST	100	175 (b)
SGST	100	150 (c)

Solution:

Statement showing utilization of ITC :

Nature of tax	Tax liability	Option 1	Option 2	Option 3 (Wrong way)
		Paid through ITC	Paid through ITC	Paid through ITC
IGST	100	100 (a)	100 (a)	100 (a)
CGST	100	50 (a)	100 (b)	100 (b)
		50 (b)		
SGST	100	100 (c)	50 (a)	100 (c)
			50 (c)	

- Option 1, ITC on account of CGST ₹ 125 and SGST ₹ 50 shall be carried forward

Adjustment of ITC of IGST	13,000	2,000	11,000
Balance Payable	-	-	3,000

It is to be noted that before adjusting ITC on account of CGST/SGST, ITC of IGST should be exhausted.

Illustration 35 :

Kunal Ltd., a registered supplier of Kanpur is a manufacturer of heavy machines. Its outward supplies (exclusive of GST) for the month of January, 2024 are as follows :

Sl.No.	Particulars	₹
(i)	Inter-State	85,00,000
(ii)	Intra-State	15,00,000

Applicable rate of CGST, SGST and IGST on outward supply are 9%, 9% and 18% respectively. Details of GST paid on inward supplies during the month of January, 2023 are as follows :

Sl.No.	Particulars	CGST paid (₹)	SGST paid (₹)
(i)	Raw material A (of which 70% of inputs procured were used and 30% were in stock at the end of the January, 2023)	80,000	80,000

Sl.No.	Particulars	CGST paid (₹)	SGST paid (₹)
(ii)	Raw material B (of which 90% material received in factory and remaining material completely damaged due to a road accident on the way to factory. There was no negligence on the part of the Kunal Ltd.)	50,000	50,000
(iii)	Construction of pipelines laid outside the factory premises	40,000	40,000
(iv)	Insurance charges paid for trucks used for transportation of goods	55,000	55,000

Additional Information :

- There is no opening balance of any input tax credit and all the conditions necessary for availing the input tax credit (ITC) have been fulfilled.
- Details of GST paid on inward supplies are available in GSTR-2B except for item (i) i.e. Raw Material A, for which supplier has not filed its GSTR-1 for the month of January 2023, hence corresponding input tax credit (ITC) is not reflecting in GSTR-2B of Kunal Ltd. in January, 2023.

Compute the following :

- Amount of eligible input tax credit (ITC) available for the month of January, 2024.
- Minimum net GST payable in cash, for the month of January, 2023 after using available input tax credit.

Solution:

Computation of eligible ITC :

Particulars	CGST (₹)	SGST (₹)
Raw material A (as not reflected in GSTR-2B)	-	-
Raw material B (as 90% material is received)	45,000	45,000
Construction of pipelines laid outside the factory premises (Block Credit)	-	-
Insurance charges paid for trucks used for transportation of goods	55,000	55,000
Eligible ITC	1,00,000	1,00,000

Computation of tax payable on outward supplies :

Sl.No.	Particulars	Taxable Value	CGST @ 9%	SGST @ 9%	IGST @ 18%
(i)	Inter-State	85,00,000	-	-	15,30,000
(ii)	Intra-State	15,00,000	1,35,000	1,35,000	-
Total			1,35,000	1,35,000	15,30,000

Computation of GST payable in cash :

Particulars	CGST @ 9%	SGST @ 9%	IGST @ 18%
Total GST payable	1,35,000	1,35,000	15,30,000
<i>Less : ITC</i>	1,00,000	1,00,000	-
GST payable in cash	35,000	35,000	15,30,000

In any tax system registration is the most fundamental requirement for identification of tax payers ensuring tax compliance in the economy. Registration of any business entity under the GST Law implies obtaining a unique number from the concerned tax authorities for the purpose of collecting tax on behalf of the government and to avail Input tax credit for the taxes on his inward supplies. Without registration, a person can neither collect tax from his customers nor claim any input tax credit of tax paid by him.

Need and advantages of registration

Registration will confer the following advantages to a taxpayer:

- He is legally recognized as supplier of goods or services.
- He is legally authorized to collect tax from his customers and pass on the credit of the taxes paid on the goods or services supplied to the purchasers / recipients.
- He can claim input tax credit of taxes paid and can utilize the same for payment of taxes due on supply of goods or services.
- Seamless flow of Input Tax Credit from suppliers to recipients at the national level.

Nature of Registration

The registration in GST is PAN based and State / UT specific. Supplier has to register in each of such State or Union territory from where he effects supply. In GST registration, the supplier is allotted a 15-digit GST identification number called “GSTIN” and a certificate of registration incorporating therein this GSTIN is made available to the applicant on the GSTN common portal.

- First 2 digits of the GSTIN is the State code,
- Next 10 digits are the PAN of the legal entity,
- Next 2 digits are for entity code, and
- Last digit is checksum number.

Example of GSTIN: 19AAICM1234K1Z2 or 06AAICM1234K1ZT

19	AAICM1234K	1	Z	2
State Code	Income tax PAN	Entity number of the same PAN holder in the state	By default	Checksum digit

Registration under GST is not tax specific which means that there is single registration for all the taxes i.e. CGST, SGST/UTGST, IGST and cesses.

Generally, a given PAN based legal entity would have one GSTIN per State, that means a business entity having its branches in multiple States will have to take separate State wise registration for the branches in different States. But within a State an entity with different branches would have single registration wherein it can declare one place as principal place of business and other branches as additional place of business. A supplier is not liable to obtain registration in those State from where he makes an exempt or non-taxable supply.

5.6.1 Persons liable for registration [Sec. 22]

Every supplier shall be liable to be registered under this Act in the State or Union territory, other than special category States, from where he makes a taxable supply of goods or services or both, if his aggregate turnover in a financial year exceeds specified threshold limits

However, where such person makes taxable supplies of goods or services or both from any of the special category States, he shall be liable to be registered if his aggregate turnover in a financial year exceeds ₹ 10 lakhs.

Taxpoint :

Such person shall undergo the authentication of Aadhaar number within a period of 30 days of the allotment of the Aadhaar number.

Separate registration for multiple places of business within a State or a Union territory [Rule 11]

1. Any person having multiple places of business within a State or a Union territory, requiring a separate registration for any such place of business u/s 25(2) shall be granted separate registration in respect of each such place of business subject to the following conditions:
 - a. such person has more than one place of business as defined in sec. 2(85);
 - b. such person shall not pay tax u/s 10 for any of his places of business if he is paying tax u/s 9 for any other place of business;
 - c. all separately registered places of business of such person shall pay tax under the Act on supply of goods or services or both made to another registered place of business of such person and issue a tax invoice or a bill of supply, as the case maybe, for such supply.

For the purposes of clause (b), it is hereby clarified that where any place of business of a registered person that has been granted a separate registration becomes ineligible to pay tax u/s 10, all other registered places of business of the said person shall become ineligible to pay tax under the said section.

2. A registered person opting to obtain separate registration for a place of business shall submit a separate application in FORM GST REG-01 in respect of such place of business.
3. The provisions of rule 9 and rule 10 relating to the verification and the grant of registration shall, mutatis mutandis, apply to an application submitted under this rule.

5.6.6 Deemed registration [Sec. 26]

- ⊙ The grant of registration or the Unique Identity Number under the SGST Act or the UTGST Act shall be deemed to be a grant of registration or the Unique Identity Number under this Act subject to the condition that the application for registration or the Unique Identity Number has not been rejected under this Act within the time specified in sec. 25(10).
- ⊙ Similarly, any rejection of application for registration or the Unique Identity Number under the SGST Act or the UTGST Act shall be deemed to be a rejection of application for registration under this Act.

5.6.7 Special provisions relating to casual taxable person and non-resident taxable person [Sec. 27]

1. The certificate of registration issued to a casual taxable person or a non-resident taxable person shall be valid for
 - the period specified in the application for registration; or
 - 90 days from the effective date of registration,whichever is earlier.

Taxpoint :

- Such person shall make taxable supplies only after the issuance of the certificate of registration.
 - The proper officer may, on sufficient cause being shown by the said taxable person, extend the said period of 90 days by a further period not exceeding 90 days.
2. A casual taxable person or a non-resident taxable person shall, at the time of submission of application for registration, make an advance deposit of tax in an amount equivalent to the estimated tax liability of such person for the period for which the registration is sought.

Where any extension of time is sought, such taxable person shall deposit an additional amount of tax equivalent to the estimated tax liability of such person for the period for which the extension is sought.

Taxpoint :

A person applying for registration as a casual taxable person shall be given a temporary reference number by the common portal for making advance deposit of tax and the acknowledgement shall be issued electronically only after the said deposit.

3. The deposited amount shall be credited to the electronic cash ledger of such person and shall be utilised in the manner provided u/s 49.

A casual taxable person has to apply for registration at least 5 days prior to the commencement of business. There is no special form to register as a casual taxable person. The normal FORM GST REG-01 which is used by other taxable persons can be used for obtaining registration by casual taxable person also. A casual taxable person, before applying for registration, should declare his Permanent Account Number, mobile number, e-mail address, State or Union territory in Part A of FORM GST REG-01 on the common portal, either directly or through a Facilitation Centre notified by the Commissioner.

The Permanent Account Number shall be validated online by the common portal from the database maintained by the Central Board of Direct Taxes. The mobile number declared shall be verified through a one-time password sent to the said mobile number; and the e-mail address shall be verified through a separate one-time password sent to the said e-mail address. On successful verification of the Permanent Account Number, mobile number and e-mail address, a temporary reference number shall be generated and communicated to the applicant on the said mobile number and e-mail address.

5.6.8 Cancellation or suspension of registration [Sec. 29]

1. The proper officer may, either on his **own motion or on an application** filed by the registered person or by his legal heirs, in case of death of such person, cancel the registration, in such manner and within such period as may be prescribed, having regard to the circumstances where:
- a. the business has been discontinued, transferred fully for any reason including death of the proprietor, amalgamated with other legal entity, demerged or otherwise disposed of; or
 - b. there is any change in the constitution of the business; or
 - c. the taxable person is no longer liable to be registered u/s 22 or 24 or intends to optout of the registration voluntarily made u/s 25(3)

During pendency of the proceedings relating to cancellation of registration filed by the registered person, the registration may be suspended for such period and in such manner as may be prescribed.

2. The proper officer may cancel the registration of a person from such date, including any retrospective date, as he may deem fit, where:

- a. a registered person has contravened such provisions of the Act or the rules made thereunder as may be prescribed; or
- b. a person paying tax u/s 10 has not furnished the return for a financial year beyond 3 months from the due date of furnishing the said return; or

- d. any person who has taken voluntary registration u/s 25(3) has not commenced business within 6 months from the date of registration; or
- e. registration has been obtained by means of fraud, wilful misstatement or suppression of facts

However, the proper officer shall not cancel the registration without giving the person an opportunity of being heard.

During pendency of the proceedings relating to cancellation of registration, the proper officer may suspend the registration for such period and in such manner as may be prescribed.

3. The cancellation of registration shall not affect the liability of the person to pay tax and other dues under this Act or to discharge any obligation under this Act or the rules made thereunder for any period prior to the date of cancellation whether or not such tax and other dues are determined before or after the date of cancellation.
4. The cancellation of registration under the SGST Act or the UTGST Act, as the case may be, shall be deemed to be a cancellation of registration under this Act.
5. Every registered person whose registration is cancelled shall pay an amount, by way of debit in the electronic credit ledger or electronic cash ledger, equivalent to the
 - credit of input tax in respect of inputs held in stock and inputs contained in semi-finished or finished goods held in stock or capital goods or plant and machinery on the day immediately preceding the date of such cancellation or
 - the output tax payable on such goods,

whichever is higher, calculated in such manner as may be prescribed.

In case of capital goods or plant and machinery, the taxable person shall pay an amount equal to the input tax credit taken on the said capital goods or plant and machinery, reduced by such % points as may be prescribed or the tax on the transaction value of such capital goods or plant and machinery u/s 15, whichever is higher.

6. The aforesaid payable amount shall be calculated in such manner as may be prescribed.

²² 6 months

²³ Rule 86B: The registered person shall not use the amount available in electronic credit ledger to discharge his liability towards output tax in excess of 99% of such tax liability, in cases where the value of taxable supply other than exempt supply and zero-rated supply, in a month exceeds ₹50 lakhs

Cancellation of registration [Rule 22]

1. Where the proper officer has reasons to believe that the registration of a person is liable to be cancelled u/s 29, he shall issue a notice to such person in Form GST REG-17, requiring him to show cause, within a period of 7 working days from the date of the service of such notice, as to why his registration shall not be cancelled.
2. The reply to the show cause notice shall be furnished in Form REG-18 within the said period.
3. Where a person who has submitted an application for cancellation of his registration is no longer liable to be registered or his registration is liable to be cancelled, the proper officer shall issue an order in Form GST REG-19, within a period of 30 days from the date of application submitted under rule 20 or, as the case may be, the date of the reply to the show cause issued under this rule or under rule 21A(2A) cancel the registration, with effect from a date to be determined by him and notify the taxable person, directing him to pay arrears of any tax, interest or penalty including the amount liable to be paid u/s 29(5).
4. Where the reply furnished in response to the notice under this rule or in response to the notice issued under rule 21(2A) is found to be satisfactory, the proper officer shall drop the proceedings and pass an order in Form GST REG -20

Where the person instead of replying to the notice served for contravention of the provisions contained in sec. 29(2), furnishes all the pending returns and makes full payment of the tax dues along with applicable interest and late fee, the proper officer shall drop the proceedings and pass an order in Form GST-REG 20]

5. The provisions shall, mutatis mutandis, apply to the legal heirs of a deceased proprietor, as if the application had been submitted by the proprietor himself.

5.6.9 Revocation of cancellation of registration [Sec. 30]

1. Subject to such conditions as may be prescribed, any registered person, whose registration is cancelled by the proper officer on his own motion, may apply to such officer for revocation of cancellation of the registration in the prescribed manner within 30 days from the date of service of the cancellation order. Such period may, on sufficient cause being shown, and for reasons to be recorded in writing, be extended :
 - a. by the Additional Commissioner or the Joint Commissioner, as the case may be, for a period not exceeding 30 days;
 - b. by the Commissioner, for a further period not exceeding 30 days, beyond the period extended by the aforesaid authority.
2. The proper officer may, in such manner and within such period as may be prescribed, by order, either revoke cancellation of the registration or reject the application.

The application for revocation of cancellation of registration shall not be rejected unless the applicant has been given an opportunity of being heard.
3. The revocation of cancellation of registration under the SGST Act or the UTGST Act, as the case may be, shall be deemed to be a revocation of cancellation of registration under this Act.

Revocation of cancellation of registration [Rule 23]

1. A registered person, whose registration is cancelled by the proper officer on his own motion, may subject to the provisions of rule 10B submit an application for revocation of cancellation of registration, in Form GST REG-21, to such proper officer, within a period of 30 days (w.e.f., 01-10-2023, 90 days) from the date of the service of the order of cancellation of registration or within such time period as extended (w.e.f. 01-10-2023, not exceeding 180 days) by the Additional Commissioner or the Joint Commissioner or the Commissioner, as the case may be, at the common portal, either directly or through a Facilitation Centre notified by the Commissioner

No application for revocation shall be filed, if the registration has been cancelled for the failure of the registered person to furnish returns, unless such returns are furnished and any amount due as tax, in terms of such returns, has been paid along with any amount payable towards interest, penalty and late fee in respect of the said returns:

All returns due for the period from the date of the order of cancellation of registration till the date of the order of revocation of cancellation of registration shall be furnished by the said person within a period of 30 days from the date of order of revocation of cancellation of registration.

Where the registration has been cancelled with retrospective effect, the registered person shall furnish all returns relating to period from the effective date of cancellation of registration till the date of order of revocation of cancellation of registration within a period of 30 days from the date of order of revocation of cancellation of registration.

2. Tax Invoice – Electronic Way Bill

5.7

Generally speaking, an invoice is a commercial instrument issued by a seller to a buyer. It identifies both the trading parties and lists, describes, and quantifies the items sold, shows the date of shipment and mode of transport, prices and discounts, if any, and delivery and payment terms. In certain cases, (especially when it is signed by the seller or seller's agent), an invoice serves as a demand for payment and becomes a document of title when paid in full. An invoice does not bring into existence an agreement but merely records the terms of a pre-existing agreement (oral or written). An invoice can be understood as a document that is meant to serve a particular purpose.

Under GST a tax invoice is an important document.

- It not only evidences supply of goods or services, but is also an essential document for the recipient to avail Input Tax Credit (ITC). A registered person cannot avail input tax credit unless he is in possession of a tax invoice or a debit note.
- GST is chargeable at the time of supply. Invoice is an important indicator of the time of supply. Broadly speaking, the time of supply of goods or services is the date of issuance of invoice or receipt of payment whichever is earlier. However, a special procedure for payment of tax has been prescribed for registered persons (other than composition dealers) supplying goods. Such category of persons (suppliers of goods other than composition dealers) need to pay GST only at the time of issue of invoice irrespective of when they receive payment.

Suffice it to say, the tax invoice is the primary document evidencing the supply and vital for availing input tax credit.

The GST Law requires that an invoice – tax invoice or bill of supply – is issued on the occurrence of certain event, being a supply, within the prescribed timelines. Therefore, an invoice, among other documents is required to be issued for every form of supply such as sale, transfer, barter, exchange, license, rental, lease or disposal. This chapter provides an understanding of the various documents required to be issued under the GST law, timelines to issue such document and the contents of every such document. It is to be noted that GST Law does not prescribe any specific format of invoice but mandates that certain field or information should be incorporated in the invoice.

Tax Invoice [Sec. 31(1) / (2)]

Time of issue of tax invoice for:

A. Supply of Goods

1. A registered person supplying taxable goods shall issue a tax invoice, **before or at the time of** :

Where the supply involves movement of goods	Removal of goods for supply to the recipient
Where the supply does not involve movement of goods	Delivery of goods or making available thereof to the recipient

- In case of **continuous supply of goods**, where successive statements of accounts or successive payments are involved, the invoice shall be issued before or at the time each such statement is issued or, as the case may be, each such payment is received [Sec. 31(4)]
- Where the goods being **sent or taken on approval** for sale or return are removed before the supply takes place, the invoice shall be issued before or at the time of supply or **6 months** from the date of removal, whichever is earlier [Sec. 31(7)]

Taxpoint : The Government may, on the recommendations of the Council, by notification, specify the categories of goods or supplies in respect of which a tax invoice shall be issued, within such time and in such manner as may be prescribed.

5.7.1 Consolidated Invoice [Sec. 31(3)(b) and Proviso to Rule 46]

A registered person may not issue a tax invoice if the value of the goods or services or both supplied is less than ₹ 200. However, such registered person [other than the supplier engaged in making supply of services by way of admission to exhibition of cinematograph films in multiplex screens,] shall issue a consolidated tax invoice for such supplies at the close of each day in respect of all such supplies provided:

- a. the recipient is not a registered person; and
- b. the recipient does not require such invoice

5.7.2 Revised Invoice after Registration [Sec. 31(3)(a) r.w.r. 53(2)]

A registered person may, within 1 month from the date of issuance of certificate of registration and in such manner as may be prescribed, issue a revised invoice against the invoice already issued during the period beginning with the effective date of registration till the date of issuance of certificate of registration to him.

Rule 53(2)

- ⊙ Every registered person who has been granted registration with effect from a date earlier than the date of issuance of certificate of registration to him, may issue revised tax invoices in respect of taxable supplies effected during the period starting from the effective date of registration till the date of the issuance of the certificate of registration:
- ⊙ The registered person may issue a consolidated revised tax invoice in respect of all taxable supplies made to recipient who is not registered under the Act during such period.

- ⦿ However, in the case of inter-State supplies, where the value of a supply does not exceed ₹ 2,50,000, a consolidated revised invoice may be issued separately in respect of all the recipients located in a State, who are not registered under the Act.

5.7.3 Bill of Supply [Sec. 31(3)(c)]

- ⦿ A registered person supplying **exempted** goods or services or both or paying tax under the provisions of sec. 10 (i.e., composition levy) shall issue, **instead of a tax invoice**, a bill of supply containing such particulars and in such manner as may be prescribed.
- ⦿ However, the registered person may not issue a bill of supply if the value of the goods or services or both supplied is less than ₹ 200 subject to such conditions and in such manner as may be prescribed.
- ⦿ Supplier under composition levy shall mention the words “**composition taxable person, not eligible to collect tax on supplies**” at the top of the bill of supply issued by him.
- ⦿ The registered supplier of service opting for paying tax at concessional rate under Notification No. 2/2019-CT(R) shall mention at the top of the bill of supply ‘**taxable person paying tax in terms of notification No.2/2019-Central Tax (Rate) dated 07.03.2019, not eligible to collect tax on supplies**’.

5.7.4 Receipt Voucher on receipt of advance [Sec. 31(3)(d)]

A registered person shall, on receipt of advance payment with respect to any supply of goods or services or both, issue a receipt voucher or any other document, containing such particulars as may be prescribed, evidencing receipt of such payment.

5.7.5 Refund Voucher [Sec. 31(3)(e)]

Where, on receipt of advance payment with respect to any supply of goods or services or both the registered person issues a receipt voucher, but subsequently no supply is made and no tax invoice is issued in pursuance thereof, the said registered person may issue to the person who had made the payment, a refund voucher against such payment.

5.7.6 Invoice in case of Reverse Charge [Sec. 31(3)(f) / (g)]

A registered person who is liable to pay tax u/s 9(3) or (4) shall issue an invoice in respect of goods or services or both received by him from the supplier who is not registered on the date of receipt of goods or services or both.

A registered person who is liable to pay tax u/s 9(3) or (4) shall issue a payment voucher at the time of making payment to the supplier.

5.7.7 Facility of digital payment to recipient [Sec. 31A]

The Government may, on the recommendations of the Council, prescribe a class of registered persons who shall provide prescribed modes of electronic payment to the recipient of supply of goods or services or both made by him and give option to such recipient to make payment accordingly, in such manner and subject to such conditions and restrictions, as may be prescribed.

5.7.8 Prohibition of unauthorised collection of tax [Sec. 32]

- ⦿ A person who is not a registered person shall not collect in respect of any supply of goods or services or both any amount by way of tax under this Act.
- ⦿ No registered person shall collect tax except in accordance with the provisions of this Act or the rules made thereunder.

5.7.9 Amount of tax to be indicated in tax invoice and other documents [Sec. 33]

Where any supply is made for a consideration, every person who is liable to pay tax for such supply shall **prominently** indicate in all documents relating to assessment, tax invoice and other like documents, the amount of tax which shall form part of the price at which such supply is made.

5.7.10 Credit and debit notes [Sec. 34]

Credit Note

- ◉ Where
 - one or more tax invoices have been issued for supply of any goods or services or both and the taxable value or tax charged in that tax invoice is found to exceed the taxable value or tax payable in respect of such supply, or
 - the goods supplied are returned by the recipient, or
 - goods or services or both supplied are found to be deficient,

the registered person, who has supplied such goods or services or both, may issue to the recipient one or more credit notes for supplies made in a financial year containing such particulars as may be prescribed.

5.7.17 E-Way Bill under GST

As per sec. 68, the person in charge of a conveyance carrying any consignment of goods of value exceeding such amount as may be specified to carry with him such documents and such devices as may be prescribed.

Where such conveyance is intercepted by the proper officer at any place, he may require the person in charge of the said conveyance to produce the documents prescribed and devices for verification, and the said person shall be liable to produce the documents and devices and also allow the inspection of goods.

Rules 138 to 138E of the CGST Rules lay down, in detail, the provisions relating to e-way bills.

E-way bill (Form GST EWB-01) is an electronic document (available to consignor (i.e. supplier) / consignee (i.e. recipient) / transporter) generated on the common portal evidencing movement of goods of consignment value more than ₹ 50,000/-.

It has two Components –

- (i) Part A comprising of details of GSTIN of supplier and - recipient, place of despatch (indicated by PIN code), place of delivery (indicating PIN Code also), document (Tax invoice, Bill of Supply, Delivery Challan or Bill of Entry) number and date, value of goods, HSN code, and reasons for transportation; and
- (ii) Part B –comprising of transport details - transport document number (Goods Receipt Number or Railway Receipt Number or Airway Bill Number or Bill of Lading Number) and Vehicle number for road.

A waybill is a receipt or a document issued by a carrier giving details and instructions relating to the shipment of a consignment of goods and the details include name of consignor, consignee, the point of origin of the consignment, its destination, and route. Electronic Way Bill (E-Way Bill) is basically a compliance mechanism wherein by way of a digital interface the person causing the movement of goods uploads the relevant information prior to the commencement of movement of goods and generates e-way bill on the GST portal. Rule 138 of the CGST Rules, 2017 provides for the e-way bill mechanism and in this context it is important to note that “information is to be furnished prior to the commencement of movement of goods” and “is to be issued whether the movement is in relation to a supply or for reasons other than supply”.

Benefits of e-way bill

Following benefits are expected from e-way bill mechanism

- a. Physical interface to pave way for digital interface resulting in elimination of state boundary check-posts.
- b. It will facilitate faster movement of goods.
- c. It will improve the turnaround time of trucks and help the logistics industry by increasing the average distances travelled, reducing the travel time as well as costs.
- d. The consignor needs to give details of consignee also. This would ensure more transparency among all stakeholders of the system.

When should e-way Bill be generated?

e-Way bill will be generated when there is a movement of goods in a vehicle / conveyance of value more than ₹ 50,000 (either each Invoice or in aggregate of all invoices in a vehicle / conveyance) :

- In relation to a ‘supply’
- For reasons other than a ‘supply’ (say a return)
- Due to inward ‘supply’ from an unregistered person

For this purpose, a supply may be either of the following :

- a. A supply made for a consideration (payment) in the course of business
- b. A supply made for a consideration (payment) which may not be in the course of business
- c. A supply without consideration (without payment)

In simpler terms, the term ‘supply’ usually means

- Sale – sale of goods and payment made
- Transfer – branch transfers for instance
- Barter/Exchange – where the payment is by goods instead of in money

Therefore, e-way bills must be generated on the common portal for all these types of movements. For following goods, the e-way bill needs to be generated mandatorily even if the value of the consignment of Goods is less than ₹ 50,000 :

- a. Inter-State movement of goods by the Principal to the Job-worker by Principal / registered job-worker
- b. Inter-State transport of Handicraft goods by a dealer exempted from GST registration

Who should Generate an e-way Bill?

Registered Person – e-way bill must be generated when there is a movement of goods of more than ₹ 50,000 in value to or from a registered person. A Registered person or the transporter may opt to generate and carry e-way bill even if the value of goods is less than ₹ 50,000.

Unregistered Persons – Unregistered persons are also required to generate e-way Bill. However, where a supply is made by an unregistered person to a registered person, the receiver will have to ensure all the compliances are met as if they were the supplier.

Transporter – Transporters carrying goods by road, air, rail, etc. also need to generate e-way Bill if the supplier has not generated an e-way Bill. Unregistered transporters will be issued Transporter ID on enrolling on the e-way bill portal after which e-way bills can be generated.

Generation of e-way bill

- Transport by road – Transporter ID or Vehicle number
- Transport by rail, air, or ship – Transporter ID, Transport document number, and date on the document

Bill To- Ship To/ Bill From-Dispatch From Model

Sometimes, the tax payer raises the bill to somebody and sends the consignment to somebody else as per the

business requirements. There is a provision in the e-way bill system to handle this situation, called as 'Bill to' and 'Ship to'.

Sometimes, the supplier prepares the bill from his business premises to consignee, but moves the consignment from some others' premises to the consignee as per the business requirements. This is known as 'Billing From' and 'Dispatching From'.

Cancellation of E-way bill

The e-way bill once generated cannot be deleted. However, it can be cancelled by the generator within 24 hours of generation. If a particular e-way bill has been verified by the proper officer, then it cannot be cancelled. Further, e-way bill can be cancelled if either goods are not transported or are not transported as per the details furnished in the e-way bill.

Taxpoint : The facility of generation, cancellation, updation and assignment of e-way bill shall be made available through SMS to the supplier, recipient and the transporter, as the case may be

Documents and devices to be carried by a person-in-charge of a conveyance [Rule 138A]

1. The person in charge of a conveyance shall carry-
 - a. the invoice or bill of supply or delivery challan, as the case may be; and
 - b. a copy of the e-waybill in physical form or the e-way bill number in electronic form or mapped to a Radio Frequency Identification Device embedded on to the conveyance in such manner as may be Notified by the Commissioner :

However, clause (b) is not applicable in case of movement of goods by rail or by air or vessel.

Further, in case of imported goods, the person in charge of a conveyance shall also carry a copy of the bill of entry filed by the importer of such goods and shall indicate the number and date of the bill of entry in Part A of Form GST EWB-01.

4. However, where circumstances so warrant, the Commissioner may, by Notification, require the person-in-charge of the conveyance to carry the following documents instead of the e-way bill
 - a. tax invoice or bill of supply or bill of entry; or
 - b. a delivery challan, where the goods are transported for reasons other than by way of supply.

Returns and Payment of Taxes

5.8

The basic features of the return mechanism in GST includes electronic filing of returns, uploading of invoice level information, auto-population of information relating to input tax credit from returns of supplier to that of recipient, invoice level information matching and auto-reversal of input tax credit in case of mismatch. The returns mechanism is designed to assist the taxpayer to file returns and avail ITC.

A return is required to be filed for the following purposes :

- a. Mode for transfer of information to tax administration;
- b. Compliance verification program of tax administration;
- c. Finalization of the tax liabilities of the taxpayer within stipulated period of limitation; to declare tax liability for a given period;
- d. Providing necessary inputs for taking policy decision;
- e. Management of audit and anti-evasion programs of tax administration.

Under GST, a regular taxpayer needs to furnish monthly returns and one annual return. There are separate returns for a taxpayer registered under the composition scheme, non-resident taxpayer, taxpayer registered as an Input Service Distributor, a person liable to deduct or collect the tax (TDS/TCS), a person granted Unique Identification Number. It is important to note that a taxpayer is not required to file all the types of returns. In fact, taxpayers are required to file returns depending on the activities they undertake. The GST Council has however recommended to ease the compliance requirements for small tax payers by allowing taxpayers to file details of outward supplies in Form GSTR-1 on a quarterly basis. All the returns are to be filed online. Returns can be filed using any of the following methods :

1. GSTN portal (www.gst.gov.in)
2. Offline utilities provided by GSTN
3. GST Suvidha Providers (GSPs).

The Commissioner may, for reasons to be recorded in writing, by notification, extend the time limit for furnishing the returns.

5.8.8 Rectification of mistake [Sec. 39(9)]

Where] any registered person after furnishing a return u/s 39 discovers any omission or incorrect particulars therein, other than as a result of scrutiny, audit, inspection or enforcement activity by the tax authorities, he shall rectify such omission or incorrect particulars in the return to be furnished for the month or quarter during which such omission or incorrect particulars in such form and manner as may be prescribed, subject to payment of interest under this Act.

Time-limit : No such rectification of any omission or incorrect particulars shall be allowed

- a. after the 30th day of November following the end of the financial year to which such details pertain, or
- b. the actual date of furnishing of relevant annual return,
 - whichever is earlier.

5.8.9 Restriction on Filing Return [Sec. 39(10)]

A registered person shall not be allowed to furnish a return for a tax period if the return for any of the previous tax periods or the details of outward supplies u/s 37(1) for the said tax period has not been furnished by him.

However, the Government may, on the recommendations of the Council, by notification, subject to such conditions and restrictions as may be specified therein, allow a registered person or a class of registered persons to furnish the return, even if he has not furnished the returns for one or more previous tax periods or has not furnished the details of outward supplies u/s 37(1) for the said tax period.

5.8.10 First return [Sec. 40]

Every registered person who has made outward supplies in the period between the date on which he became liable to registration till the date on which registration has been granted shall declare the same in the first return furnished by him after grant of registration.

5.8.11 Availment of input tax credit [Sec. 41]

Every registered person shall, subject to such conditions and restrictions as may be prescribed, be entitled to avail the credit of eligible input tax, as self-assessed, in his return and such amount shall be credited to his electronic credit ledger.

The credit of input tax availed by a registered person in respect of such supplies of goods or services or both, the tax payable whereon has not been paid by the supplier, shall be reversed along with applicable interest, by the said person in such manner as may be prescribed.

However, where the said supplier makes payment of the tax payable in respect of the aforesaid supplies, the said registered person may re-avail the amount of credit reversed by him in such manner as may be prescribed.

5.8.12 Final return [Sec. 45]

Every registered person who is required to furnish a return u/s 39(1) and whose registration has been cancelled shall furnish a final return within 3 months of the date of cancellation or date of order of cancellation, whichever is later, in Form GSTR-10 and manner as may be prescribed.

5.8.13 Quarterly Return, Monthly Payment of Taxes (QRMP) Scheme

Quarterly Return, Monthly Payment of Taxes (QRMP) Scheme is a scheme to simplify compliance for small taxpayers. Under this scheme, taxpayers having an aggregate turnover at PAN level up to ₹ 5 crore in the preceding financial year can opt for quarterly GSTR-1 (however, for first two months he can file IFF by 13th of the next month) and GSTR-3B filing. Payment can be made in the first 2 months by a simple challan in Form GST PMT-06. For the ease of taxpayers, system has assigned quarterly frequency to small taxpayers automatically.

Taxpoint :

- ⊙ In case the aggregate turnover exceeds ₹ 5 crores during any quarter in the current financial year, the registered person shall not be eligible for the Scheme from the next quarter.
- ⊙ The option to avail the QRMP Scheme is GSTIN wise. Therefore, some GSTINs for a PAN might be eligible for the QRMP Scheme, and the remaining GSTINs might not be able to opt for the Scheme.

Eligibility of QRMP Scheme

In Case of New Registration :

A newly registered taxpayer whose aggregate turnover is up to ₹ 5 crores can opt for the QRMP scheme based on the following conditions :

- ⊙ If the registration is granted on any date during the first month of a quarter, the registered person will be able to opt for the QRMP scheme from the beginning itself.
- ⊙ If the registration is granted on any of the dates during the latter two months of a quarter, then the registered person will be able to opt for the QRMP scheme only from the next quarter onwards.

In Case of Other :

A registered person can opt-in for any quarter from the first day of the second month of the preceding quarter to the last day of the first month of the quarter. However, there is no requirement to opt for the Scheme each quarter separately. Once the Scheme is exercised, it would be valid for future tax periods also.

Details of Outward Supply to be furnished through Invoice Furnishing Facility (IFF)

- ⊙ The registered persons opting for the Scheme would be required to furnish the details of an outward supply in Form GSTR-1 every quarter. However, the supplier has been given an option to furnish the details monthly. For this, the Invoice furnishing facility ('IFF'), which is optional in nature, has been introduced for furnishing the details of invoices of supply made to registered persons for the first two months of the quarter.
- ⊙ It is to be noted that the taxpayer can upload a maximum of ₹ 50 lakhs invoices in each of the two months of the quarter. The invoices may be uploaded at once or continuously in IFF from the 1st day of the month till the 13th day of the succeeding month.
- ⊙ The details uploaded in the IFF shall be duly reflected in the Form GSTR-2A and Form GSTR-2B of the concerned recipient.

Quarterly Filing of Form GSTR-3B

The registered persons opting for the QRMP Scheme would be required to furnish Form GSTR-3B, for each quarter, on or before the 22nd or 24th day of the month succeeding such a quarter for the category 1 States and

the category 2 States respectively or such notified date. Any excess payment may either be claimed as a refund after filing Form GSTR-3B of that quarter or may be used for any other purpose in subsequent quarters.

Monthly Payment of Tax

The registered person under the QRMP Scheme would be required to pay the tax due in each of the first 2 months of the quarter by depositing the due amount in Form GST PMT-06. The amount shall be deposited by the 25th day of next month.

The amount deposited by the registered person in the first two months shall be utilized for offsetting the liability furnished in that quarter's Form GSTR-3B.

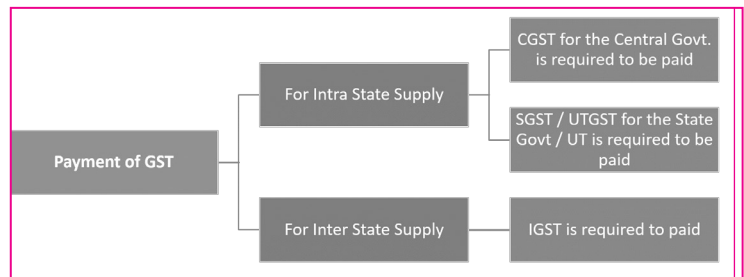

Discharge of liability in first two months of the quarter

In first two months of the quarter, payment of liability can be made by either of the following two methods :

- Fixed Sum Method: Portal will generate a pre-filled challan in Form GST PMT-06. The system generated pre-filled challan in this case is commonly also known as 35% challan.
- Self-Assessment Method: The actual tax due is to be paid through challan, in Form GST PMT-06, by considering the tax liability on inward and outward supplies and the input tax credit available for the period as per law.

Payment of Tax

In the GST regime, for any intra-state supply, taxes to be paid are the Central GST (CGST), going into the account of the Central Government) and the State/ UT GST (SGST, going into the account of the concerned State Government). For any inter-state supply, tax to be paid is Integrated GST (IGST) which will have components of both CGST and SGST.

In addition, certain categories of registered persons will be required to pay to the government account Tax Deducted at Source (TDS) and Tax Collected at Source (TCS). Further, Interest, Penalty, Fees and any other payment will also be required to be made.

Person liable to pay

Following persons are liable to pay GST to the Government:

- 0 The supplier of goods or services is liable to pay GST.
- 0 In specified cases like imports and other notified supplies, the liability may be cast on the recipient under the reverse charge mechanism.
- 0 In some notified cases of intra-state supply of services, the liability to pay GST may be cast on e-commerce operators through which such services are supplied.
- 0 Government Departments making payments to vendors above a specified limit [₹ 2.5 lakh under one contract as per sec. 51(1)(d)] are required to deduct tax (TDS) and

- 0 E-commerce operators are required to collect tax (TCS) on the net value [i.e. aggregate value of taxable supplies of goods and/or services but excluding such value of services on which the operator is made liable to pay GST u/s 9(5)] of supplies made through them and deposit it with the Government.

When does liability arise?

Liability to pay arises at the time of supply of Goods as explained in sec. 12 and at the time of supply of services as explained in sec. 13.

The time is generally the earliest of one of the three events, namely receiving payment, issuance of invoice or completion of supply. Different situations envisaged and different tax points have been explained in the aforesaid sections.

e-Ledger and Register

On the common portal (i.e. gst.gov.in) each registered taxpayer has:

- one electronic register called the Electronic liability register; and
- two electronic ledgers namely Electronic Cash Ledger and Electronic Credit Ledger.

These register and ledgers reflect the liability of the taxpayer and the cash and input tax credit balance available to settle such liability. This is a handy tool provided in the GST system wherein the registered taxpayer can have information about his liabilities, cash and credits at a single location which can be viewed by him from any place by simply logging into the common portal. In case of any discrepancy in his electronic liability ledger, electronic cash ledger or electronic credit ledger the registered person has to communicate the same to the jurisdictional officer, through the common portal in FORM GST PMT-04.

Taxpoint : Each ledger or register have separate sub ledgers for:

- (a) CGST
- (b) SGST
- (c) UTGST
- (d) IGST
- (e) Cess

Electronic cash ledger

Every deposit made by a person by internet banking or by using credit or debit cards or National Electronic Fund Transfer (NEFT) or Real Time Gross Settlement (RTGS) or by over the counter deposit on account of tax, interest, penalty, fee or any other amount is credited to the respective electronic cash ledger. The amount available in the electronic cash ledger may be used for making any payment towards tax, interest, penalty, fees or any other amount payable.

The electronic cash ledger is maintained in Form GST PMT-05 for each registered person, liable to pay tax, interest, penalty, late fee or any other amount, on the common portal for crediting the amount deposited and debiting the payment therefrom towards tax, interest, penalty, fee or any other amount. The payment required to be made by an unregistered person, can be made on the basis of a temporary identification number generated through the common portal.

A challan* in Form GST PMT-06 can be generated on the common portal in which the details of the amount to be deposited towards tax, interest, penalty, fees or any other amount is to be entered. This challan is valid for a period of 15 days.

The deposit can be made through any of the following modes, namely :

- a Internet Banking through authorised banks;
- b Credit card or Debit card through the authorised bank;
- c NEFT or RTGS from any bank; or
- d Over the Counter payment through authorised banks for deposits up to ₹ 10,000/- per challan per tax period, by cash, cheque or demand draft.

When the payment is made by way of NEFT or RTGS mode from any bank, the mandate form is generated along with the challan on the common portal and the same has to be submitted to the bank from where the payment is to be made. The mandate form remains valid for a period of 15 days from the date of generation of challan.

On successful credit of the amount to the concerned government account maintained in the authorised bank, a Challan Identification Number (CIN) is generated by the collecting bank and the same is indicated in the challan. On receipt of the CIN from the collecting bank, the said amount gets credited to the electronic cash ledger of the registered person on whose behalf the deposit has been made and the common portal makes available a receipt to this effect.

In case the bank account is debited but CIN has not been generated or generated but not communicated to the common portal, then the said person has to represent electronically in Form GST PMT-07 through the common portal to the bank or electronic gateway through which the deposit was initiated.

The amount deducted u/s 51 or collected u/s 52, as the case may be shall be credited to the electronic cash ledger of the registered person from whom the said amount was deducted or, as the case may be, collected.

The amount available in the electronic cash ledger may be used for making any payment towards tax, interest, penalty, fees or any other amount payable under the provisions of CGST/SGST/UTGST/ IGST Act(s).

Refund from cash ledger can only be claimed only when all the return related liabilities for that tax period have been discharged. A registered person, claiming refund of any balance in the electronic cash ledger can claim such refund u/s 54.

Electronic Credit Ledger

The electronic credit ledger is maintained in Form GST PMT-02 for each registered person on the common portal and every claim of input tax credit is to be credited to this ledger. The input tax credit as self-assessed in the return by a registered person is credited to his electronic credit ledger. The only way the electronic credit ledger can be credited is through filing of returns. The amount available in the electronic credit ledger can be used for making any payment towards output tax (only tax) under the CGST/SGTS/UTGST/IGST/Cess Acts.

In case a registered person has claimed refund of any unutilized amount from the electronic credit ledger in accordance with the provisions of sec. 54, the amount to the extent of the claim is debited in the said ledger.

If there's any discrepancy in electronic liability ledger, electronic cash ledger or electronic credit ledger, the registered person can communicate the same to the officer exercising jurisdiction in the matter, through the common portal in Form GST PMT-04.

* There is a single challan prescribed for all tax, fees, penalty, interest and other payments to be made under GST. Further, manual challan is not allowed. It is mandatory to generate challan on GST portal

If the refund so filed is rejected, either fully or partly, the amount debited to the extent of rejection, is re-credited to the electronic credit ledger by the proper officer by an order made in Form GST PMT-03.

Unless otherwise allowed, entries are not allowed to be made directly in the electronic credit ledger under any circumstance.

5.8.14 Payment of tax, interest, penalty and other amounts [Sec. 49]

Payment :

A. Electronic Cash Ledger [Sec. 49(1)]

-------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Taxpoint :

Summarized position is as under :

Input tax Credit on account of	Output liability on account of Integrated tax	Output liability on account of Central tax	Output liability on account of State tax / Union Territory tax
Integrated tax	(I)	(II) – In any order and in any proportion	
(III) Input tax Credit on account of Integrated tax to be completely exhausted mandatorily			
Central tax	(V)	(IV)	Not permitted
State tax / UTGST	(VII)	Not permitted	(VI)

Utilisation of input tax credit subject to certain conditions [Sec. 49A]

The input tax credit on account of central tax, State tax or Union territory tax shall be utilised towards payment of integrated tax, central tax, State tax or Union territory tax, as the case may be, only after the input tax credit available on account of integrated tax has first been utilised fully towards such payment.

Refund [Sec. 49(6)]

The balance in the electronic cash ledger or electronic credit ledger after payment of tax, interest, penalty, fee or any other amount payable under this Act or the rules made thereunder may be refunded in accordance with the provisions of sec. 54.

Recording of liability [Sec. 49(7)]

All liabilities of a taxable person under this Act shall be recorded and maintained in an electronic liability register in such manner as may be prescribed.

The electronic liability register is maintained in Form GST PMT-01 for each person liable to pay tax, interest, penalty, late fee or any other amount on the common portal and all amounts payable by him shall be debited to the said register.

Order of discharge of tax and other dues [Sec. 49(8)]

Every taxable person shall discharge his tax and other dues in the following order, namely :

- a. self-assessed tax, and other dues related to returns of previous tax periods;\
- b. self-assessed tax, and other dues related to the return of the current tax period;
- c. any other amount payable under this Act or the rules made thereunder including the demand determined u/s 73 or 74.

Other Points

- 0 Deemed Pass on of incidence of GST [Sec. 49(9)]: Every person who has paid the tax on goods or services or both under this Act shall, unless the contrary is proved by him, be deemed to have passed on the full incidence of such tax to the recipient of such goods or services or both.
- 0 Inter-Act Transfer [Sec. 49(10)]: A registered person may, on the common portal, transfer any amount of tax, interest, penalty, fee or any other amount available in the electronic cash ledger under the CGST Act, to the electronic cash ledger for, :
 - a. integrated tax, central tax, State tax, Union territory tax or cess; or
 - b. integrated tax or central tax of a distinct person as specified in sec. 25(4) or (5), in such form and manner and subject to such conditions and restrictions as may be prescribed and such transfer shall be deemed to be a refund from the electronic cash ledger under the CGST Act.

However, no such transfer under clause (b) shall be allowed if the said registered person has any unpaid liability in his electronic liability register.

Where any amount has been transferred to the electronic cash ledger under the CGST Act, the same shall be deemed to be deposited in the said ledger – Sec. 49(11)

- 0 Usage of Cash Ledger [Sec. 49(12)]: Notwithstanding anything contained in this Act, the Government may, on the recommendations of the Council, subject to such conditions and restrictions, specify such maximum proportion of output tax liability under this Act or under the Integrated Goods and Services Tax Act, 2017 which may be discharged through the electronic credit ledger by a registered person or a class of registered persons, as may be prescribed.

Restrictions on use of amount available in electronic credit ledger [Rule 86B]

Notwithstanding anything contained in these rules, the registered person shall not use the amount available in electronic credit ledger to discharge his liability towards output tax in excess of 99% of such tax liability, in cases where the value of taxable supply other than exempt supply and zero-rated supply, in a month exceeds ₹ 50 lakhs.

The said restriction shall not apply where -

- a. the said person or the proprietor or karta or the managing director or any of its two partners, whole-time Directors, Members of Managing Committee of Associations or Board of Trustees, as the case may be, have paid more than ₹ 1 lakh as income tax under the Income-tax Act, 1961 in each of the last two financial years for which the time limit to file return of income u/s 139(1) of the said Act has expired; or
- b. the registered person has received a refund amount of more than ₹ 1 lakh in the preceding financial year on account of unutilised input tax credit under first proviso of sec. 54(3)(i); or
- c. the registered person has received a refund amount of more than ₹ 1 lakh in the preceding financial year on account of unutilised input tax credit under first proviso of sec. 54(3)(ii); or
- d. the registered person has discharged his liability towards output tax through the electronic cash ledger for an amount which is in excess of 1% of the total output tax liability, applied cumulatively, upto the said month in the current financial year; or
- e. the registered person is -
 - i. Government Department; or
 - ii. a Public Sector Undertaking; or
 - iii. a local authority; or
 - iv. a statutory body:

The Commissioner or an officer authorised by him in this behalf may remove the said restriction after such verifications and such safeguards as he may deem fit.

Interest on delayed payment of tax paid through electronic cash ledger [Sec. 50]

Every person who is liable to pay tax in accordance with the provisions of this Act or the rules made thereunder, but fails to pay the tax or any part thereof to the Government within the period prescribed, shall for the period for which the tax or any part thereof remains unpaid, pay, on his own, interest at such rate, not exceeding 18% (present rate), as may be notified by the Government on the recommendations of the Council.

Taxpoint :

- ⦿ In general, interest is payable on that portion of the tax that is paid by **debiting the electronic cash ledger**. However, in case of proceeding u/s 73 and 74, this relaxation is not available.
- ⦿ The interest shall be calculated, in such manner as may be prescribed, from the day succeeding the day on which such tax was due to be paid.
- ⦿ Where ITC has been wrongly availed and utilised, the registered person shall pay interest on such input tax credit wrongly availed and utilised, at such rate not exceeding 24% as may be notified by the Government, on the recommendations of the Council, and the interest shall be calculated, in such manner as may be prescribed.
- ⦿ The Board hereby clarifies the issue as under:

S.N.	Issue	Clarification
1.	In the cases of wrong availment of IGST credit by a registered person and reversal thereof, for the calculation of interest under rule 88B of CGST Rules, whether the balance of input tax credit available in electronic credit ledger under the head of IGST only needs to be considered or total input tax credit available in electronic credit ledger, under the heads of IGST, CGST and SGST taken together, has to be considered.	Since the amount of input tax credit available in electronic credit ledger, under any of the heads of IGST, CGST or SGST, can be utilized for payment of liability of IGST, it is the total input tax credit available in electronic credit ledger, under the heads of IGST, CGST and SGST taken together, that has to be considered for calculation of interest under rule 88B of CGST Rules and for determining as to whether the balance in the electronic credit ledger has fallen below the amount of wrongly availed input tax credit of IGST, and to what extent the balance in electronic credit ledger has fallen below the said amount of wrongly availed credit. Thus, in the cases where IGST credit has been wrongly availed and subsequently reversed on a certain date, there will not be any interest liability u/s 50(3) of CGST Act if, during the time period starting from such availment and up to such reversal, the balance of input tax credit (ITC) in the electronic credit ledger, under the heads of IGST, CGST and SGST taken together, has never fallen below the amount of such wrongly availed ITC, even if available balance of IGST credit in electronic credit ledger individually falls below the amount of such wrongly availed IGST credit. However, when the balance of ITC, under the heads of IGST, CGST and SGST of electronic credit ledger taken together, falls below such wrongly availed amount of IGST credit, then it will amount to the utilization of such wrongly availed IGST credit and the extent of utilization will be the extent to which the total balance in electronic credit ledger under heads of IGST, CGST and SGST taken together falls below such amount of wrongly availed IGST credit, and will attract interest as per sec. 50(3) of CGST Act, read with sec. 20 of Integrated Goods and Services Tax Act, 2017 and rule 88B(3) of CGST Rules

2.	Whether the credit of compensation cess available in electronic credit ledger shall be taken into account while considering the balance of electronic credit ledger for the purpose of calculation of interest under rule 88B(3) of CGST Rules in respect of wrongly availed and utilized IGST, CGST or SGST credit.	As per proviso to sec. 11 of Goods and Services Tax (Compensation to States) Act, 2017, input tax credit in respect of compensation cess on supply of goods and services leviable u/s 8 of the said Act can be utilised only towards payment of compensation cess leviable on supply of goods and services. Thus, credit of compensation cess cannot be utilized for payment of any tax under CGST or SGST or IGST heads and/ or reversals of credit under the said heads. Accordingly, credit of compensation cess available in electronic credit ledger cannot be taken into account while considering the balance of electronic credit ledger for the purpose of calculation of interest under rule 88B(3) of CGST Rules in respect of wrongly availed and utilized IGST, CGST or SGST credit.

Customs, as a major source of revenue, plays a very important role in the economy of our country.

The terms ‘customs’ derives its colour and essence from the term ‘custom’, which means a habitual practice or course of action that characteristically repeated in like circumstances. The collection of revenue through Customs is known in India, from the time immemorial. Laws for collection of revenue and punishments for violation thereof are indicated as early as in Kautilya’s “Arthashastra”. The modern system of taxation is, however, a British legacy. It was in England, during the days of King John, in the 13th Century, the ‘customary dues’ that were till then collected by local sheriffs and chieftains as protection money for the police service rendered to foreign traders came to be collected as revenue to the state . The other major forms of revenue viz. the Excise and Income Tax came to be conceived much later during the 17th Century.

In India, the “Customs” in the modern form was introduced soon after the consolidation of British rule. The trade in this country was then mainly by sea and with England and other European countries and an enactment known as Sea Customs Act, 1878, was brought forth for collection of revenue and control on the movement of goods. This was followed about 50 years later by an act known as Land Customs Act, 1924, to cover the goods coming by land routes. The Indian Aircraft Act, 1934, covered the export/import by air, which, by then, had made a beginning. The laws then, had however been designed with an eye to protect the British interests only, but independent India allowed these statutes to continue in force, till 1963, when the Customs Act, 1962, repealing all the earlier enactment was passed.

Customs Act – Basic Concepts and Definitions

6.1

Entry No. 83 of the List I to the Schedule VII of the Constitution empowers the Union Government to legislate and collect duties on imports and exports. Accordingly, the Customs Act, 1962, effective from 1-2-1963 provides vide its section 12 for the levy of duties on goods imported into or exported from India. The items and the rates of duties leviable thereon are specified in two Schedules to the Customs Tariff Act, 1975. The First Schedule specifies the various import items in systematic and well considered categories, in accordance with an international scheme of classification of internationally traded goods known as ‘Harmonized System of Commodity Classification’ and specifies the rates of import duties thereon, as prescribed by the legislature. The duties on imported items are usually levied either on specific or ad-valorem basis, but in few cases specific-cum-ad valorem duties are also levied. The Second Schedule incorporates items that are subject to exports duties and the rates of duties thereof.

Levy of duties on ad-valorem (i.e., with reference to value) basis is the predominant mode of levy. For this purpose the value of the imported goods is required to be determined as per provisions of Section 14 of the Customs Act, 1962 read with the Customs Valuation (Determination of Prices of Imported Goods) Rules, 2007. These provisions are essentially the adoption of GATT based valuation system (now termed WTO Valuation Agreement) that is followed internationally. Likewise, in respect of export of the goods, the value is to be determined as per provisions of Section 14 of the Customs Act, 1962 read with the Customs Valuation (Determination of Value of Export Goods) Rules, 2007.

6.1.1 Source of Customs Law

Customs Act. 1962

The Customs Act contains the provisions governing the import and export duty imposed on imports and exports of goods.

Customs Tariff Act. 1975

It contains rate of customs duty levied on imports or exports of a goods.

Rules & Regulation

There are various rules and regulation has been issued. Few of them are Customs Valuation (Determination of Value of Export Goods) Rules, 2007; Customs Valuation (Determination of Value of Imported Goods) Rules, 2007; Baggage Rules, 2016; Re-export of Imported Goods (Drawback of Customs Duties) Rules, 1995; etc.

6.1.2 Levy of Customs Duty

Applicability

The Customs Act, 1962 extends to whole of India¹.

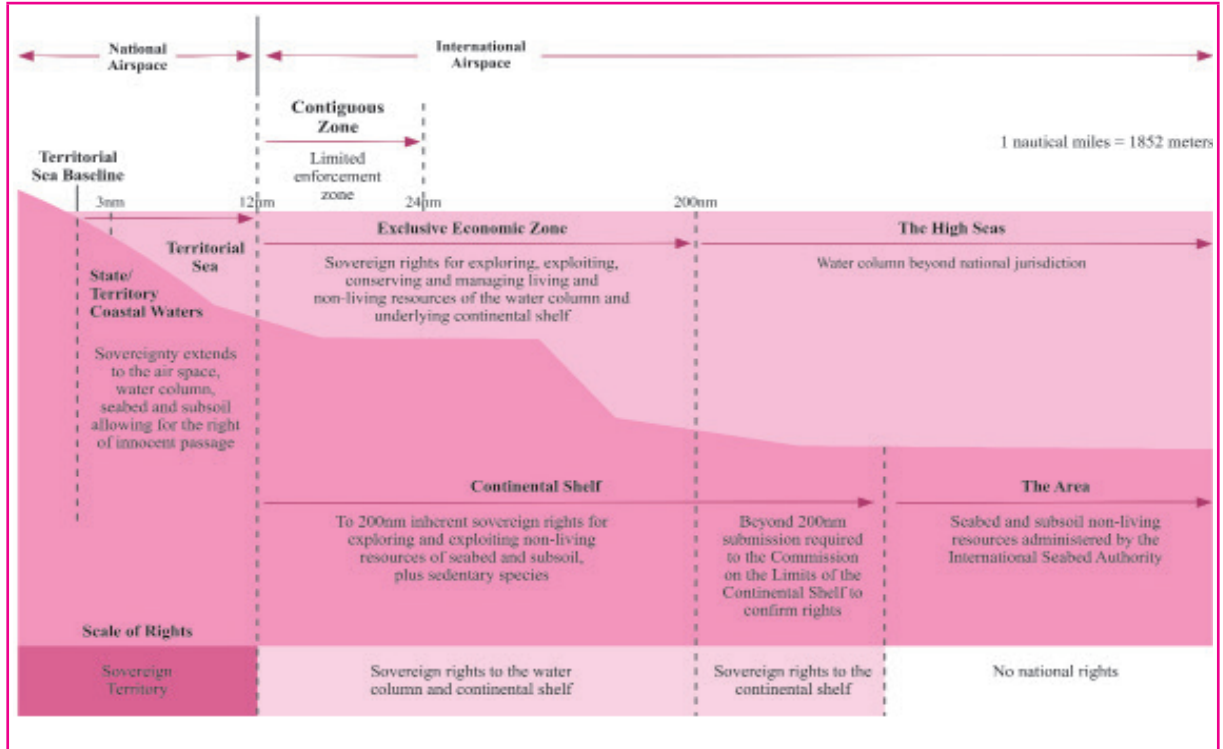

¹ Save as otherwise provided in this Act, it applies also to any offence or contravention thereunder committed outside India by any person

Taxpoint

- India includes the territorial waters of India [Sec. 2(27)]
- As per sec. 3 of the Territorial Water, Continental Shelf, Exclusive Economic Zone and Other Maritime Zone Act, 1976, territorial water extends to 12 nautical miles (1 nautical miles = 1.1515 miles = 1.852 km) into the sea from the base line on the coast of India and include any bay, gulf, harbour, creek or tidal river. Further note that, India includes not only the surface of sea but also to the seabed and subsoil underlying, and the air space over, such waters.
- India has sovereignty in its territorial waters. That means all the provisions of the Customs Act and rules and regulations are applicable in Indian Territorial Waters.

Meaning of terms

- **Baseline:** It is lower water mark along the coast.
- **Exclusive Economic Zone of India (EEZI):** The exclusive economic zone of India is an area beyond and adjacent to the territorial waters, and the limit of such zone is 200 nautical miles from the baseline.
- **Continental Shelf of India (CSI):** The continental shelf of India comprises the seabed and subsoil of the submarine areas that extend beyond the limit of its territorial waters throughout the natural prolongation of its land territory to the outer edge of the continental margin or to a distance of 200 nautical miles from the baseline, where the outer edge of the continental margin does not extend up to that distance.

Extension of the Customs Act, 1962 and the Customs Tariff Act, 1975 to EEZ and Continental Shelf

- i. The **notified designated areas** in the Continental Shelf of India (CSI) and Exclusive Economic Zone of India (EEZI); and
- ii. **Whole** of the EEZ and Continental Shelf of India for following purposes:
 - a. the prospecting for extraction or production of mineral oils (including petroleum and natural gas) in the Continental Shelf and EEZ of India, and
 - b. the supply of any goods in connection with any of the aforesaid activities.

Taxpoint

Implication of the extension of the Act to whole of CSI and EEZI is that bringing of any goods from any other country to any place in EEZ or Continental Shelf of India in connection with any activity related to extraction or production of mineral oils shall be treated as import under the Customs Act, 1962 and would be charged to duty accordingly. Further, mineral oils produced in the EEZ or Continental Shelf of India would be deemed to be produced in India and subject to levy of central excise duties under the Central Excise Act, 1944.

Indian Customs Waters [Sec. 2(28)]

It means the water extending into the sea upto the limit of Exclusive Economic Zone u/s 7 of the Territorial Water, Continental Shelf, Exclusive Economic Zone and Other Maritime Zone Act, 1976 and includes any bay, gulf, harbour, creek or tidal river.

Taxpoint

- ⊙ In the exclusive economic zone, the Union has,—
 - a. sovereign rights for the purpose of exploration, exploitation, conservation and management of the natural resources, both living and non-living as well as for producing energy from tides, winds and currents;
 - b. exclusive rights and jurisdiction for the construction, maintenance or operation of artificial islands, off-shore terminals, installations and other structures and devices necessary for the exploration and exploitation of the resources of the zone or for the convenience of shipping or for any other purpose;
 - c. exclusive jurisdiction to authorise, regulate and control scientific research;
 - d. exclusive jurisdiction to preserve and protect the marine environment and to prevent and control marine pollution; and
 - e. such other rights as are recognised by International Law.
- ⊙ The Union has in the continental shelf:
 - a. sovereign rights for the purposes of exploration, exploitation, conservation and management of all resources;
 - b. exclusive rights and jurisdiction for the construction, maintenance or operation of artificial islands, off-shore terminals, installations and other structures and devices necessary for the exploration and exploitation of the resources of the continental shelf or for the convenience of shipping or for any other purpose;
 - c. exclusive jurisdiction to authorise, regulate and control scientific research; and
 - d. exclusive jurisdiction to preserve and protect the marine environment and to prevent and control marine pollution

Chargeability [Sec. 12]

Duties of customs shall be levied at the rate specified under the Customs Tariff Act, 1975 or any other law for the time being in force on goods imported into or exported from India.

Taxpoint:

- ⊙ Duty of custom is leviable on goods and not on the person importing / exporting it.
- ⊙ The goods shall be such as are imported to or exported from India.
- ⊙ The duty shall be at such rate as may be specified under the Customs Tariff Act, 1975.

Notes

1. Goods [Sec. 2(22)]: It includes –
 - a. vessels, aircraft and vehicles;
 - b. stores;
 - c. baggage;
 - d. currency and negotiable instrument; and
 - e. any other kind of movable property
2. Import means bringing into India from a place outside India [Sec. 2(23)]
3. Imported goods means any goods brought into India from a place outside India but does not include goods, which have been cleared for home consumption [Sec. 2(25)]
4. Dutiable goods means any goods which are chargeable to duty and on which duty has not been paid. [Sec. 2(14)]
5. Importer in relation to any goods at any time between their importation and the time when they are cleared for home consumption includes any owner or any person holding himself out to be the importer [Sec. 2(26)]
 - Taxpoint: The term importer also include a person who cleared the goods from warehouse even though he is not the actual importer.
6. Export means taking out of India to a place outside India. [Sec. 2(18)]
7. Export goods means any goods which are to be taken out of India to a place outside India. [Sec. 2(19)]
8. Exporter in relation to any goods at any time between their entry for export and the time when they are exported includes -
 - owner; or
 - any person holding himself out to be the exporter. [Sec. 2(20)]
9. The provision shall also apply in respect of goods belonging to the Government. However, imports by Indian Navy, specific equipment required by police, Ministry of Defence, Costal Guard, etc. are fully exempt from duty by virtue of specific notification. Such exemption is subject to fulfillment or conditions and / or procedure set out in the said notifications.
10. **Taxable Event in case of imports:** Import of goods will commence when they cross the territorial waters but continues and is completed when they become part of the mass of goods within the country [Garden Silk Mills Ltd. vs UOI (1999) 113 ELT 358 (SC)]

In case of goods cleared for home consumption²: The taxable event being reached at the time when the goods reach the customs barriers and bill of entry for home consumption if filed

In case of goods cleared for warehousing³: If imported goods are taken into warehouse, goods continue to be in custom bond. Thus in case of warehouse also, import take place when the goods are cleared for home consumption.

11. **Taxable Event in case of exports:** Export of goods is complete when they cross the territorial waters. That means, if goods sinks within the territorial water, export is not complete.
12. The object of the Act is to tax only those goods which gets mixed up with the mass of goods in India – [M. Jamal Co. vs Union of India (1985) 21 ELT 369 (Mad.)]
13. The rate of import duty is specified in the First Schedule to the Customs Tariff Act, 1975 and the rate of export duty is specified in the Second Schedule to the said Act.

Determination of duty where goods consist of articles liable to different rate [Sec. 19]

Where the goods consist of a set of articles, duty shall be calculated on the following basis:

Articles	Basis of chargeability
1. Articles liable to duty on the basis of quantity	Such articles shall be chargeable on the basis of quantity
2. Articles liable to duty on the basis of value:	
➤ If they are liable to duty at same rate	Such articles shall be chargeable at that rate
➤ If they are liable to duty at different rates	Such articles shall be chargeable at the highest of such rates
3. Articles not liable to duty	Such articles shall be chargeable on the basis mentioned in (2) above.

Other points

- Accessories of and spare parts or maintenance and repairing implements for, any article shall be chargeable at the same rate of duty as that article. E.g. where a machine is chargeable at the rate of 30%, then repairing implements with that machine shall also be charged at the rate of 30%.
- Where the importer produces evidence to the satisfaction of the proper officer (or the evidence is available) regarding the value of any of the articles liable to different rates of duty, such article shall be chargeable to duty separately at the rate applicable to it.

6.1.3 Re-importation of goods [Sec. 20]

If goods are imported into India after exportation therefrom, such goods shall be liable to duty and be subject to all the conditions and restrictions, if any, to which goods of the like kind and value are liable or subject, on the importation thereof.

6.1.4 Duty on Goods derelict, wreck, jetsam and flotsam [Sec. 21]

Meaning :

Derelict	Derelict means property abandoned at sea without hope of recovering.
Wreck	Wreck is the property cast ashore by tide after shipwreck.
Jetsam	Where goods are cast into the sea for lighten the ship to prevent it from sinking.
Flotsam	Goods separated from ship by some peril, which continue to float on sea.

Treatment

Goods being derelict, wreck, jetsam and flotsam brought or coming into India shall be dealt with as if they were imported into India. However, where it is shown to the satisfaction of the proper officer that they are entitled to be admitted duty-free, then proper officer may admit it as duty-free.

6.1.5 Customs Duty not leviable in certain cases

In following cases, duty is not leviable or leviable at reduced amount:

No Duty on pilfered goods [Sec. 13]

Conditions :

- Imported goods are pilfered
- Such goods are pilfered after the unloading thereof and before the proper officer has made an order for clearance for home consumption or deposit in a warehouse
- The pilfered goods are not re-stored

Treatment :

The importer shall not be liable to pay the duty leviable on such pilfered goods⁴.

Taxpoint :

- ⦿ Pilfer means to steal something, typically of small value or in small quantities; petty theft. It does not mean total destruction or complete loss.
- ⦿ If such goods are re-stored to the importer after pilferage, the importer becomes liable to pay duty.
- ⦿ The principle governed this provision is that “when the goods are not in the control of the importer; he is not liable to pay duty thereon”.
- ⦿ Sec. 13 does not deal in the situation
 - a. where goods are lost or destroyed.
 - b. Where goods are pilfered before unloading thereof
 - c. Where goods are pilfered after the order for clearance for home consumption or deposit in a warehouse, sec. 13 is not applicable.
- ⦿ Where sec. 13 is applicable, sec. 23(1) is not applicable.

Abatement of duty on damaged or deteriorated goods [Sec. 22]

Circumstances :

Where it is shown to the satisfaction of Assistant Commissioner of Customs or Deputy Commissioner of Customs –

1. That any imported goods had been damaged or had deteriorated at any time before or during the unloading of goods in India; or
2. That any imported goods (other than warehoused goods) had been damaged at any time after the unloading of goods in India but before its examination on account of any accident not due to any wilful act, negligence or default of the importer, his employee or agent; or
3. That any warehoused goods had been damaged at any time before clearance for home consumption on account of any accident not due to any wilful act, negligence or default of the owner, his employee or agent.

Treatment :

The duty to be charged on the goods shall bear the same proportion to the duty chargeable on the goods before the damage or deterioration, which the value of the damaged or deteriorated goods bears to the value before the damage or deterioration.

Mathematically,

$$\text{Duty on damaged goods} = \frac{\text{Value of damage / deteriorated goods} * \text{Duty on goods before damage}}{\text{Value of goods before damage / deterioration}}$$

Note :

The value of damaged or deteriorated goods may be ascertained by either of the following methods at the option of the owner -

⁴ in case any imported goods which are pilfered while in custody, the custodian is required to pay duty on such goods.

- a. The value of such goods may be ascertained by the proper officer; or
- b. Such goods may be sold by the proper officer by public auction or by tender or with the consent of the owner in any other manner and the gross sale proceeds shall be deemed to be the value of such goods.

Taxpoint

- “Damage” denotes physical damage i.e., goods are not fit for the purpose for which they are intended.
- “Deterioration” denotes reduction in the quality of goods due to natural cause.

Example 1:

Value of goods before damage	₹ 1,00,000
Duty liability before damage	₹ 10,000
Value of goods after damage	₹ 40,000
Revised Duty liability after damage	₹ 4,000 [i.e., ₹ 10,000 * ₹ 40,000 / ₹ 1,00,000]

Remission of duty on lost or destroyed goods [Sec. 23(1)]

Where it is shown to the satisfaction of the Assistant Commissioner or Deputy Commissioner that any imported goods have been **lost (otherwise than as a result of pilferage) or destroyed** at any time **before** clearance for home consumption, then the Assistant Commissioner or Deputy Commissioner shall remit the duty on such goods.

Taxpoint :

- The remission of duty is permissible only when there is total loss or loss is forever and beyond recovery. E.g., imported goods is destroyed before clearance for home consumption destroyed due to fire in the warehouse.
- In case of pilferage, sec. 13 is applicable.

Distinction between sec. 13 and sec. 23(1)

In Hindustan Petroleum Corporation –vs.- CC 1984 (18) ELT 358 (Tri Mumbai), following essential difference between the situations contemplated u/s 13 & 23(1) are stated:

Point of difference	Pilferage of goods u/s 13	Loss or destruction of goods u/s 23(1)
Meaning	Pilferage denotes stealing in small quantities i.e., petty theft	Lost or destruction denotes total loss or loss is forever and beyond recovery
Duty liability	The importer is not made liable to pay the duty on pilfered imported goods. However, if goods are restored, importer is liable to pay the duty.	The duty paid on the goods shall be remitted to the importer.
Time of occurrence	The imported goods must have been pilfered after the unloading, but before the proper officer has made an order for clearance for home consumption	Imported goods have been lost or destroyed at any time before physical clearance of the goods for home consumption
Warehoused goods	Sec. 13 is not applicable where goods are pilfered after warehousing	The provision is applicable on warehoused goods also

Point of difference	Pilferage of goods u/s 13	Loss or destruction of goods u/s 23(1)
Burden to prove	No such burden is cast on the importer u/s 13	U/s 23(1) the burden is cast on the importer to satisfy the Assistant / Deputy Commissioner that imported goods have been lost or destroyed at any time before physical clearance of the goods for home consumption

Remission of duty on relinquishment of title to the goods [Sec. 23(2)]

The owner of any imported goods may, before an order for clearance of the goods for home consumption or an order for permitting the deposit of goods in a warehouse, relinquish his title to the goods and thereupon he shall not be liable to pay the duty thereon.

Taxpoint

- Relinquish literally means ‘to withdraw from’ or ‘to abandon’ or ‘to give up any thing or any right’ or ‘to cease to hold’ or ‘to surrender’ or ‘to give over the possession or control of, to leave off’.
- Such relinquishment should be unconditional
- It is open to the importer to exercise the above option at any time before the passing of the order for clearance for home consumption or before order permitting the deposit of goods in a warehouse.
- However, the owner of any such imported goods shall not be allowed to relinquish his title to such goods regarding which an offence appears to have been committed under this Act or any other law.
- Few situations where importer is unwilling or unable to take delivery of imported goods:
 - a. The imported goods are not according to the specifications
 - b. The goods is so damaged during voyage and as such may not be useful to the importer
 - c. There may be breach of contract

6.1.6 Power to make rules for denaturing or mutilation of goods [Sec. 24]

The Central Government may make rules for permitting at the request of the owner the denaturing or mutilation of imported goods which are ordinarily used for more than one purpose so as to render them unfit for one or more of such purposes; and where any goods are so denatured or mutilated they shall be chargeable to duty at such rate as would be applicable if the goods had been imported in the denatured or mutilated form.

6.1.7 Exemption from Customs Duty

Power to grant exemption from duty [Sec. 25]

If the Central Government is satisfied that it is necessary in the public interest so to do -

- a. It may by **notification** in the Official Gazette exempt **generally** (either absolutely or subject to certain conditions), goods of any specified description from the whole (or any part) of duty.
- b. It may by **special order** exempt from the payment of duty under circumstances of an exceptional nature (being stated in such order) any goods on which duty is leviable.

Notes

- a. An exemption from duty in respect of any goods may be granted by providing for the levy of the duty at a rate expressed in a form or method different from the form or method in which duty is leviable. Such duty shall in

no case exceed the original duty.

Form or method means the basis, namely, valuation, weight, number, length, area, volume or other measure with reference to which the duty is leviable.

- b. Duty shall not be collected where the amount of duty leviable does not exceed ₹ 100.

6.1.8 Classification of imported / export goods

Import and export of goods are required to be assessed to duty which may include an assessment of nil duty. For this purpose, it is necessary to determine the classification of the goods, which basically means the categorization of the goods in a specific heading or sub-heading of the Schedules to the Customs Tariff Act, 1975.

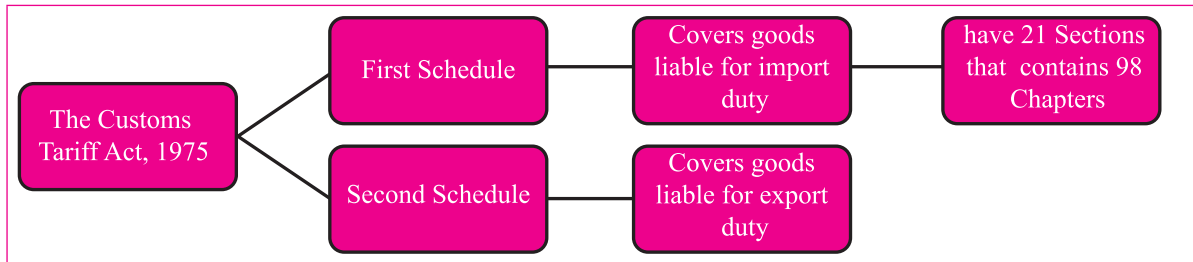

Why Classification

Following is the importance of correct classification:

- i. For determining rate of duty;
- ii. For determining the eligibility of exemption notification, which are with reference to the tariff heading or sub headings. Wrong classification would either cause loss of revenue to the Central Government or impose unjustifiable loss to assessee.
- iii. For applicability of other duties on goods like anti-dumping duty, safeguard duty, etc.
- iv. For applicability of any restriction and control on import or export of goods

Scheme of Classification

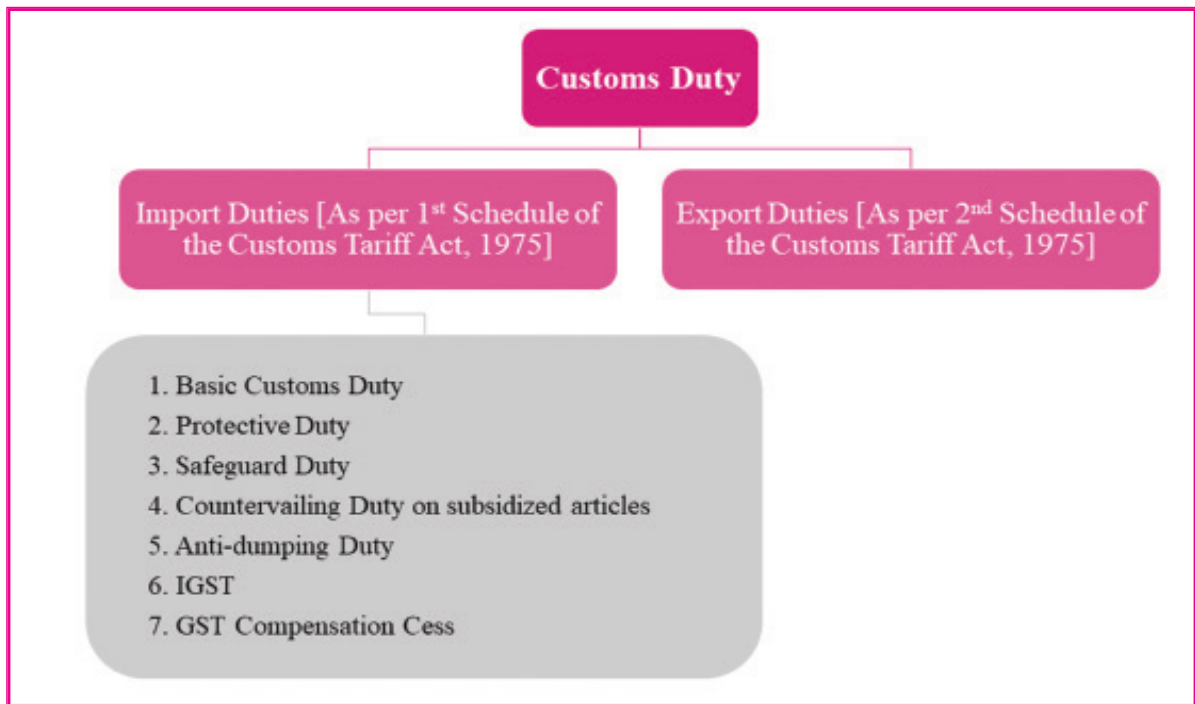

In the Tariff Schedule, commodities/products are arranged in a fixed pattern with the duty rates specified against each of them. It contains 2 Schedules:

- ⦿ **First Schedule:** The First Schedule contains description of goods chargeable to import duty. It specifies the nomenclature that is based on the Harmonized Commodity Description and Coding System generally referred to as “Harmonized System of Nomenclature” or simply “HSN”, developed by the World Customs Organization (WCO) which is applied uniformly by more than 137 countries the world over. The First Schedule has 21 Sections and 98 Chapters. A Section is a group consisting of a number of Chapters which codify a particular class of goods. The Section notes explain the scope of chapters / headings, etc. The Chapters consist of chapter notes, brief description of commodities arranged at four digit, six digit and eight digit levels. Every four-digit code is called a ‘heading’ and every six digit code is called a ‘subheading’ and 8-digit code is called a ‘Tariff Item’.
- ⦿ **Second Schedule:** The Second Schedule contains description of goods chargeable to export duty.

Types of Duties

6.2

Taxpoint :

- ◉ Apart from that, Social Welfare Surcharge (SWS) @ 10%⁵ of total customs duties (excluding few) is also applicable on imported goods. Such surcharge is not levied on export.

Example 2: Goods of ₹ 1,00,000 has been imported and the applicable rate of basic customs duty is 10%. Then customs duty shall be:

Assessable Value	₹ 1,00,000
Basic Customs Duty @ 10%	₹ 10,000
Add: Social Welfare Surcharge @ 10% of aforesaid	₹ 1,000
Total duty payable	₹ 11,000

⁵ 3% in case of goods being gold, silver including that plated with platinum unwrought or in semi-manufactured form or in powder form

- ⊙ However, for the purpose of computing SWS following are not to be considered:
 - Safeguard Duty
 - Countervailing duty on subsidized article
 - Anti-dumping duty
 - IGST
 - Compensation cess
- ⊙ Similarly, Government imposes certain surcharge or cess on specific goods from time to time. Example, Road and Infrastructure cess on motor spirit and high speed diesel, Health cess on medical equipment, etc.

Basic Customs Duty (BCD) [Sec. 12 of the Customs Act r.w.s. 2 of the Customs Tariff Act]

Duty is levied as per sec. 12 of the Customs Act. Sec. 2 of the Customs Tariff Act, 1975 provides the rate at which duties of customs shall be charged. First schedule to Customs Tariff Act enlists the goods liable to duty on importation whereas second schedule enlists the goods liable to duty on exportation. The duty charged by this system may be specific duty (i.e. duty based on measures like quintal, meters, etc.) or ad valorem (i.e. duty based on certain percentage of assessable value⁶). Further, Customs Tariff Act provides two types of basic rate -

- a. **Standard rate of duty:** Generally, all goods are liable to duty at this rate. This rate is higher than preferential rate of duty. This rate is mentioned in fourth column of the schedule.
- b. **Preferential rate of duty:** Where goods are imported from notified preferential area, then preferential rate of duty is applicable. It is a concessional rate (given in column 5 of the schedule) for importation from preferential area. Importer should make a specific claim for this concessional rate and satisfy specified conditions. If importer fails to satisfy those conditions, then goods shall be liable to standard rate even if such goods are imported from preferential area.

Integrated Goods and Services Tax (IGST) [Sec. 3(7) of Customs Tariff Act, 1975]

- ⊙ Any article which is imported into India shall, in addition, be liable to integrated tax.
- ⊙ IGST shall be levied at such rate as leviable u/s 5 of the Integrated Goods and Services Tax Act, 2017 on a like article on its supply in India.
- ⊙ For the purpose of levying IGST, value of the imported article shall be determined as under:
 - The value of the imported article determined u/s 14(1) of the Customs Act, 1962 or the tariff value of such article fixed u/s 14(2), as the case may be;
 - Any duty of customs chargeable on that article u/s 12 of the Customs Act, 1962;
 - Any sum chargeable on that article under any law for the time being in force as an addition to, and in the same manner as, a duty of customs like anti-dumping duty, safeguard duty, etc.;
 - but does not include this IGST and the Compensation cess;

Example 3:

Goods of ₹ 1,00,000 has been imported and the applicable rate of basic customs duty is 10%. On such goods applicable rate of IGST is 18%. Then computation of duty shall be as under:

⁶ Assessable value is transaction value u/s 14(1) / tariff value determined u/s 14(2)

Assessable Value [A]	₹ 1,00,000
Basic Customs Duty [B = 10% of A]	₹ 10,000
Add: Social Welfare Surcharge [C = 10% of B]	₹ 1,000
Value for computing IGST [D = A + B + C]	₹ 1,11,000
Add: IGST [E = D x 18%]	₹ 19,980
Total Duty payable [B + C + E]	₹ 30,980

For aforesaid payment of IGST, ITC under GST law is available.

Taxpoint

Where the goods deposited in a warehouse under the provisions of the Customs Act, 1962 are sold to any person before clearance for home consumption or export under the said Act, the value of such goods for the purpose of calculating the integrated tax shall be,-

Where the whole of the goods are sold	the value determined as per aforesaid provision or the transaction value of such goods, whichever is higher
Where any part of the goods is sold	the proportionate value of such goods as per aforesaid provision or the transaction value of such goods, whichever is higher.
However, where the whole of the warehoused goods or any part thereof are sold more than once before such clearance for home consumption or export, the transaction value of the last such transaction shall be the transaction value for the aforesaid purposes	

GST Compensation Cess [Sec. 3(9) of Customs Tariff Act, 1975]

Under GST regime, Compensation Cess will be charged on luxury products like high-end cars and demerit commodities like pan masala, tobacco and aerated drinks for the period of 5 years in order to compensate states for loss of revenue

Any article which is imported into India shall, in addition, be liable to the goods and services tax compensation cess at such rate, as is leviable u/s 8 of the Goods and Services Tax (Compensation to States) Cess Act, 2017 on a like article on its supply in India.

Where such cess is leviable at any percentage of its value, the value of the imported article shall be the aggregate of the following:

- ⦿ the value of the imported article determined u/s 14(1) of the Customs Act, 1962 or the tariff value of such article fixed u/s 14(2), as the case may be;
- ⦿ any duty of customs chargeable on that article u/s 12 of the Customs Act, 1962;
- ⦿ any sum chargeable on that article under any law for the time being in force as an addition to, and in the same manner as, a duty of customs like anti-dumping duty, safeguard duty, etc.;
- ⦿ but does not include the IGST or this cess

Taxpoint: In respect of warehoused goods, similar provision is applicable as applicable in case of levying IGST.

Example 4:

Goods of ₹ 1,00,000 has been imported and the applicable rate of basic customs duty is 10%. On such goods applicable rate of IGST is 18% and GST Compensation cess is 28%. Then computation of duty shall be as under:

Assessable Value [A]	₹ 1,00,000
Basic Customs Duty [B = 10% of A]	₹ 10,000
Add: Social Welfare Surcharge [C = 10% of B]	₹ 1,000
Value for computing IGST [D = A + B + C]	₹ 1,11,000
Add: IGST [E = D x 18%]	₹ 19,980
Add: Compensation Cess [F = D x 28%]	₹ 31,080
Total Duty payable [B + C + E + F]	₹ 62,060

For aforesaid payment of IGST and compensation cess, ITC under GST law is available.

Other Customs Duties

Protective Duties [Sec. 6 of the Customs Tariff Act, 1975]

In order to protect the interests of any industry established in India, Central Government may impose protective duty on any goods imported into India.

Taxpoint:

1. Government imposes such duty on recommendation made to it by the Tariff Commission established under the Tariff Commission Act, 1951.
2. This duty is effective only and inclusive of the date, if any, specified in the First Schedule of the Tariff [Sec. 7 of the Customs Tariff Act, 1975]

Safeguard Duty [Sec. 8B of Customs Tariff Act]

Condition to impose:

Where the Central Government is satisfied that -

- a. An article is imported into India in increased quantities; and
 - b. Such article is imported so as to cause or threaten to cause serious injury to the domestic industry,
- then it may apply such safeguard measures on that article, as it deems appropriate.

Taxpoint :

1. The safeguard measures shall include imposition of safeguard duty, application of tariff-rate quota or such other measure, as the Central Government may consider appropriate, to curb the increased quantity of imports of an article to prevent serious injury to domestic industry.
2. If the following conditions are satisfied then safeguard duty shall not be imposed –
 - a. Such article is originating from a developing country or countries; and
 - b. Aggregate import from country or countries shall not exceed –

Where the article is originating from one developing country	The share of imports of that article from that country does not exceed 3% of the total imports of that article into India
--------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------

Where the article is originating from more than one developing country	The aggregate of the imports from all such countries does not exceed 9% of the total imports of that article into India
------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------

3. However, the Central Government may exempt such quantity of any article, when imported from any country or territory into India, from payment of the whole or part of the safeguard duty leviable thereon.
4. Where tariff-rate quota is used as a safeguard measure, the Central Government shall not fix such quota lower than the average level of imports in the last 3 representative years for which statistics are available, unless a different level is deemed necessary to prevent or remedy serious injury.
5. The Central Government may allocate such tariff-rate quota to supplying countries having a substantial interest in supplying the article concerned, in such manner as may be provided by rules.
6. **Provisional Safeguard Duty:** The Central Government may, pending the determination of safeguard measures, apply provisional safeguard measures on the basis of a preliminary determination that increased imports have caused or threatened to cause serious injury to a domestic industry. However, any provisional safeguard measure shall not remain in force for more than 200 days from the date on which it was applied.
Further, where, on final determination, the Central Government is of the opinion that increased imports have not caused or threatened to cause serious injury to a domestic industry, it shall refund the safeguard duty so collected.
7. **Duration of imposition:** Safeguard duty shall be ceased to have effect on the expiry of 4 years (unless revoked earlier) from the date of its imposition. However, the Central Government may extend the period of levy to 10 years.
8. Safeguard duty or provisional safeguard duty shall not apply to articles imported by a 100% export-oriented undertaking or a unit in a special economic zone unless:
 - a. it is specifically made applicable in such notification or to such undertaking or unit; or
 - b. such article is either cleared as such into the domestic tariff area or used in the manufacture of any goods that are cleared into the domestic tariff area, in which case, safeguard measures shall be applied on the portion of the article so cleared or used, as was applicable when it was imported into India.
9. The safeguard duty is product specific and it is in addition to any other duty imposed under this Act or under any other law for the time being in force.
10. Developing country means a country notified by the Central Government in the Official Gazette;
11. Domestic industry means the producers:
 - a. as a whole of the like article or a directly competitive article in India; or
 - b. whose collective output of the like article or a directly competitive article in India constitutes a major share of the total production of the said article in India;
12. Serious injury means an injury causing significant overall impairment in the position of a domestic industry
13. Threat of serious injury means a clear and imminent danger of serious injury.

Countervailing Duty on Subsidized articles [Sec. 9 of the Customs Tariff Act, 1975]

Condition to impose :

- a. Any country or territory pays, or bestows, directly or indirectly, any subsidy upon the manufacture or production

therein or the exportation therefrom of any article including any subsidy on transportation of such article;

- b. Such article is imported into India;
- c. Such article is imported directly / indirectly from the country of manufacture, production; and
- d. The article is imported in the same condition as when exported from the country of manufacture or production or has been changed in condition by manufacture, production or otherwise.

Quantum of duty: The Central Government may impose a countervailing duty not exceeding the amount of such subsidy.

Duration of imposition: Such duty shall be in force for 5 years (unless revoked earlier) from the date of its imposition. However, it can be further extended for another 5 years.

Anti-Dumping duty [Sec. 9A of Customs Tariff Act]

Dumping is said to occur when the goods are exported by a country to another country at a price lower than its normal value. This is an unfair trade practice which can have a distortive effect on international trade. Anti dumping is a measure to rectify the situation arising out of the dumping of goods and its trade distortive effect. Thus, the purpose of anti dumping duty is to rectify the trade distortive effect of dumping and re-establish fair trade. The use of anti dumping measure as an instrument of fair competition is permitted by the WTO. In fact, anti dumping is an instrument for ensuring fair trade and is not a measure of protection per se for the domestic industry. It provides relief to the domestic industry against the injury caused by dumping.

Condition to impose :

- a. Any article is exported by an exporter or producer from any country or territory to India at less than its normal value; and
- b. Such article is imported into India;

Quantum of Anti-Dumping Duty :

The Central Government may impose an anti-dumping duty not exceeding the margin of dumping in relation to such article.

- ⊙ **Margin of dumping** = Normal Value less Export Price
- ⊙ Export price, in relation to an article, means
 - a. the price of the article exported from the exporting country or territory; and
 - b. in cases where there is no export price or where the export price is unreliable because of association or a compensatory arrangement between the exporter and the importer or a third party, the export price may be constructed on the basis of the price at which the imported articles are first resold to an independent buyer or if the article is not resold to an independent buyer, or not resold in the condition as imported, on such reasonable basis as may be determined in accordance with the rules made u/s 9A(6);
- ⊙ Normal value, in relation to an article, means -
 - i. the comparable price, in the ordinary course of trade, for the like article when destined for consumption in the exporting country or territory as determined in accordance with the rules made u/s 9A(6); or
 - ii. when there are no sales of the like article in the ordinary course of trade in the domestic market of the exporting country or territory, or when because of the particular market situation or low volume of the sales in the domestic market of the exporting country or territory, such sales do not permit a proper comparison, the normal value shall be either:
 - a. comparable representative price of the like article when exported from the exporting country or

territory to an appropriate third country as determined in accordance with the rules made u/s 9A(6);
or

- b. the cost of production of the said article in the country of origin along with reasonable addition for administrative, selling and general costs, and for profits, as determined in accordance with the rules made u/s 9A(6)

However, in the case of import of the article from a country other than the country of origin and where the article has been merely transhipped through the country of export or such article is not produced in the country of export or there is no comparable price in the country of export, the normal value shall be determined with reference to its price in the country of origin

Taxpoint :

- ⦿ **Duration of imposition:** Such duty shall be in force for 5 years (unless revoked earlier) from the date of its imposition. However, if the Central Government, in a review, is of the opinion that the cessation of such duty is likely to lead to continuation or recurrence of dumping and injury, it may, from time to time, extend the period of such imposition for a further period upto 5 years and such further period shall commence from the date of order of such extension.
- ⦿ Where a review initiated before the expiry of the aforesaid period of 5 years has not come to a conclusion before such expiry, the anti-dumping duty may continue to remain in force pending the outcome of such a review for a further period not exceeding 1 year.

If the said duty is revoked temporarily, the period of such revocation shall not exceed 1 year at a time.

- ⦿ Such countervailing duty shall be in addition to any other duty imposed under this Act or any other law.
- ⦿ Where the Central Government, on such inquiry as it may consider necessary, is of the opinion that circumvention of anti-dumping duty imposed has taken place, either by altering the description or name or composition of the article subject to such anti-dumping duty or by import of such article in an unassembled or disassembled form or by changing the country of its origin or export or in any other manner, whereby the anti-dumping duty so imposed is rendered ineffective, it may extend the anti-dumping duty to such article or an article originating in or exported from such country, as the case may be, from such date, not earlier than the date of initiation of the inquiry, as the Central Government may, specify.
- ⦿ Where the Central Government, on such inquiry as it may consider necessary, is of the opinion that absorption of anti-dumping duty imposed has taken place whereby the anti-dumping duty so imposed is rendered ineffective, it may modify such duty to counter the effect of such absorption, from such date, not earlier than the date of initiation of the inquiry, as the Central Government may specify.

Absorption of anti-dumping duty is said to have taken place,-

- a. if there is a decrease in the export price of an article without any commensurate change in the cost of production of such article or export price of such article to countries other than India or resale price in India of such article imported from the exporting country or territory; or
 - b. under such other circumstances as may be provided by rules.
- ⦿ **Provisional anti-dumping duty:** The Central Government may, pending the determination of the normal value and the margin of dumping in relation to any article, impose on the importation of such article into India an anti-dumping duty on the basis of a provisional estimate of such value and margin and if such anti-dumping duty exceeds the margin as so determined :-
 - a. the Central Government shall, having regard to such determination and as soon as may be after such determination, reduce such anti-dumping duty; and

- b. refund shall be made of so much of the anti-dumping duty which has been collected as is in excess of the anti-dumping duty as so reduced.
- ⊙ A notification issued or any anti-dumping duty imposed shall not apply to articles imported by a 100% export-oriented undertaking or a unit in a special economic zone, unless,-
 - i. it is specifically made applicable in such notification or to such undertaking or unit; or
 - ii. such article is either cleared as such into the domestic tariff area or used in the manufacture of any goods that are cleared into the domestic tariff area, in which case, anti-dumping duty shall be imposed on that portion of the article so cleared or used, as was applicable when it was imported into India.
- ⊙ Retrospective effect: If the Central Government, in respect of the dumped article under inquiry, is of the opinion that -
 - i. there is a history of dumping which caused injury or that the importer was, or should have been, aware that the exporter practices dumping and that such dumping would cause injury; and
 - ii. the injury is caused by massive dumping of an article imported in a relatively short time which in the light of the timing and the volume of imported article dumped and other circumstances is likely to seriously undermine the remedial effect of the anti-dumping duty liable to be levied,

the Central Government may levy anti-dumping duty retrospectively from a date prior to the date of imposition of anti-dumping duty but not beyond 90 days from the date of notification under that sub-section, and such duty shall be payable at such rate and from such date as may be specified in the notification.

Illustration 1:

A commodity is imported into India from a country covered by a notification issue by the Central Government u/s 9A of the Customs Tariff Act, 1975. Following particulars are made available:

- Assessable Value for levying Basic Customs Duty: ₹ 12,62,500
- Quantity imported: 500 kgs.
- Basic customs duty: 10%
- IGST: 18%

As per the notification, the anti-dumping duty will be equal to the difference between the cost of commodity calculated @ US\$ 50 per kg (Exchange Rate is 1 USD = INR 70) and the landed value of the commodity as imported

Appraise the liability on account of normal duties and the anti-dumping duty.

Refund of anti-dumping duty in certain cases [Sec. 9AA]

- i. Where upon determination by an officer authorised in this behalf by the Central Government, an importer proves to the satisfaction of the Central Government that he has paid anti-dumping duty imposed u/s 9A on any article, in excess of the actual margin of dumping in relation to such article, the Central Government shall, as soon as may be, reduce such anti-dumping duty as is in excess of actual margin of dumping so determined, in relation to such article or such importer, and such importer shall be entitled to refund of such excess duty
Such importer shall not be entitled to refund of so much of such excess duty which is refundable u/s 9A(2).
- ii. The Central Government may make rules to-
 - a. provide for the manner in which and the time within which the importer may make application for this purposes;
 - b. authorise the officer of the Central Government who shall dispose of such application on behalf of the Central Government within the time specified in such rules; and
 - c. provide the manner in which the excess duty shall be -
 1. determined by such officer; and
 2. refunded by the Deputy Commissioner of Customs or Assistant Commissioner of Customs, as the case may be, after such determination.

No levy under section 9 or section 9A in certain cases [Sec. 9B]

1. Notwithstanding anything contained in sec. 9 or 9A:
 - a. no article shall be subjected to both countervailing duty and anti-dumping duty to compensate for the same situation of dumping or export subsidization;
 - b. the Central Government shall not levy any countervailing duty or anti-dumping duty -
 - i. u/s 9 or 9A by reasons of exemption of such articles from duties or taxes borne by the like article when meant for consumption in the country of origin or exportation or by reasons of refund of such duties or taxes;
 - ii. under sub-section (1) of each of these sections, on the import into India of any article from a member country of the World Trade Organisation or from a country with whom Government of India has a most favoured nation agreement (hereinafter referred as a specified country), unless in accordance with the rules made under sub-section (2) of this section, a determination has been

made that import of such article into India causes or threatens material injury to any established industry in India or materially retards the establishment of any industry in India; and

- iii. under sub-section (2) of each of these sections, on import into India of any article from the specified countries unless in accordance with the rules made under sub-section (2) of this section, a preliminary findings has been made of subsidy or dumping and consequent injury to domestic industry; and a further determination has also been made that a duty is necessary to prevent injury being caused during the investigation:

Nothing contained in sub-clauses (ii) and (iii) shall apply if a countervailing duty or an anti-dumping duty has been imposed on any article to prevent injury or threat of an injury to the domestic industry of a third country exporting the like articles to India;

- c. the Central Government may not levy -
 - i. any countervailing duty u/s 9, at any time, upon receipt of satisfactory voluntary undertakings from the Government of the exporting country or territory agreeing to eliminate or limit the subsidy or take other measures concerning its effect, or the exporter agreeing to revise the price of the article and if the Central Government is satisfied that the injurious effect of the subsidy is eliminated thereby;
 - ii. any anti-dumping duty u/s 9A, at any time, upon receipt of satisfactory voluntary undertaking from any exporter to revise its prices or to cease exports to the area in question at dumped price and if the Central Government is satisfied that the injurious effect of dumping is eliminated by such action.
2. The Central Government may, by notification in the Official Gazette, make rules for the purposes of this section, and without prejudice to the generality of the foregoing, such rules may provide for the manner in which any investigation may be made for the purposes of this section, the factors to which regard shall be at in any such investigation and for all matters connected with such investigation.

Apart from these, additional duty, countervailing duty or special additional duty is also applicable on certain goods. Generally, these duties are subsumed in the GST, however, these duties are still applicable in case of goods which are outside the purview of GST like alcoholic liquor for human consumption.

Export Duty [Second Schedule of the Customs Tariff Act, 1975]

In general, no duty is payable on export. However, Government has imposed export duty on certain goods like leather goods, ferrous waste and scrap, snake skins, etc.

The rate of customs duty leviable on imported or exported goods are either specific or ad valorem basis (i.e., as a percentage of the value of goods) or at times on specific cum ad valorem. In case of ad valorem duty, the valuation of the goods may be determined in any of the following manner:

Valuation on the basis of Transaction Value [Sec. 14(1)]

1. **Valuation of Imported Goods:** The value of the imported goods shall be the transaction value of such goods, that is to say,
 - the price actually paid or payable for the goods;
 - when sold for export to India;
 - for delivery at the time and place of importation;
 - where the buyer and seller of the goods are not related; and
 - price is the sole consideration for the sale

subject to such other conditions as may be specified in the rules⁷ made in this behalf.

Taxpoint

- ⊙ Such transaction value in the case of imported goods shall include, in addition to the price as aforesaid, any amount paid or payable for costs and services, including
 - commissions and brokerage (excluding buying commission);
 - engineering, design work;
 - royalties and licence fees;
 - costs of transportation to the place of importation;
 - insurance;

⁷ The Customs Valuation (Determination of Value of Imported Goods) Rules, 2007 have been specified.

- loading, unloading and handling charges

to the extent and in the manner specified in the Customs Valuation (Determination of Value of Imported Goods) Rules, 2007

2. **Valuation of Export Goods:** The value of the exported goods shall be the transaction value of such goods, that is to say,

- the price actually paid or payable for the goods;
- when sold for export from India;
- for delivery at the time and place of exportation;
- where the buyer and seller of the goods are not related; and
- price is the sole consideration for the sale

subject to such other conditions as may be specified in the rules⁸ made in this behalf.

Valuation on the basis of Tariff Value [Sec. 14(2)]

CBIC may fix tariff values for any class of imported or export goods (having regard to the trend of value of such or like goods) and where any such tariff values are fixed, the duty shall be chargeable with reference to such tariff value. At present, tariff value has been fixed in respect of import for crude palm oil, crude palmolein, crude soyabean oil, brass scrap, poppy seeds, etc.

Date Relevant for Determination of Rate of Exchange

Rate of Exchange

The price shall be calculated with reference to the rate of exchange as in force on the date on which a bill of entry is presented u/s 46, or a shipping bill of export, as the case may be, is presented u/s 50.

Taxpoint :

- ⦿ The price shall be calculated with reference to the rate of exchange as in force on the date

In case of Import	Date on which a bill of entry is presented u/s 46,
In case of export	Date on which a shipping bill of export is presented u/s 50.

- ⦿ Rate of exchange means the rate of exchange:
 - determined by the Board (i.e., CBIC), or
 - ascertained in such manner as the Board may direct, for the conversion of Indian currency into foreign currency or foreign currency into Indian currency [Explanation to sec. 14]
- ⦿ The rate of exchange is notified by (i) CBIC; (ii) RBI; and (iii) Foreign Exchange Dealers’ Association of India. For the purpose of customs, rate notified by **CBIC** shall be considered. Selling Rate shall be considered for import and buying rate shall be considered for export.

⁸ The Customs Valuation (Determination of Value of Export Goods) Rules, 2007 have been specified

Example 5:

Determine the rate of exchange for the purpose of computation of customs duty in the following cases:

(I)	(II)	(III)	Exchange rate notified by CBIC (INR per USD)		Exchange Rate notified by RBI (INR per USD)	
			(IV)		(V)	
			On the date given on col. (II)	On the date given on col. (III)	On the date given on col. (II)	On the date given on col. (III)
Import	20-10-2023	15-10-2023	62	63	60	61
Export	25-11-2023	25-11-2023	61	61	63	63

Solution:

Exchange rate notified by the CBIC on the date of presentation of bill of entry (in case of import) or shipping bill (in case of export) shall be considered, thus:

- In case of import, exchange rate of ₹ 62 per USD shall be considered.
- In case of export, exchange rate of ₹ 61 per USD shall be considered.

Note that rate notified by RBI is irrelevant for computation of customs duty.

6.3.1 Customs Valuation (Determination of price of imported goods) Rules, 1988

Methods to be followed (in hierarchal order) for determination of price of imported goods

- ⦿ Primary Method: Transaction value [Rule 3]
- ⦿ Secondary Method
 1. Transaction value of identical goods [Rule 4]
 2. Transaction value of similar goods [Rule 5]
 3. Deductive value [Rule 7]
 4. Computed value [Rule 8]
 5. Residual method [Rule 9]

Note: On the request of importer, the order of application of rules 7 (i.e. Deductive value) and 8 (i.e. Computed value) shall be reversed.

Transaction Value [Rule 3]

Transaction value shall be accepted as price, provided following conditions are satisfied –

1. The sale is in the ordinary course of trade under fully competitive conditions;
2. There are no restriction as to the disposition or use of the goods by the buyer other than restrictions which –
 - a. are imposed or required by law or by public authorities in India; or
 - b. limit the geographical area in which the goods may be resold; or
 - c. do not substantially affect the value of the goods;

3. The sale or price is not subject to condition or consideration for which a value cannot be determined;
4. Any part of the proceeds of subsequent resale, disposal or use of the goods by the buyer will not be shared with the seller unless an appropriate adjustment is made;
5. The buyer and seller are not related.

Meaning of related person :

Person shall be deemed to be related if –

1. they are officers or directors of one another's businesses;
 2. they are legally recognized partners in business;
 3. they are employer and employee;
 4. any person owns, controls or holds 5% or more of the voting right of both of them;
 5. one of them controls the other;
 6. both of them are controlled by a third person;
 7. together they control a third person;
 8. they are members of the same family.
- a. Person also includes legal persons.
 - b. Persons who are associated in the business of one another in that one is the sole agent or sole distributor or sole concessionaire, howsoever described, of the other shall be deemed to be related for the purpose of these rules, if they fall within the criteria of this sub-rule.

Transaction value can be accepted though sale is made to related buyer

In the following cases, the transaction value shall be accepted even if the buyer and seller are related:

- a. the examination of the circumstances of the sale of the imported goods indicates that relationship did not influence the price.
- b. the importer demonstrates that the value of the goods being valued, closely approximates to one of the following values ascertained at or about the same time:
 - i. the transaction value of identical goods, or of similar goods, in sales to unrelated buyers in India;
 - ii. the deductive value for identical goods or similar goods;
 - iii. the computed value for identical goods or similar goods:

Note

- ⊙ While comparing prices, due account shall be taken of difference in commercial levels, quantity levels and cost incurred by the seller in sales to an unrelated buyer. E.g. price of 1000 units are not comparable with the price of 100000 units.
- ⊙ While determining value of identical or similar goods, substitute value shall not be taken.

Computation of transaction value of imported goods

The transaction value of imported goods shall be the price actually paid or payable for the goods when sold for export to India adjusted in accordance with the provisions of rule 10.

As per rule 10, while determining transaction value, following cost or value (being not included in the price) shall be added with the price actually paid or payable -

1. the following cost and services, to the extent they are incurred by the buyer –
 - a. Commission and brokerage, except buying commissions;
 - b. The cost of containers;
 - c. The cost of packing whether for labour or materials;
2. the appropriate value of the following goods and services supplied by the buyer free of charge or at reduced cost for use in the production and sale for export of imported goods –
 - a. materials, components, parts & similar items incorporated in the imported goods;
 - b. tools, dies, moulds & similar items used in the production of the imported goods;
 - c. materials consumed in the production of the imported goods;
 - d. engineering, development, art work, design work, plans and sketches undertaken elsewhere than in India and necessary for the production of the imported goods;
3. royalties and licence fees related to the imported goods that the buyer is required to pay as a condition of the sale of such goods;
4. the value of any part of proceeds of any subsequent resale, disposal or use of such goods accrues to the seller;
5. all other payments actually paid or payable by the buyer to the seller or by the buyer to the third party to satisfy an obligation of the seller.

Additions to the price actually paid or payable shall be made under this rule on the basis of objective and quantifiable data

Price for delivery at the time and place of importation [Rule 10(2)]

The value of imported goods shall be the price for delivery at the time and place of importation. Hence, it includes –

- a. The cost of transport, loading, unloading and handling charges associated with the delivery of the imported goods to the place of importation;
- b. The cost of insurance to the place of importation

Note

- i. Where the above cost is not ascertained then following shall be added –

In case of	Amount to be added
Cost of transport	20% of free on board (FOB) value of goods
Cost of insurance	1.125% of FOB value of goods

- ii. Where goods are imported by **air**, then cost of transport (whether ascertained or not) shall be restricted to 20% of FOB value of goods.

iii. FOB value = Cost of production + Profit of the manufacturer + Freight in foreign country + Local taxes + Loading charges + Export duty and cess.

In nutshell, valuation shall be determined as under:

	₹
Value of material (ex-factory price)	XXX
Carriage / Freight / insurance upto the port of shipment in the exporter's country	XXX
Charges for loading on to the ship at the shipping port in the exporter's country	XXX
Free on Board (FOB)	XXX
Add: if not included above	XXX
➤ Commission and brokerage (except buying commission)	XXX
➤ Packing cost (except cost of durable and returnable packing)	XXX
➤ Cost of engineering, development and plan or sketches (undertaken outside India)	XXX
➤ Royalties and Licence Fee	XXX
➤ Value of subsequent re-sale if payable to foreign supplier	XXX
➤ Value of material supplied by the buyer free of cost	XXX
FOB value as per Customs	XXX
Actual Cost of freight (if not specified, then @ 20% of FOB value as per customs) [in case of air transport max. 20%]	XXX
Ship demurrage charges on chartered vessels, lighterage or barge charges	XXX
Actual Insurance charges (if not specified, then @ 1.125% of FOB value as per customs)	XXX
Cost, Insurance and Freight (CIF) i.e., Assessable Value	XXX

Taxpoint

- Place of importation means the customs station, where the goods are brought for being cleared for home consumption or for being removed for deposit in a warehouse
- Unloading charges or landing charges at the place of importation shall not be considered.
- Buying commission means fees paid by an imported to his agent for the services of representing him abroad in the purchase of goods being valued.
- When ship is not brought upto jetty because deep draught at port or ports are busy or any other reason, in this case cargo shall be discharged at anchorage. Charges for bringing goods from outer anchorage to the jetty is called barging / lighterage charges.
- Demurrage charges payable to port trust authorities for delay in clearing goods are not to be added.
- However, following cost shall **not** to be included:
 - Duties and tax paid in India
 - Cost of erection charges in India
 - Cost of transport and insurance from port to factory of importer in India
 - Cost of development charges in connection with imported machinery
 - Port demurrage charges and unloading charges in India

- Any other charges incurred after importation like post shipment charges unless such charges are pre-condition for importation (e.g. inspection).

Note: Design and development work in India and transport cost incurred in India shall not be considered for ascertaining assessable value.

Transaction value of identical goods [Rule 4]

The value of imported goods shall be the transaction value of identical goods sold for export to India and imported at or about the same time as the goods being valued.

Taxpoint

1. Identical goods means imported goods –
 - a. which are same in all respects, including physical characteristics, quality and reputation as the goods being valued except for minor differences in appearance that do not affect the value of goods;
 - b. produced in the country in which the goods being valued were produced; and
 - c. produced by the same person who produced the goods or where no such goods are available, then goods produced by a different manufacturer.

However, identical goods do not include goods where engineering, development, art work, design work, plan or sketch was done by the buyer in India free of charge or at a reduced cost.

2. Such identical goods shall be sold at the same commercial and quantity level. Where no such sale is found, the transaction value of identical goods sold at a different commercial level or in different quantity or both shall be used with certain adjustment.
3. Where more than one transaction value of identical goods is found, then the lowest of such value shall be used for determining the value of imported goods.

Transaction value of similar goods [Rule 5]

The value of imported goods shall be the transaction value of similar goods sold for export to India and imported at or about the same time as the goods being valued.

Notes

1. Similar goods means imported goods –
 - a. which although not alike in all respect, have like characteristics and like component materials which enable them to perform the same function. Such goods shall be commercially interchangeable with the goods being valued having regard to the quality, reputation and the existence of trade-mark.
 - b. produced in the country in which the goods being valued were produced; and
 - c. produced by the same person who produced the goods or where no such goods are available, then goods produced by a different manufacturer.

However, similar goods do not include goods where engineering, development, art work, design work, plan or sketch was done by the buyer in India free of charge or at a reduced cost.

2. Such similar goods shall be sold at the same commercial and quantity level. Where no such sale is found, the transaction value of similar goods sold at a different commercial level or in different quantity or both shall be used with certain adjustment.

- Where more than one transaction value of similar goods is found, then the lowest of such value shall be used for determining the value of imported goods.

Determination of value where value can not be determined under rules 3, 4 and 5 [Rule 6]

If the value of imported goods cannot be determined under the provisions of rules 3, 4 and 5, the value shall be determined under the provisions of rule 7 or, when the value cannot be determined under that rule, under rule 8.

However, at the request of the importer, and with the approval of the proper officer, the order of application of rules 7 and 8 shall be reversed.

Deductive Value [Rule 7]

Where the goods being valued or identical or similar imported goods are sold in India at or about the time of determination of value, then the value of imported goods shall be based on the unit price at which such goods are sold in the *greatest aggregate quantity* to the *unrelated* person in India as reduced by -

- the commission usually paid or payable or the additions usually made for profits and general expenses for sales in India;
- the cost of transport and insurance and other cost incurred within India;
- the customs duty and other taxes payable in India by reason of importation or sale of the goods.

Notes

- Where such goods are not sold at or about the same time of importation of the goods being valued, then the value of imported goods shall be based on the unit price at which the imported goods or identical or similar imported goods are sold in India at the earliest date after importation but before the expiry of 90 days after such importation.
- Where such goods are sold in India after further processing, then the value shall be based on the unit price at which the imported goods after processing are sold in the greatest aggregate quantity to unrelated person in India as reduced by processing and other cost (as referred above) incurred in India.

Provision illustrated

Following are the sale details of product X (being 12000 units imported from Japan on 1-1-2024), you are required to compute assessable value of product X for customs duty by applying deductive method –

Date of Sale	Quantity Sold (in units)	Price per unit
01-1-2024	1000	₹ 100
10-1-2024	2000	₹ 98
19-1-2024	500	₹ 101
27-2-2024	1500	₹ 100
03-3-2024	1000	₹ 98
13-3-2024	1500	₹ 99
30-3-2024	1000	₹ 98
07-5-2024	2000	₹ 100

Assume the expenditure incurred in India (including profit) is ₹ 18 per unit. Duty is charged on such article @ 25% (including SWS) ad valorem.

Solution

Quantity sold at different prices are summarized below –

Price per unit	Quantity sold
₹ 100	1000 + 1500 = 2500 units
₹ 98	2000 + 1000 + 1000 = 4000 units
₹ 101	500 units
₹ 99	1500 units

Note: Sale made on 7/5/2023 is not considered as it is made after 90 days from importation thereof.

The greatest number of units sold at a particular price is 4000 units, therefore, the unit price in the greatest aggregate quantity is ₹ 98.

Computation of assessable value :

Assessable value + Customs duty = Unit sale price as computed above - Expenditure incurred in India

Assessable value + 25% of Assessable value = ₹ 98 – ₹ 18

125% of Assessable value = ₹ 80

Assessable value = ₹ 64 per unit

Assessable value of 12000 units = ₹ 7,68,000

Duty on above = ₹ 1,92,000

Computed value [Rule 8]

The value of imported goods shall consist of –

- a. The cost or value of materials and fabrication or other processing employed in producing the imported goods;
- b. An amount for general expenses and profit made by producers in the country of exportation for export to India;
- c. The cost of transport, insurance, etc. as referred in rule 10(2).

This method is normally possible when the importer in India and foreign exporter are closely associated and the foreign exporter is willing to give necessary costing.	
Cost of Materials and General expenses for producing the imported goods	XX
Add: profit of the exporter	XX
Add: all expenditure as per Rule 10	XX
Assessable Value	XX

Residual Method [Rule 9]

Where the value of imported goods shall not be determined as per any preceding rules, then the value shall be determined using -

- ⦿ reasonable means consistent with the principles;
- ⦿ general provisions of these rules; and
- ⦿ data available in India.

Taxpoint:

- ⦿ However, the value so determined shall not exceed the price at which such or like goods are ordinarily sold or offered for sale for delivery at the time and place of importation in the course of international trade, when the seller or buyer has no interest in the business of other and price is the sole consideration for the sale or offer for sale.
- ⦿ Further, no value shall be determined on the following basis –
 - a. The selling price in India of the goods produced in India;
 - b. A system, which provides acceptance of value being highest of two alternative values;
 - c. The price of the goods on domestic markets of the country of exportation;
 - d. The cost of production (other than computed value) for identical or similar goods;
 - e. The price of the goods for export to a country other than India;
 - f. Minimum customs values;
 - g. Arbitrary or fictitious values

Cost and Services [Rule 10]

Already discussed in Rule 3

However, following are to be noted:

Where the FOB value of the goods is not ascertainable but the sum of FOB value of the goods and insurance cost is ascertainable	the transport cost shall be 20% of such sum
Where the FOB value of the goods is not ascertainable but the sum of FOB of the goods and the transport cost is ascertainable	the insurance cost shall be 1.125% of such sum

Taxpoint:

- ⦿ Where CIF value is given but transport cost is not available, then transportation cost would be:

$$\text{Cost of transport} = \text{CIF Value} \times 20/120$$

- ⦿ Where CIF value is given but insurance cost is not available, then transportation cost would be:

$$\text{Cost of insurance} = \text{CIF Value} \times 1.125/101.125$$

Other points

Declaration by the importer [Rule 11]

The importer or his agent shall furnish –

- a. A declaration disclosing full and accurate details relating to the value of imported goods; &
- b. Any other statement, information or documents including an invoice of the manufacturer or producer of the imported goods (where the goods are exported by a person other than the manufacturer or producer) as considered necessary by the proper officer for determination of the value of imported goods.

Notes

1. Declaration by importer, inter alia, includes –
 - Relationship between buyer and seller;
 - The basis of the declared value;
 - Conditions and restriction attached with sale;
 - Costs not included in the invoice.
2. The provision of the Customs Act, 1962 relating to confiscation, penalty and prosecution shall apply to the cases where wrong statement, information, documents or declaration are furnished under these rules.

Rejection of declared value [Rule 12]

When the proper officer has reason to doubt the truth or accuracy of the value declared in relation to any imported goods, he may ask the importer of such goods to furnish further information including documents or other evidence.

Where even after receiving such further information or in the absence of a response from such importer, the proper officer has reasonable doubt about the truth or accuracy of the value so declared, then it shall be deemed that the value of such imported goods cannot be determined under transaction value.

At the request of an importer, the proper officer shall intimate the importer in writing the grounds for doubting the truth and accuracy of the value declared by such importer and provide a reasonable opportunity of being heard before taking a final decision.

Taxpoint

- ⊙ This rule by itself does not provide a method for determination of value, it provides a mechanism and procedure for rejection of declared value in cases where there is reasonable doubt that the declared value does not represent the transaction value; where the declared value is rejected, the value shall be determined by proceeding sequentially in accordance with rules 4 to 9.
- ⊙ The declared value shall be accepted where the proper officer is satisfied about the truth and accuracy of the declared value after the said enquiry in consultation with the importers.
- ⊙ The proper officer shall have the powers to raise doubts on the truth or accuracy of the declared value based on certain reasons which may include -
 - a. the significantly higher value at which identical or similar goods imported at or about the same time in comparable quantities in a comparable commercial transaction were assessed;
 - b. the sale involves an abnormal discount or abnormal reduction from the ordinary competitive price;
 - c. the sale involves special discounts limited to exclusive agents;
 - d. the misdeclaration of goods in parameters such as description, quality, quantity, country of origin, year of manufacture or production;
 - e. the non declaration of parameters such as brand, grade, specifications that have relevance to value;
 - f. the fraudulent or manipulated documents.

Interpretative notes [Rule 13]

The interpretative notes specified in the schedule to these rules shall apply for the interpretation of these rules.

Rule 7

1. The term “unit/price at which goods are sold in the greatest aggregate quantity” means the price at which the greatest number of units is sold in sales to persons who are not related to the persons from whom they buy such goods at the first commercial level after importation at which such sales take place.
2. As an example of this, goods are sold from a price list which grants favorable unit prices for purchases made in larger quantities.

Example:

Sale quantity	Unit price	Number of sales	Total quantity sold at each price
1-10 units	100	10 sales of 5 units, 5 sales of 3 units	65
11-25 units	95	5 sales of 11 units	55
Over 25 units	90	1 sale of 30 units, 1 sale of 50 units	80

The greatest number of units sold at a price is 80, therefore, the unit price in the greatest aggregate quantity is 90.

3. As another example of this, two sales occur. In the first sale 500 units are sold at a price of 95 currency units each. In the second sale 400 units are sold at a price of 90 currency units each. in this example, the greatest number of units sold at a particular price is 500, therefore, the unit price in the greatest aggregate quantity is 95.
4. A third example would be the following situation where various quantities are sold at various prices.

a. **Sales**

Sale quantity	Unit price
40 units	100
30 units	90
15 units	100
50 units	95
25 units	105
35 units	90
5 units	100

b. **Totals**

Total quantity sold	Unit price
65	90
50	95
60	100
25	105

In this example, the greatest number of units sold at a particular price is 65, therefore, the unit price in the greatest aggregate quantity is 90.

Valuation of exported goods

The value of export goods shall be deemed to be the price at which such or like goods are ordinarily sold or offered for sale for delivery at the time and place of exportation in the course of international trade.

The above price is taken into consideration only when following conditions are satisfied -

- a. The seller and the buyer have no interest in the business of each other;
- b. One of them has no interest in the business of other; and
- c. The price is the sole consideration for the sale or offer for sale.

Notes

1. Price shall be calculated with reference to the rate of exchange as in force on the date on which a shipping bill or bill of export is presented. It is to be noted that rate determined by the Board shall be considered.
2. Generally, free on board value shall be considered as price for export. If the export sale contract is a CIF contract, then post exportation elements like insurance, freight are required to be adjusted.

6.3.2 Customs Valuation (Determination of Value of Export Goods) Rules, 2007

Rule 1 Short title, commencement and application:

1. These rules may be called the Customs Valuation (Determination of Value of Export Goods) Rules, 2007.
2. They shall come into force on the 10th day of October, 2007
3. They shall apply to the export goods.

Rule 2 Definitions

1. Goods of like kind and quality means export goods which are identical or similar in physical characteristics, quality and reputation as the goods being valued, and perform the same functions or are commercially interchangeable with the goods being valued, produced by the same person or a different person; and
2. Transaction Value means the value of export goods within the meaning of sec. 14(1) of the Customs Act, 1962

Rule 3 Determination of the method of valuation

1. Subject to rule 8, the value of export goods shall be the transaction value.
2. The transaction value shall be accepted even where the buyer and seller are related, provided that the relationship has not influenced the price.
3. If the value cannot be determined under the provisions of sub-rule (1) and sub-rule (2), the value shall be determined by proceeding sequentially through rules 4 to 6.

Rule 4 Determination of export value by comparison

1. The value of the export goods shall be based on the transaction value of goods of like kind and quality exported at or about the same time to other buyers in the same destination country of importation or in its absence another destination country of importation adjusted in accordance with the provisions of sub-rule (2).

2. In determining the value of export goods under sub-rule (1), the proper officer shall make such adjustments as appear to him reasonable, taking into consideration the relevant factors, including-
 - i. difference in the dates of exportation,
 - ii. difference in commercial levels and quantity levels,
 - iii. difference in composition, quality and design between the goods to be assessed and the goods with which they are being compared,
 - iv. difference in domestic freight and insurance charges depending on the place of exportation.

Rule 5 Computed value method

If the value cannot be determined under rule 4, it shall be based on a computed value, which shall include the following:-

1. cost of production, manufacture or processing of export goods;
2. charges, if any, for the design or brand;
3. an amount towards profit.

Rule 6 Residual method

1. Subject to the provisions of rule 3, where the value of the export goods cannot be determined under the provisions of rules 4 and 5, the value shall be determined using reasonable means consistent with the principles and general provisions of these rules provided that local market price of the export goods may not be the only basis for determining the value of export goods.

Rule 7 Declaration by the exporter

The exporter shall furnish a declaration relating to the value of export goods in the manner specified in this behalf.

Rule 8 Rejection of declared value

1. When the proper officer has reason to doubt the truth or accuracy of the value declared in relation to any export goods, he may ask the exporter of such goods to furnish further information including documents or other evidence and if, after receiving such further information, or in the absence of a response of such exporter, the proper officer still has reasonable doubt about the truth or accuracy of the value so declared, the transaction value shall be deemed to have not been determined in accordance with sub-rule (1) of rule 3.
2. At the request of an exporter, the proper officer shall intimate the exporter in writing the ground for doubting the truth or accuracy of the value declared in relation to the export goods by such exporter and provide a reasonable opportunity of being heard, before taking a final decision under sub-rule (1).

Explanation - (1) For the removal of doubts, it is hereby declared that-

- i. This rule by itself does not provide a method for determination of value, it provides a mechanism and procedure for rejection of declared value in cases where there is reasonable doubt that the declared value does not represent the transaction value; where the declared value is rejected, the value shall be determined by proceeding sequentially in accordance with rules 4 to 6.
- ii. The declared value shall be accepted where the proper officer is satisfied about the truth or accuracy of the declared value after the said inquiry in consultation with the exporter.
- iii. The proper officer shall have the powers to raise doubts on the declared value based on certain reasons which may include-
 - a. the significant variation in value at which goods of like kind and quality exported at or about the same time in comparable quantities in a comparable commercial transaction were assessed.
 - b. the significantly higher value compared to the market value of goods of like kind and quality at the time of export
 - c. the declaration of goods in parameters such as description, quality, quantity, year of manufacture or production.

Computation of Assessable Value and Duties

6.4

Date for determination of rate of duty and tariff valuation of imported goods [Sec. 15]

The rate of duty and tariff valuation (if any) applicable to any imported goods shall be rate and valuation in force –

Case	Rate and Tariff Value, if any, in force on
Goods entered for home consumption u/s 46	Date on which bill of entry is presented
Goods cleared from warehouse for home consumption	Date on which bill of entry for home consumption is presented
In any other case	Date on which duty is paid

Taxpoint

1. Where a bill of entry has been presented before the date of -

➤ Entry inwards of the vessel	The bill of entry shall be deemed to have been presented on the date of such entry inwards
➤ Arrival of the aircraft or vehicle	The bill of entry shall be deemed to have been presented on the date of arrival of aircraft or vehicle
It is to be noted that for determining assessable value, rate of exchange in force on actual submission of bill of entry shall be taken.	

Example 6:

If Bill of entry is presented on 10-10-2023 and the aircraft arrived on 20-10-2023, in this situation, relevant date for determination of rate of duty and tariff valuation (if any) is 20-10-2023. Though the bill of entry is presented on 10-10-2023 for procedural purpose, but for the purpose of determination of rate of duty and tariff valuation, bill of entry will be deemed to have been filed on 20-10-2023.

2. The provision of this section shall not apply to baggage and goods imported by post.
3. Further, Social welfare surcharge @ 10% of the basic customs duty is also applicable.
4. Moreover, integrated tax (IGST) is also payable at applicable rate on assessable value + basic duty + social welfare surcharge. Import is considered as inter-State supply under GST laws and liable for reverse charge.

Illustration 8:

Assessable value of an item imported is ₹ 2,00,000. Basic customs duty is 10%, integrated tax is 18%, and social welfare surcharge is 10% on duty. Compute the amount of total customs duty and integrated tax payable. Ignore GST Compensation Cess.

Solution:

Computation of customs duty

	Particulars	₹
1.	Assessable Value	2,00,000
2.	Basic customs duty @ 10%	20,000
3.	Add: Social Welfare surcharge @ 10% on ₹ 20,000	2,000
4.	Sub-total	2,22,000
5.	Integrated tax @ 18% of ₹ 2,22,000	39,960
6.	Total customs duty and integrated tax payable [(2) + (3) + (5)]	61,960

Illustration 9:

X & Co. imported some goods from USA for being used in manufacture of its final product. Determine the exchange rate to be considered for computation of import duty from the following information:

Date	Particulars	Rate of exchange for 1 US\$ notified	
		By CBIC	By RBI
10.10.23	Import general manifest was submitted by master of vessel	₹ 64.20	₹ 63.20
15.10.23	Entry Inwards was granted by the customs officer	₹ 64.30	₹ 65.30
23.10.23	X & Co. presented the Bill of Entry	₹ 64.50	₹ 62.50
31.10.23	Goods were allowed to be cleared from the customs port	₹ 64.60	₹ 63.60

Solution:

The relevant rate of exchange for the purpose of valuation of imported goods is the rate of exchange (being notified by CBIC) as in force on the date on which a bill of entry in relation to imported goods is presented, i.e. 1 US \$ = ₹ 64.50. Further, rate of exchange notified by CBIC is relevant. Rate notified by RBI is not relevant.

Date for determination of rate of duty and tariff valuation of export goods [Sec. 16]

The rate of duty and tariff valuation (if any) applicable to any export goods shall be rate and valuation in force –

Case	Rate and Tariff Value, if any, in force on
When goods entered for export u/s 50	Date on which the proper officer makes an order permitting clearance and loading of the goods for exportation u/s 51
In any other case	Date on which duty is paid

Note: The provision of this section shall not apply to baggage and goods imported by post.

Illustration 10:

Malya Internationals Ltd., has imported a machinery by air from Germany. Bill of Entry is presented on 20.01.2024. However, entry inwards is granted on 25.01.2024. Relevant information of the transaction are provided hereunder:

(i)	CIF Value of Machine	5,500 USD
(ii)	Air Freight Paid	1250 USD

(iii)	Insurance Charges Paid	100 USD
(iv)	Rate of Exchange on 20.01.2024	As per RBI 1 USD = ₹ 65.50 As per CBIC 1 USD = ₹ 66
(v)	Rate of Exchange on 25.01.2024	As per RBI 1 USD = ₹ 66.50 As per CBIC 1 USD = ₹ 67
(vi)	Basic Customs Duty Rate	10%
(vii)	IGST Rate	18%

Calculate the assessable value in INR for the purposes of levy of customs duty as well as total customs duty.

Solution:

Computation of assessable value

Particulars	Amount in \$
CIF Value	5,500
Less: Air Freight	1250
Less: Insurance	100
FOB Value	4,150
Add: Air Freight [Since actual air freight is more than 20% of FOB, 20% of FOB shall be considered (4150 x 20% = 830)]	830
Add: Insurance	100
Assessable Value (in US \$)	5,080
Assessable Value in ₹	3,35,280

Computation of customs duty

Particulars	Details	Amount
Assessable Value	3,55,280	
Add: Basic Customs Duty @ 10%	35,528	35,528
Add: Social Welfare Surcharge @ 10% on BCD	3,553	3,553
Total [A]	3,94,361	
Add: IGST @ 18% [A x 18%]	70,985	70,985
Total duty payable		4,33,442

Illustration 11:

Compute the total duty and integrated tax payable under the Customs Law on an imported equipment based on the following information:

- ⦿ Assessable value of the imported equipment US \$ 10,100
- ⦿ Date of bill of entry is 25th April. Basic customs duty on this date is 10% and exchange rate notified by the Central Board of Indirect taxes and Customs is US \$ 1 = ₹ 65.
- ⦿ Date of entry inwards is 21st April. Basic customs duty on this date is 20% and exchange rate notified by the Central Board of Indirect taxes and Customs is US \$ 1 = ₹ 70.
- ⦿ Integrated tax: 18%
- ⦿ Social Welfare surcharge 10%

Solution:

Computation of customs duty

Particulars	₹
Assessable value (\$ 10,100 x 65)	6,56,500
Add: Basic custom duty @ 10% [A]	65,650
Add: Social Welfare Surcharge @ 10% on ₹ 65,650 [B]	6,565
Value for computing IGST	7,28,715
Add: Integrated tax @ 18% [C]	1,31,169
Total Customs duty and integrated tax payable [A + B + C]	2,03,384

Illustration 12:

RPG Ltd. imported 125 units of minerals from High Seas for sale in India. Selling price is exclusive of duties and taxes. Freight from port to depot in India is ₹ 2,530 and insurance ₹ 310.

Sale quantity	Unit price (₹)
80	105
60	90
30	105
100	100
50	95
70	90
10	105

Basic Customs Duty - 12%. Assume there is no IGST applicable for the product.

You are required to calculate total customs duty as per Rule 7 of customs valuation (Determination of value of imported goods) Rules 20017.

Solution:

First of all, we are required to determine the price at which greatest quantity of the product is sold

Total quantity (Unit)	Unit price (₹)
130	90
50	95
100	100
120	105

The greatest number of units sold at a particular price is 130 units. Therefore, the unit price in the greatest aggregate quantity is ₹ 90.

Particulars	₹
Selling price (125 x ₹ 90)	1,1250
Less: Freight (post shipment)	(2,530)

Particulars	₹
Less: Insurance (Post shipment)	(310)
Assessable value	8,410
Custom duty [(12% + 10% SWS of BCD) = 13.20%]	1,110

Illustration 13:

From the undermentioned relating to import made on 12.10.2023 of product 'Minic' from New York, USA, to the Kochi Airport, by Mr. Prahalad, the importer:

FOB value of the product	\$ 10,000
Cost of transport	\$3,500
Insurance	\$ 1,000
Unloading charges at Kochi Airport	₹ 24,800
Basic customs duty	10%
IGST	18%
Exchange rate notified by RBI	1\$ = ₹ 64.50
Exchange rate notified by CBIC	1\$ = ₹ 64

Ascertain the assessable value and total tax and duty payable by Mr. Prahalad.

Solution:

Computation of assessable value and customs duty

Particulars	Amount (\$)
FOB value of the product	10,000
Cost of transport [restricted to 20% of FOB]	2,000
Insurance (Actual) [if actual amount of insurance is known, the same is to be taken]	1,000
CIF Value	13,000
	Amount (₹)
Assessable value (13,000 × 64)	8,32,000
Basic customs duty at 10% [A]	83,200
Add: Social Welfare Surcharge @ 10% of custom duty [B]	8,320
Value for the purpose of levying integrated tax	9,23,520
Add: Integrated tax @ 18% [C]	1,66,234
Total duty & tax payable [A + B + C]	2,57,754

ITC of ₹ 1,66,234/- is available against payment of IGST.
